### WATER/SEWER COMMITTEE MEETINGS

By: MJ

On the agenda of one meeting was the \$29,000 filtering system to keep the dog hair out of main system. Councilman Hodge asked the question if there were other entities that could help offset some of the expense to the city like: monetary support from Beaverhead County and other counties where dogs are coming from into the pound located in Dillon. He ask about the dogs that were being brought to this pound from Idaho. *No facts of how many animals are coming from the counties were given.*

The committee discussed putting in a septic system. J.S. Turner told the committee that there was not enough room to install a septic system. It was then decided that because the city was the lessor that it would be the cities responsibility to install the filtering system

Ms. Brown gave the committee members the history of the pound. She stated that to operate the pound it would cost \$175,000 a year. Ms. Brown leases the ground where the pound is located from the city and she felt that the city should provide the system and she agreed to clean the filters.. The lease was not discussed.

The dog pound is one of those emotional issues. It does provide a great service to the city by providing a place for people to take dogs and cats they no longer want. We live in a throwaway society today and that includes animals. Motion was made to recommend to the council that they proceed with the filtering system. **Question:** *Is it time the city might want to revisit the lease they have with Ms. Brown for the Dog pound?*

**20 E. Bannack 683-3548****To the editor..***Submitted by Chuck Dishno***A LAWYER WITH A BRIEFCASE CAN STEAL  
MORE THAN A THOUSAND MEN WITH GUNS!**

The Lawyers', by Bruce Walker

The Democratic Party has become the Lawyers Party.

Barack Obama is a lawyer. Michelle Obama is a lawyer. Hillary Clinton is a lawyer. Bill Clinton is a lawyer. John Edwards is a lawyer. Elizabeth Edwards was a lawyer.

Every Democrat nominee since 1984 went to law school (although Gore did not graduate).

Every Democrat vice presidential nominee since 1976, except for Lloyd Bentsen, went to law school.

Look at leaders of the Democrat Party in Congress:

Harry Reid is a lawyer. Nancy Pelosi is a lawyer.

The Republican Party is different.

President Bush is a businessman.

Vice President Cheney is a businessman.

The leaders of the Republican Revolution:

Newt Gingrich was a history professor.

Tom Delay was an exterminator.

Dick Arney was an economist.

House Minority Leader Boehner was a plastic manufacturer.

The former Senate Majority Leader Bill Frist is a heart surgeon.

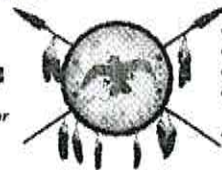

Who was the last Republican president who was a lawyer? Gerald Ford, who left office 31 years ago and who barely won the Republican nomination as a sitting president, running against Ronald Reagan in 1976.

The Republican Party is made up of real people doing real work, who are often the targets of lawyers.

The Democrat Party is made up of lawyers. Democrats mock and scorn men who create wealth, like Bush and Cheney, or who heal the sick, like First, or who immerse themselves in history, like Gingrich.

The Lawyers Party sees these sorts of people, who provide goods and services that people want, as the enemies of America. And, so we have seen the procession of official enemies, in the eyes of the Lawyers Party, grow.

Against whom do Hillary and Obama rail?....Pharmaceutical

companies, oil companies, hospitals, manufacturers, fast food restaurant chains, large retail businesses, bankers, and anyone producing anything of value in our nation.

This is the natural consequence of viewing everything through the eyes of lawyers. Lawyers solve problems by successfully representing their clients, in this case the American people.

Lawyers seek to have new laws passed, they seek to win lawsuits, they press appellate courts to overturn precedent and lawyers always parse language to favor their side.

Confined to the narrow practice of law, that is fine. But it is an awful way to govern a great nation. When politicians as lawyers begin to view some Americans as clients and other Americans as opposing parties, then the role of the legal system in our life becomes all-consuming.

Some Americans become adverse parties of our very government. We are not all litigants in some vast social class-action suit. We are citizens of a republic that promises us a great deal of freedom from laws, from courts, and from lawyers.

Today, we are drowning in laws; we are contorted by judicial decisions; we are driven to distraction by omnipresent lawyers in all parts of our once private lives.

America has a place for laws and lawyers, but that place is modest and reasonable, not vast and unchecked. When the most important decision for our next president is whom he will appoint to the Supreme Court, the role of lawyers and the law in America is too big. When House Democrats sue America in order to hamstring our efforts to learn what our enemies are planning to do to us, then the role of litigation in America has become crushing.

Perhaps Americans will understand that change cannot be brought to our nation by those lawyers who already largely dictate American society and business.

Perhaps Americans will see that hope does not come from the mouths of lawyers but from personal dreams nourished by hard work.

Perhaps Americans will embrace the truth that more lawyers with more power will only make our problems worse.

The United States has 5% of the world's population and 66% of the world's lawyers! Tort (Legal) reform legislation has been introduced in congress several times in the last several years to limit punitive damages in ridiculous lawsuits such as spilling hot coffee on yourself and suing

## Saga/Moving Forward

By: MJ

I have attended several council & committee meetings that I have not wrote about due to illness.

Attending these meetings has been a pleasure. Both young and old members are sitting at the table. People who did not know each other before they started to serve together have found a way to team up and work for the betterment of the community. Continuing to developing a stronger team Councilman Straugh and Hodge took a hands on tour with the local employed professionals that are in the trenches working the newly installed waste facility daily. Jason Johnson is one of the professionals and was present at the meeting.

**Example of this team working together:** At the April 8, 2015 meeting agenda was the topic of 249,000 dollar building that would cover the headwork's. **NOTE: The headworks is the black pipe by the dog pound protruding from the ground.** There were 4 options put on the table; #1 do nothing, #2 build the 249,000 dollar building, #3 use the windbreak building that was used last winter as is, #4 use the windbreak that was used last year with some modifications. There was an abundance of discussion (both pro and con) between the three committee members on the four options. Winter winds and freezing temperatures are issues to be considered in this area. There are communities that do not cover the headworks in their systems.

**NOTE:** The mayor vetoed the 249,000 dollars building and the veto was upheld by the entire council at a prior meeting. This committee meeting was to find alternatives and prepare for winter by providing an adequate protection for the headworks.

*Motion was made to recommend option #4 to the full council. Straugh and Hodge voted Yes and Gore voted NO. Gore thought the 249,000 dollar building should be built.*
