2014 MSSBA Ewe Grant

The Montana Suffolk Sheep Breeders Association announces the winners of the 2014 MSSBA Ewe Grant. This year's winners are Levi Kramer and James Kramer. Levi is the son of Ray and Melissa Kramer of Columbus, MT and James is the son of Karsten and Barb Kramer of Dillon, Mt.

Recipients were awarded a $300 grant to be used to purchase a Suffolk ewe lamb or yearling ewe. To be eligible for the grant, applicants must be between the ages of 9 and 19, be a resident of Montana, and complete an application accompanied by three letters of recommendation. The ewe must be purchased before Nov. 15 .Winners should maintain and breed ewe in flock for two years.

James started taking market lamb projects in 4-H when he was nine years old. He has also been helping his dad shear sheep where he runs the wool packer and is learning the basics of shearing. Last year he decided to expand his sheep project to include breeding sheep. Currently he has three ewes that produced three lambs this year. One of these lambs he will keep to help expand his flock.

The Montana Suffolk Sheep Breeders Association (MSSBA) is a non-profit organization. Funds for the ewe grant are provided for in part by an annual raffle. The association has 12 prizes that they are awarding this year, including two framed original drawings, jewelry, and a handmade cedar post chest. The drawing will be held in September at the Montana Woolgrowers Ram Sale in Miles City. Tickets are $2 each or three for $5. To purchase raffle tickets contact Jane Rath at 232-1060 or James Kramer at 925-0659

BEAVERHEAD-DEERLODGE NF OFFERS ABUNDANCE OF JULY 4 RECREATION OPPORTUNITIES

As the July 4th holiday approaches, the Forest Service would like to remind those who are planning for the holiday weekend that there are great places throughout the Beaverhead-Deerlodge National Forest to visit. The forest has over 3,200 miles of trails, 76 campgrounds, picnic and recreation areas, as well as being home to the Anaconda Pintler Wilderness and the Lee Metcalf Wilderness.

Among the traditional camping, hiking and fishing activities, visitors are known to also enjoy wildflower viewing, photography, exploring the back country and a multitude of family activities. Additionally, there are 25 rustic cabins available throughout the forest for rent during the summer and fall hunting season. Go to www.recreation.gov to find out more and to reserve a cabin.

Before you plan your trip, check for current road, trail and campground conditions by contacting the Forest Service, or go online to www.fs.usda.gov/bdnf, always check to see what the current weather conditions are and go prepared for changing conditions. Visitors are cautioned to stay on the road to avoid getting stuck or starting wildland fires and to pay attention to road closed signs.

Access to high-mountain lakes and trails may still be blocked by late-season snow. Hiking to high peaks and hiking high-elevation trails may not be feasible until mid to end of July.

Many trails may not be open at higher elevations or muddy. Please stay on the trail and do not create new trails to get around hazards. Trail users should expect many trails to be impassable from fallen trees. The Forest Service will have minimal ability to clear trees this year due to decreased budgets and the lack of seasonal trail crews.

Visitors are also asked to be careful when recreating in the forest due to the potential for trees to fall. Here are a couple of handy tips: Be aware of your surroundings and avoid dense patches of dead trees. Trees can fall without warning; place tents and park vehicles in areas where they will not be hit if a tree falls; Stay out of the forest when there are strong winds that could blow down trees. If you are already in the forest when winds kick up, head to a clearing out of reach of any potential falling trees.

Bears, both black bears and grizzlies, are out and about. Keep your camp clean and store food out of reach of all animals. This year the Beaverhead-Deerlodge NF is requiring all food and other items that might attract bears must be stored where bears can't access them at night and during the daytime when food and attractants are not attended. 'Attended' means that a person is physically present within 100 feet and in direct sight of the food or carcass. While attended, food and attractants do not have to be stored.

Visitors are cautioned to be extremely careful with fire, fuels such as grass, shrubs and trees are beginning to dry out quickly.

Fireworks are prohibited in National Forests. Fireworks and dry grass and trees are a bad combination. Never leave a campfire unattended. Make sure your campfire is extinguished completely and the coals are cool to the touch before you leave.

