CELEBRATE FOOD AND FARMING DURING AG WEEK

The South West County Farm Bureau is celebrating Ag Week, March 23-29. Ag Week is about recognizing – and celebrating – the contribution of agriculture in our everyday lives. There are many things to cheer about modern agriculture, the first being the increase in productivity over the years. In 1960, one farmer fed 25 people. Today that farmer feeds 154 people. Not only that, but, thanks to the productivity of agriculture in our country, consumers only pay 10 percent of their disposable income on food compared to 20 percent in Poland, 36 percent in the Philippines and 47 percent in Cameroon.

Farmers are continually being more productive. Did you know the total U.S. crop yield (tons per acre) has increased more than 360 percent than the 1950s? That it takes 40 percent less feed for a dairy cow to produce 100 pounds of milk than it did 30 years ago? What's especially impressive is that despite an increase in food production, farmers are protecting natural resources more than ever before. Conservation tillage, a way of farming that reduces soil erosion on cropland while using less energy, has grown from 17 percent of acreage in 1982 to 63 percent today. Also included in soil management are practices such as crop rotation and contour farming. Many farmers use conservation practices that preserve and restore wetlands, clean the air and water and enhance wildlife.

"As the president of the South West County Farm Bureau and as a local rancher, I take what I do on my ranch seriously," said Harris Wheat. "I feel I am a real steward of the land. I take pride in the fact that agriculture provides a variety of goods for our community, state, nation and world. For instance, did you know that one bushel of wheat produces 42 pounds of flour which can be used to make 42 pounds of bread or pasta? Not only does agriculture provide food, but it also provides products for manufacturing, construction, printing, health care and entertainment. In addition, it provides alternative energy to help fuel America."

What might be the most impressive statistic is that all of the food being produced by farmers and ranchers in the U.S. is being done by two percent of the population on family farms and ranches. Ag Week is a great time to talk to a farmer or rancher and learn how they do what they do. There are a lot of agricultural people on social media, so get on Facebook, Twitter, Pinterest, YouTube or the platform of your choice and enjoy a good conversation or read one of the many books and magazines that promote and celebrate agriculture. Happy Ag Week.

CONTROLLING PEOPLE:

By: MJ

Sometimes people who really want us to fulfill our own dream are deceiving us. It's really their dream they want to achieve. This type person is referred to often as a "controlling person." Relationships with a person like this generally will go well when others live life their way. Parents sometimes live their dreams out through their children.

Example: Maybe they always wanted to be a great basketball player so they push their child into playing even if the child has no talent or likes for the game. A husband might not want to have his wife join the work force because it would interfere with the comforts for him provided by the wife being home or a wife might not want a husband to retire because he would be around the house in her world. A person serving on a committee or working with a group of people might not want to compromise because in their eyes it is extremity important to the cause for them to remain the, when in reality they are not providing the cause any benefits however; they are controlling others for their own end.

Often when you find yourself in one of these position and you decide to peel off and follow your own star or change the situation the controller will become a very unhappy person (toxic).

Relationships and interaction with others provides support and is important in our lives if it goes both ways. When there is no compromise, no communication then it might be time to find ways to change the situation or walk away.

BULLDOG FOOTBALL ADDS THREE HAMILTON STANDOUTS TO 2014 CLASS

University of Montana Western head football coach B.J. Robertson announced the signing of three Hamilton, Mont., seniors to Frontier Conference/NAIA letters of intent to play football for the Bulldogs. The signings include Mont., Southwest A offensive most valuable player (MVP) Josh Bauder, all-state receiver Teague Blome, and first team all-conference linebacker Matthew Turley.

Bauder is a 6' 0" 195 pound quarterback who roamed the Bronco secondary as well. He threw for 2,873 yards and 23 touchdowns while rushing for 150 yards and seven touchdowns his senior year. Josh was selected as the first team all-state quarterback as well as the Mont., Southwest A offensive MVP. He was the starting quarterback for three years and earned conference honors for his play all three seasons. "Josh has a live arm and is a strong physical kid," Coach Robertson said. He plans to study secondary education while attending Montana Western. He is the son of Dean and Wendy Bauder.

Blome is a 6' 0" 170 pound wide receiver/safety. During his senior season he had 1,000 yards receiving and 13 touchdowns while being selected to the all-state team. Defensively he had four interceptions and earned first team all-conference honors as a safety. Teague was selected as an all-conference safety as a junior and a second team all-conference safety as a sophomore. In addition to his exploits on the football field he has been selected to the all-state 4x4 track team.

"Teague is a ball hawk on offense and on defense," said Coach Robertson. "He has a great feel for the game and has that big play ability we look for." He plans to study physical education while attending Montana Western. He was coached by his brother and former Bulldog Travis Blome while attending Hamilton High School. Teague is the son of Jim and Tracey Blome.

Turley is a 5' 10" 175 pound linebacker. He earned first team all-conference recognition following his senior season.

"We liked the toughness and grit Mathew displayed at our camp this summer," Coach Robertson said. "We are excited to add that type of kid to our program."

Off the field Turley has been named to the honor roll for his work in the classroom. He plans to study elementary education while attending Montana Western. Mathew is the son of Mike Turley and Kathy Weston.
