Stop Dark Money Initiative Launched

22 legislators and proponents enthusiastically gathered in the front lobby of the Great Falls Civic Center to sign their names on a homemade sign donning the topic of the gathering: StopDarkMoney.com. The group announced that they will be launching a Stop Dark Money ballot initiative campaign in Montana that will place a new campaign disclosure law on the 2014 ballot.

"Straight to the point—the people of Montana deserve to know who's influencing their politicians and government officials," said State Sen. Jim Peterson (R-Butte). "We're going to do something about dark money and the first step is to make the voice of the people heard. We're announcing a ballot initiative to shed light on the dark money that's made our political process so divisive and unproductive."

Peterson was joined by nine legislators who supported a similar effort in the Montana Legislature. The group explained the process of a ballot initiative and made it clear how supporters can get involved in the early stages of the effort.

"We'll need the help of people across Montana to gather signatures," said State Sen. Ed Buttrely (R-Great Falls). "After the language is approved, a ballot initiative requires that at least five percent of registered voters in each district support the measure before it can be placed on our official ballot."

Stop Dark Money Montana launched a Facebook page late Sunday that can be found at www.StopDarkMoney.com. Information and updates on the language of the initiative will be made available here until the official website is launched. The group touted their plan to make a website available to voters that will painlessly compare the proposed law with existing law and show examples of where the current law has failed the trust of voters. More information can be found at www.StopDarkMoney.com.

Thank You

Two things, thank you for the work of putting the dillonite daily on the Internet. I got it and whenever I can not pick up a paper, I will be able to get the news on line. THANK YOU SO MUCH.

The other thing is that Thursday 6 June 2013 will be the anniversary of D-DAY 1944, the storming of Normandy during WW II. and the following week, June 14th will be FLAG DAY. Oh yes and soon it will be 51 years since my release from captivity in Vietnam.

Thank you so much for being there everyday for us all.

Summer Hours at Gracie's New and Used

Local landmark, Gracie's New and Used will be open this summer between 9:00 a.m. and 4:00 p.m. Monday through Saturday according to owner, Sharon Lawyer. Located at 140 W. Bannack, local residents who have been in the area very long will all have stories to tell about experiences at Gracie's. The Rose Quartz fence in the front of the property has been the subject of many photographs. Out-of-town guests will enjoy seeing the fence and browsing through this historic "mother" of all collections.

Recreation Areas**

The Forest Service will be applying insecticides in recreation sites throughout the Beaverhead-Deerlodge National Forest over the next few weeks. The need for this is driven by the current mountain pine beetle epidemic, which has heavily affected many areas throughout southwest Montana and has already impacted some individual trees within popular recreation areas.

If you're planning your annual family outing on the Beaverhead-Deerlodge National Forest, or if it's your first venture to the 3.35 million acres of Montana woodland, you may note that many of the recreation sites will look different than seen in years past or in the pictures that may have prompted your destination.

"We'll begin in June with individual tree treatments in those places we know a large majority of Forest visitors and users will be this summer - campgrounds, day-use areas and trailheads," stated Bruce Schuelke, Reforestation Forester for the Forest. "To be effective, we must spray the green trees before the beetles fly again in mid-summer when they'll bore into and lay their eggs in new-found trees." In addition Schuelke stated, "Campground users will notice packets stapled to trees. These 2"x2" packets are Verbenone and/or MCH and are used to ward away bark beetles in area's that we cannot spray the Carbaryl pesticides because of being too close to water".

Beginning mid-June and continuing through mid-July depending upon the weather, a Forest Service workforce and contract sprayers will be placing packets and spraying Carbaryl to protect individual pine trees from mountain pine beetles in recreation sites on the following ranger districts of the Beaverhead-Deerlodge National Forest:

The Children's Writing Corner

With Jeannie James

The school year has come to a close for all the young writers in our area, so now you have time to write stories and poems about anything that takes your fancy. Some of you probably like to illustrate your writing and some will prefer to do private journals, but whatever your style, "The Children's Writing Corner" will be a place to read stories written by adults for children and by young people who love to play with words. This column will be published each week in the Wednesday edition of the Dillonite Daily. At the end of the summer, there will be prizes for the best pieces submitted.

To start things off, I am going to share a tale I wrote for my granddaughter, Isabella, a few years ago. This will take several weeks as it will be published in serial form. This means you will be able to read part of the story each week. If you miss a week, you can contact me at jeanjes@bresnan.net and I will email your missing installment to you. You can also send your stories and poems to me or comment on the column at the same email address. I'll look forward to hearing from you. Let's have some fun with our reading and writing this summer. Check for "The Children's Writing Corner" tomorrow.

Breakfast Wisdom

Mom was right! Breakfast is the most important meal of the day. Miss this morning meal and you could be shortchanging yourself on the scale. How? Studies show that people who eat breakfast tend to weigh less than those who don't. Why? When breakfast skippers get hungry later in the day, they tend to overeat. Also people who eat breakfast are more likely to maintain their weight loss. In your meeting this week, you'll discuss the benefits of this month's Routine — Eat breakfast every day — and explore healthy and tasty options that work best for you, whether you're eating at home, the office or on the go.

Build a better breakfast.

Complex carbs, protein, fat and fiber work together to replenish your body's fuel reserves and keep you satisfied longer. The best balance of these nutritional components can vary from person to person, so you might have to experiment to find the right "formula" for you.

Often our food choices are influenced by how much time we have to prepare and actually eat the meal. Take a moment to think about what you normally eat in the morning during a typical workweek. Keeping your breakfasts tasty, varied and convenient will help you stick to this month's Routine.

Need a few easy ideas right now? Chew on these:

AM parfait: Low-fat Greek yogurt layered with fresh berries and low-fat granola

Waffle treat: Frozen multi-grain waffle, toasted and topped with almond butter and apple slices

Speedy wrap: Egg, scrambled with low-fat cheese and tomato, rolled in a whole-wheat tortilla

Vegan breakfast sandwich: Peanut butter, honey and a sliced banana on a whole-grain English muffin

Easy to eat on the run: Hard-boiled egg, cheese stick, sliced pear and whole-grain crackers

Final Ruling by USDA

as reported in "The Montana Ag Reporter"

To the delight of a majority of grassroots cattle producers across the country, on May 23, the USDA issued its final country-of-origin-labeling rule amending previously adopted provisions to bring the program into compliance with international trade obligations. COOL was challenged at the World Trade Organization (WTO) by Canada and Mexico. USDA's final rule modifies the labeling provisions for muscle cut covered commodities to require the origin destinations to include information about where each of the production steps occurred and removes the allowance for the commingling of muscle cuts.

The U.S. Cattlemen's Association released a statement praising USDA for finalizing the rule as published earlier this year and saying the changes will strengthen the overall program and provide consumers with even more labeling information. The National Cattlemen's Beef Association (NCBA), on the other hand, wasn't quite so happy. "We are deeply disappointed with this short-sighted action by USDA," said Scott George, NCBA president. "While trying to make an untenable mandate fit with our international trade obligations, USDA chose to set up U.S. cattle producers for financial losses."

Annual Fireworks Display

The Dillon Jaycees are asking for your support. Save your change and donate it to the Dillon Jaycees for the Annual Fireworks Display. The Jaycees will be raising money for the 4th of July fireworks display on June 7th during Feel Good Friday on KDBM/KBEV radio stations. Be ready to call in with your donation or challenge and support a great group doing another great thing for our community! For more information call Kathi at 406-925-3688.
