Richard "Dick" Melvin McNinch

Richard "Dick" Melvin McNinch, 90, passed away on April 20, 2013, at his home in Lima.

Dick was born on Jan. 5, 1923, in Dillon, to Leslie and Annie McNinch.

Dick went to grade school and high school in Dell and Lima. After high school, Dick attended the Butte School of Mines and graduated with a CPA degree. In May 1944, Dick was drafted into the Army, served in Germany during the final days of World War II, and was discharged in June of 1946.

On June 11, 1947, Dick married Bonnie Jean Harkness. They lived up Big Sheep Creek on a ranch and raised their two daughters until 1993 when they moved to the outskirts of Lima.

During the early years of their marriage, Dick, Bonnie and Bonnie's family played music for dances around the area. Dick played the guitar, banjo, fiddle, and the harmonica.

Dick is survived by his wife, Bonnie; daughters, Diana (and Dick) Walrath and Evelyn (and Chuck) Larsen; grandsons, Jonathon Walrath, Jason Walrath, and Mark (and Chantel) Larsen; granddaughter, Peggy (and Stephen) Bauman; brother, Ted (and Joan) McNinch; brother-in-law, Bernard (and Jean) Harkness; numerous nieces, nephews, and other relatives.

Funeral services will be conducted 11 a.m. Friday, April 26, at the Lima Community Church with Pastor Chuck Bush presiding. Visitation will begin 10 a.m. at the church. Burial to follow the funeral at the Lima Cemetery. A luncheon will be served back at the church by the ladies of the church following the committal rite. Brundage Funeral Home of Dillon has charge of services.

Letter to the Editor

WHAT IS IT THAT YOU ASSUME I INTEND TO DO TO YOUR LAND????

I just recently applied for, received and paid for the right to explore for minerals, stake claims on and eventually perhaps establish a mining operation on some Cattle Grazing Homestead land where the minerals are reserved by the feds, here in Beaverhead county. I have since attempted to stake the claims but have been denied access to the land by the surface owner. Today I went out to the BLM to discuss the problem and the pretty young lady at the front desk asked me "How would you feel if you were the land owner?". As I left the office I thought that I should have asked "just what is it you assume I intend to do there that might offend the surface owner?"

I discovered the mineral there over 40 years ago. I have the right now to stake a claim. I have no intention of doing anything else without permission from all other parties.

If I managed to start a mine, my intention would be to keep all mining operations underground and to return all waste to the mined out underground openings. I have a proven and patented process for making steel that involves the use of hydrogen. The only emissions from the process would be water vapor and oxygen. There would be absolutely no toxic emissions from the planned operation. If we got going we might be able to create a few hundred jobs and something like 90% of all income would remain in the county.

It seems to me that the environmental lobby has lately come with a whole series of ideas as to how they might save the world from the eminent destruction being caused by mining. I read about one lately where they would save the world by leaving it??? Save it from what??? Leave it for where???

The idea was that they would build a giant spaceship where man could live while it cruised around the universe, going nowhere. It might be able to hold some few thousands of selected individuals but what about the remaining 7 billion people it wouldn't have room for??? My friend Joe, a graduate rocket scientist mentioned to me that there wouldn't be enough money on earth to build the whole thing anyway.

Pres. Obama, in his campaign, talked about creating new sustainable industry, which would definitely not include mining. The problem is that any industry, including the "sustainable" type, would require raw materials and most raw material is usually mined.

We have so many people on earth because of the mining based, technologically sustained society we live in. We actually have less pollution today, per person, than we ever had before. Mankind will never live any other place but on earth and never live here without technology and mining. It's the mining based technology that we have today that allows so many people to live here, as cleanly as we do.

There is, beyond any doubt, enough mineral wealth in western Montana to repay the national debt many times over and at the same time create thousands of new jobs. But it will never do so unless we're allowed to mine it.

So, I ask again, just what evil thing is it that you assume I intend to do to the land involved???

Blind with Vision

By: MJ

Being blind would be a challenge many of us do not experience however; having your sight and not having a vision that prepares us for what lies ahead is far worse. Many people walk through every day doing the same thing, paycheck to paycheck, with no vision preparing them for sudden change.

Do you have a vision of the joy, the blessings and happiness in your life or do you only have a vision for all your struggles and troubles?

Living life without a vision will make 'troubles' become 'struggles' instead of learning experiences. Troubles, trials and tribulations teach us some of the greatest lessons in our lifetime. Being prepared for those troubles by having a vision can turn the troubles into sweet opportunities for growth.

Examples: 1) History teaches us that that our health will change because of age, accidents & etc. happen. 2) Marriage requires commitment, forgiveness, sharing and brings joy along with troubles. Do you only have a vision for the idyllic marriage and not the troubles that will come? 2) Do you have a budget that includes saving dollars?

Life is like a windmill (continually turning). There are many days you will miss being hit by a blade however the day will come when you will get hit and having visions prepare us for that day.

Drop Offs

By: MJ

Baby chicks and ducks have arrived in town. They are so cute and then they grown up. It appears that the owners of two ducklings decided it was too much work to raise them so they turn them out to provide a small meal for a fox, dog... In the real world they would still be cared for by their mothers.

In our society often you will see pups, kittens, and rabbits dropped off on someone's door step. At one time I lived about a mile out of town and our home was a favorite drop off spot for pregnant dogs and cats. My wish was to see who dropped them thus allowing me to be able to return them. Of course this never happened as they were dropped during the dark of night.

If you don't want them, why do you think someone else would want them?

Friends

Friendship is not about whom you have known the longest in your life. Friendship is about who came and never left your life.

LETTER TO THE EDITOR

Chuck Dishno, I did miss the San Francisco earthquake by 30 years. But I still felt the aftershock. Many thanks for the Birthday card you sent me in the mail. Made my day. Again many thanks...
