Dillon Volunteer Fire Department Reminder

Every year around the country there is a rise in the number of residential (home) fires during the winter/holiday months. Here are some helpful tips that can be used to prevent your family from having to go through the tragedy of having a fire in your home.

As the temperatures drop and the utilities bills go up we need to be cautious when using alternative heating sources.

Wood Burning Stoves & Fireplaces

- Keep combustible materials away from stoves and fireplaces.
- Have the chimney inspected annually and cleaned.
- Do not use Flammable liquids to ignite or accelerate any fire.
- Keep a glass or metal screen in front of the fireplace opening to prevent embers or sparks from escaping.
- Never burn charcoal indoors. Charcoal gives off high amounts of carbon monoxide.

Portable Space Heaters

- Space Heaters need SPACE! Keep the area around your heater clear of combustibles.
- Do not operate space heaters in confined spaces.
- Keep them out in plain sight.
- Plug directly into an outlet.
- Do not use a light duty extension cord.
- All space heaters should have an automatic shutoff feature in case it is knocked over.
- Do not use electric heaters in bathrooms.

Furnaces

- Have your furnace inspected to make sure it is in good working condition.
- Leave furnace repairs to qualified specialists.
- Inspect the walls and ceiling near the furnace. If the wall is hot or discolored, contact a qualified specialist.

Cold Weather Issues

- Never use an oven or range to heat your home.
- Never try to thaw frozen water pipes with a blow torch or any other open flame.
- If there is a fire hydrant near your home you can help the fire department by keeping the hydrant clear of snow so that it can be easily located.

With the holidays just around the corner there are specific fire hazards that we all need to be aware of to keep our family and friends safe as we get together and enjoy the holiday season together.

Decorations

- Keep all decorations away from open flames and other sources of ignition.
- Inspect holiday lights each year for frayed wires, excessive kinking, and cracked sockets.

- Wires should not be warm to the touch.
- Do not overload electrical outlets.
- When necessary, use a UL listed electrical strip with over current protection.

Natural Cut Christmas Trees

- Keep the tree stand filled with water at all times.
- Needles should be green and hard to pull off the branches.
- Insure that the trunk of the tree has a fresh cut.
- The trunk should feel sticky to the touch.
- Keep your tree away from open flames and heat sources.
- Heat will dry out the tree causing it to easily ignite if exposed to heat.

Artificial Trees

- Insure that the tree is fire resistant and contains a tag with a UL label.

Candle Care

- Never use candles to decorate a Christmas tree.
- Keep candles inside a 1-foot circle, away from decorations and other combustible materials.
- Use sturdy candle holders that won't easily tip over and will collect candle wax.
- Keep candles high and out of reach of children and pets.
- Extinguish after use and never leave unattended.

Cooking Safety

- Never leave boiling, frying, or broiling food unattended. Stay in the kitchen! If you leave the kitchen for even a short period of time, turn off the stove. Keep a fire extinguisher close.
- For small grease fires smother the flames by carefully covering the pan with a lid.
- Never pour water on a grease fire.
- Always turn pot handles toward the back of the stove to avoid accidental spills.

Turkey Fryers

- Place the turkey fryer on a level surface, in an open area

away from homes, fences, sheds, and other structures.
- Never place the fryer on a wooden deck, porch, or in a garage or carport.
- Leave at least 2 feet between the fryer and the propane tank.
- Keep the fryer in full view at all times.
- Keep children and pets away from the fryer.
- Check the oil temperature often. If you see smoke coming from the oil, turn off the gas right away.
- Completely thaw and dry the turkey before frying. Adding a partially frozen or wet turkey to the pot makes the oil splatter, causing a fire or explosion hazard.
- Cover bare skin before adding or removing food from the fryer.
- Raise and lower food slowly to avoid splattering or spilling oil.
- Use the right amount of oil. To find out how much oil to use, read the fryer's instructions, or:
  - Place the turkey in the pot.
  - Fill with water until the turkey is covered by an inch of water.
  - Remove the turkey and pat dry.
  - Mark the water level in the pot.
  - Dump the water, dry the pot, and fill oil to the level marked.
- If the fryer catches fire, call 911 right away (do not try to put it out with water).

Be sure every level of your home has a working smoke alarm and be sure to check and clean them on a monthly basis. At least one carbon monoxide detector is recommended for your home. Plan and practice a home escape plan with your family.

Author Russell Rowland to read in Dillon

Russell Rowland, a native Montana author currently living in Billings, Montana, will be in Dillon on Saturday, November 2nd to read from his new book, High and Inside at the Dillon Public Library basement programming room at 6:00 pm. O. Alan Weltzien will introduce Russell Rowland to the audience at this reading.

Russell Rowland is a fourth generation Montanan, born in Bozeman in 1957. He has a bachelor's degree in music education from Pacific Lutheran University and a Master's in Creative Writing from Boston University. He has published three novels, In Open Spaces and its sequel The Watershed Years. These two books "vividly chronicle the lives of the Arbuckles, a ranching family on the vast plains of eastern Montana." In Open Spaces made the San Francisco Chronicle's bestseller list, and was named among the Best of the West by the Salt Lake City Tribune. The Watershed Years was a finalist for the High Plains Book Award for Fiction. His latest book, High and Inside, is a novel about "a former Boston Red Sox relief pitcher who moves to Montana to get away from it all." It is a novel that "explores the dark side of fame, especially for sports figures." He also co-edited the anthology West of 98: Living and Writing the New American West. He has taught at several colleges and currently teaches at MSU-Billings and does private consulting with other writers. Russell will have books for purchase and signing the night of the reading.

This reading is free and open to the public. The reading is part of the Hometown Humanities program, a year-long series of events being sponsored by Humanities Montana and focusing on the values and culture of Dillon and the surrounding area. Light refreshments will be served. Hope to see you there!

KLAKKEN FOR MAYOR

Mike Klakken has all the experience necessary to be the next mayor of Dillon.

- Mike is a small business owner and knows how hard it is to earn money in the private sector.
- This experience has taught Mike that the taxpayer/ratepayer do not have a bottomless purse. He will work hard to keep government cost lows so that it is affordable to live and work in the city limits. He will make your tax dollar count.

- Mike went to Junior High and graduated from BCHS. After Mike graduated from High School, he worked at Pfizers (Barrett Minerals), attended college and worked as a rocket scientist.
- This experience has revealed how other city governments operate. Mike will apply what he has observed so that families can afford to move back and make Dillon their home.
