Routine People ???

By: MJ

Are you a person that craves routine, used to doing, speaking and thinking the same things day in and day out? Routine thinkers often let someone handle the controls and they are just a passenger. **Problem**: Routine thinkers function on auto pilot and stop paying attention to what is happening around them in the real world. Routine thinkers are what politicians and muggers like -- uninventive people with their heads down and ear plugs in.

We are taught values and much of the values we are taught tell us how things should be however; that isn't how things are in today's real world. Phony politeness is alive and well. Politicians and muggers know that life is a game and they take advantage of your achievements to promote their own success.

We work hard to achieve success and then work hard to keep it. Humans have a reptilian nature and like snakes are ready to inject venom into your success -- it's called cheating. Politicians line their personal pockets by taking advantage of the ways they find to spend your hard earned tax dollars while convincing you that it is for your own good. Politicians are very good at exploiting the facts, lying, cheating, manipulation, and they don't hesitate to commit any nefarious act that will get them to their goals.

How does manipulation work? There is a trillion dollar corporate marketing/advertising machine that is programming people every waking hour of the day. **Example**: fast food restaurants show you a lot of happy smiling people enjoying a meal but hardly ever do you see a big old hamburger oozing fat, car companies sell you romance & sex with beautiful new models dressed in the latest... Smoke and mirrors is the name of the game.

If you are standing on a street corner and some car runs over your foot, are you going to stick the other foot out for him to get on the next pass? That's what we are doing by not paying attention to what our elected officials are doing and re-electing them time and time again. Your foot can only be mashed so many times before it becomes a stump. We can't change the past but we can change the future by via education and participation.

Government Welfare System:

By: MJ

The Cato Institute reported that the "The current welfare system provides such a high level of benefits that it acts as a disincentive for work." In 35 states, welfare pays more than the federal minimum wage of $7.25 per hour, and in 13 states welfare pays more than $15 per hour. Why wouldn't the welfare participants' increase when you can make more then you can at a job?

According to the Department of Agriculture the number of households on food stamps reached record high in June. The USDA reported that 23,116,928 households participated in the Supplemental Nutrition Assistance Program in June, up from 23,071,020. The monthly benefits for each household was lower than precious years by $274.55

God bless those who are working as many as two jobs, including my grandchildren, to keep up with inflation costs and higher taxes because they want to be independent and pay their own way. Are people being ask to bury their pride, moral and emotional feelings for the sake of being able to spend time with their families and pay the heat bills?