Also, please note Spillway campground located on the north end of East Fork Reservoir in Granite County is closed due to falling hazardous trees.

For more information, call the nearest Forest Service office to the area you wish to visit.

Letter to the Editor
LaVon D. Brillhart

Do you ever wonder? When you see a beautiful sunset. When you see children laughing, playing, jumping, running, have a time of their lives. When you see a butterfly sail past you as you are looking at beautiful flowers. As you look at a majestic mountain. When you see a young mother pushing her baby both smiling enjoying life. When you see a young boy/girl eating ice cream, with it all over their face with not a care in the world? And this list just keeps on going and going.

But do you ever wonder why we as humans are so mean to each other and have wars? World War II ended on May 8, 1945, Germany surrendered. Japan surrendered September 2, 1945. But do you know how many days of peace this old planet has seen since those dates? Zero!! Not one!! There has been war, fighting somewhere in the world since the end of W.W.II.

Since the end of W.W.II, the United States has been in the Korean War, Vietnam War, Gulf War, Afghan War and the Iraq War. Since W.W.II, the United States was involved in the invasion of Panama, Grenada and Dominican Republic. The United States was involved in the Nicaraguan civil war, in the Bay of Pigs.

We spend trillions of dollars on wars and the politicians wonder why this country is in such deep debt.

Do you ever wonder living on this beautiful planet why we have to have wars? Why we hate each other! Why do we let the politicians and big corporations dictate that wars are good for us? We all know who won those wars. Will we ever get out of the war business and smile at each other?

MONTANA'S HUNTING AND FISHING LICENSES AND FEES

Fish & Wildlife License-Funding Council to Meet to Review Public Comment

The advisory council tasked with considering changes to Montana's hunting and fishing licenses and fees will meet in Helena, Wednesday, June 25 to review recent public comments on its recommendations.

Montana Fish, Wildlife & Parks recently wrapped up a series of nine public meetings across the state where the Fish & Wildlife Licensing and Funding Advisory Council's recommendations were reviewed and discussed.

The follow-up meeting will be held, Wednesday from 8:30 a.m.-1 p.m. at Montana WILD, at 2668 Broadwater Ave, next to Spring Meadow Lake State Park off Highway 12 West.

The council spent about eight months examining FWP's current license system and funding cycle for fish and wildlife management. That work resulted in a series of recommendations being delivered in April to FWP Director Jeff Hagener. Those recommendations could provide an additional $5.75 million a year to stave off deep budget cuts to fish and wildlife management programs.

The council's recommendations are aimed at a simplified licensing system; standardized license discounts for youth, seniors, and disabled hunters; a revamped base price structure and other adjustments to provide a fair and stable source of revenue for the state's fish and wildlife conservation efforts.

Wednesday's meeting will focus on assessing whether to suggest any changes based on public comment on the recommendations made to FWP. The council also will review a bill draft based on its recommendations that will be presented to the Montana Legislature's Environmental Quality Council in July.

The council's recommendations come at a critical time as FWP nears the end of a 10- year cycle since the last increase in resident hunting and fishing license fees. Montana's last general resident hunting and fishing license fee increase approved by the Montana Legislature came in 2005 and in 2003 for nonresidents. FWP fish and wildlife management programs are primarily funded via the sale of fishing and

hunting licenses.

The call for the funding and license review came from both the 2013 Montana Legislature and Gov. Steve Bullock. The Legislature passed House Bill 609, which requires the Montana Legislature's Environmental Quality Council to conduct a study of hunting and fishing license statutes and fees, while Gov. Bullock requested that FWP begin a public effort to create FWP's budget for consideration by the 2015 Legislature.

For additional information visit FWP's website at fwp.mt.gov. Click "Licensing and Funding Advisory Council".

That faith in God gives meaning and purpose to human life;

That the brotherhood of man transcends the sovereignty of nations;

That economic justice can best be won by free men through free enterprise;

That government should be of laws rather than of men;

That earth's great treasure lies in human personality;

And that service to humanity is the best work of life.

~C.W. Brownfield
