MONTANA ESGR EMPLOYER SUPPORT OF THE GUARD AND RESERVE

Montana ESGR is an agency of the Department of Defense seeking to develop and promote a culture in which all American employers support and value the military service of their employees. We recognize outstanding support, increase awareness of the Uniformed Services Employment Reemployment Rights Act, and resolve conflicts through mediation. Montana ESGR is also a resource for connecting Reserve Component members with opportunities for employment with employers like you.

BLACKBEARD THE PIRATE Auditions

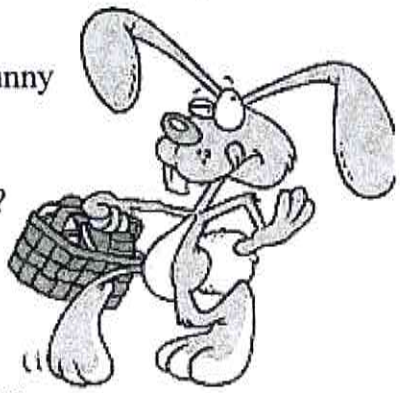
The Easter Bunny



Once I saw the Easter Bunny
Come hop, hop, hop.
So I cried, "Dear Bunny,
Will you stop, stop, stop?

I ran to the window
To say, "How do you do?"
But he shook his fluffy tail,
And said, "Happy Easter to You."

110 S. Idaho St. Dillon, Montana 59725

Archer Spark is 15 months old and the son of Cheyenne and Brandon Sparks of Dillon, Montana. Archer is a one of a kind kid (seriously) that is raised by two amazing individuals that give him unconditional love. His journey is a different form of development and his needs require special doctors. PLEASE READ MORE AND EDUCATE YOURSELF ABOUT ARCHER'S JOURNEY…

Archer is taking the roads less traveled, roads that may not even exist. He has a unique sequencing of genes, never before medically reported, nor researched. His brain found its own way to form w/ a few less parts. He has… Agenesis of the Corpus Callosum, an absence of the major neuron channel connecting the right and left brain. Thankfully there are other communication bridges. Bilateral Periventricular Gray Matter Heterotopia, a condition in which the gray matter of the brain did not migrate properly during the early development of the fetal brain, the source for his various seizures. The gray matter is also what creates "highways" making up the central nervous system. The "highways" are few and far between causing a low toned body making it very difficult for his muscles to engage and hold its own bodies weight. We do not know when Archer will crawl, walk, talk, but he will all in good time! The 'highways' are also very sparse in the vision center of Archers brain, this in turn created a neurological visual disorder. Cortical Visual Impairment (CVI)). He does have very limited visual fields, but it is a 4.7 year learning curve with it is an isolated conditions. Archer's has perseverance and will live a full wonderful life full of struggles and challenges but to him this will be his normal routine, he is already will continue to amaze us everyday and forge his way in life.

The Sparks will be traveling this summer to different doctors and costs of those trips are a finical burden to the Sparks Family. PLEASE HELP US RAISE FUNDS TO GET ARCHER THE HELP HE NEEDS! Together we can be apart of ARCHER'S JOURNEY by supporting this great cause. A Facebook Page will be set-up in the next month so everyone can follow the journey that Archer is going on.

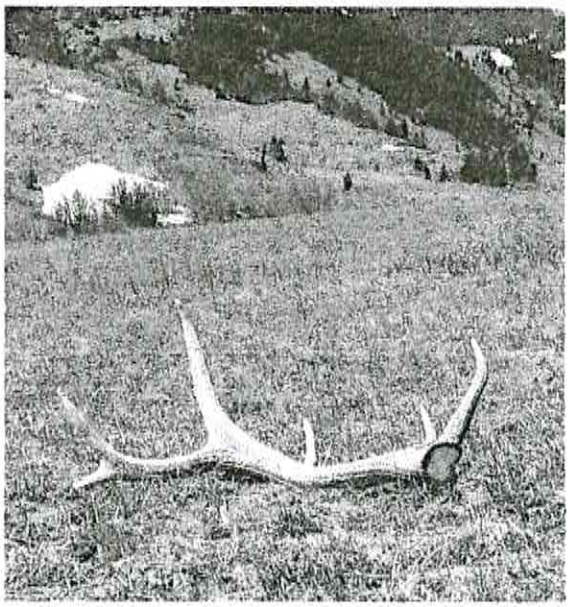
REMINDERS FOR SHED HUNTERS: WMAs ARE CLOSED (& BE BEAR AWARE)

With the arrival of spring and melting snow, shed hunters have taken to the hills in search of cherished shed elk antlers. It's an annual ritual for many; some seeking a fun way to get out in the field, and others hoping to turn found antlers into profit. With that said, shed hunting can be competitive, and may cause some to consider breaking the rules, or to overlook the impact on wildlife or potential dangers to themselves.



First, Montana Fish, Wildlife & Parks would like to remind shed hunters (and all recreationists) that most Region 3 Wildlife Management Areas (WMAs) are closed until noon on May 15. Each year, a number of individuals can't seem to resist the urge to get a jump on the rest of the crowd and access WMAs. It's important to remember that WMAs provide vital, protected winter range for deer and elk. And this is the time of year these animals are the most stressed.

Also, shed hunters should stay alert and remember that southwest Montana is bear country. It's easy to get so focused on searching for sheds that keeping an eye (and ear) open for bears might be forgotten. Shed hunters should be especially cautious when approaching carcasses and carry bear spray in a holster on their hip or across their chest. Be aware that bears may be looking for winter kill in the same area you are looking for sheds. Never try to haze a bear off a carcass.

More information about bear safety can be found here: http://fwp.mt.gov/fishAndWildlife/livingWithWildlife/beBearAware/.

BULLDOG BASKETBALL ANNOUNCES JUNIOR COLLEGE TRANSFER

Montana Western men's basketball coach Steve Keller has announced the signing of Jordan Willis, a 6-foot-5 post from Southwest Oregon Community College to an NAIA Letter of Intent.

"Jordan was a teammate of Dexter Williams Jr. at SWOCC and comes highly recommended by his coach Trevor Hoppe," Keller commented. This past season Willis was selected to the all-region second team.

Last season Willis averaged 18 points and eight rebounds per game. "This past season our team did not consistently rebound well," Keller said. "We look for Jordan to pick up a lot of the rebounding load next year."

A native of Henderson, Nev., Willis is the son of Demetrius Willis and Karen Wilson and intends to major in Biology at Montana Western.

"Jordan is a great student with a 3.34 GPA, we are excited that he has decided to join the Bulldog basketball program," Keller commented.
