ATTENTION: Water Statements

By MJ

NOTE: *When you are figuring your water bill using the new rate system be sure you use all twelve months. If you use only the last month when figuring your bill chances are it may show an increase in your bill when in reality your bill is going down. Reason: You use more water in the summer watering your lawns, gardens... Yes, your bill might be going up do to your water usage.* The new rate system only charges you for the water you use. Why should a resident have to pay for the water used by a business that uses a lot of water? **Example**; hotels, car washes, institutions and others… Why should you pay for water your neighbor uses to water a large garden, big flower beds, trees and a half acre lawn when you are trying to cut your water bill by not flushing toilets as often, taking less or shorter showers, planting less flowers…

NOTE: *There will be a public hearing on the water rates 8/19/2015 at 6:45, City Hall. If you would like to pay for only the water you use or you would like someone else to help pay your water bill make sure you attend this meeting and express your views.*

Truth as I believe: Do you know why a car's WINDSHIELD is so large & the rear view mirror is so small? Because our PAST is not as important as our FUTURE. So, look ahead and move on.

BCHS GOLF

The Beaver girls took second in the team standings with a score of 451 at the Butte Central Invite. The girls team for Dillon has a full five girls for the first time in more than 5 years. Amber Sitz led her team with a 110. Dillon and Frenchtown were the only two teams to get the four girls required to register a team score.

The Dillon boys finished in 9th place with a 393. The Beavers were missing a golfer because he didn't have the minimum practice times to play. Gunnar Maisch led the Beavers with an 87.

The teams will head to Livingston for golf Friday.

Plant Sale

The Dillon Garden Club is having a ***Fall Plant Sale***.. We will have Iris, Day Lilly's, Poppies, etc. We will be at the Farmers Market on Sat. Aug. 29, 9:00 – 2:00. If you have Plants you want to donate Please Call Diana at 865-0372.

Becker's Hospital Review Names 50 Critical Access Hospitals to Know

For the first time, Becker's Hospital Review has published a list of "50 Critical Access Hospitals to Know" in the United States.

This list features critical access hospitals that have demonstrated excellence in caring for their communities. Providing quality healthcare in a rural setting presents its own set of specific challenges, but these organizations are rising above to meet the needs of their patients.

The Becker's Hospital Review editorial team selected hospitals for inclusion based on awards and recognitions they have received. Specifically, the team looked at iVantage Health Analytics' list of Top 100 Critical Access Hospitals, the National Rural Health Association's list of Top 20 Critical Access Hospitals, patient satisfaction scores from CMS' Hospital Compare and various Healthgrades awards.

The "50 Critical Access Hospitals to Know" 2015 list includes the following (Montana & surrounding area) hospitals:

Barrett Memorial Hospital (Dillon, Mont.)
Community Hospital of Anaconda (Mont.)
Phillips County Memorial Hospital (Malta, Mont.)
Steele Memorial Medical Center (Salmon, Idaho)

The full list can be read here: http://bit.ly/1KMehKg

Note: This list is not an endorsement of included hospitals, health systems or associated healthcare providers, and organizations cannot pay for inclusion on this list. Hospitals are presented in alphabetical order.

STRETCHES OF BIG HOLE CLOSED TO ALL FISHING STARTING WEDNESDAY

With water levels dropping to critical levels, Montana Fish, Wildlife & Parks has moved to close the following stretches of the Big Hole River effective Wednesday:

- Saginaw Bridge on Skinner Meadows Road to North Fork Big Hole River
- Notch Bottom Fishing Access Site to the confluence with the Beaverhead River

FWP follows guidelines set by the Big Hole drought management plan developed in coordination with the Big Hole Watershed Committee.

The following stretches of Region 3 rivers remain closed to fishing from 2 p.m. to midnight daily:

- Big Hole River from Maiden Rock Fishing Access to Notch Bottom Fishing Access Site
- Ruby River from Duncan District Road to confluence with the Beaverhead River;
- Shields River from its mouth upstream to its confluence with Smith Creek;
- Lower Madison River from Ennis Dam to the Missouri River Headwaters;
- Lower Gallatin River from its confluence with the Madison River at Three Forks upstream to Sheds Bridge (Hwy 84) near Four Corners;
- East Gallatin River from its origin (at the confluence of Rocky Creek and Bear Creek) to its confluence with the West Gallatin River

For up-to-date information on drought-related restrictions, visit http://fwp.mt.gov/news/restrictions/.

Proposed Changes to Dillon Montana Water and Sewer Rates
Frequently Asked Questions and Answers

What is an EDU and why will it be used to bill me for the bond payments and both the water and sewer R&D charges?

EDU stands for equivalent dwelling unit. One EDU is equal to the size of water pipe to a typical single family home. Montana Rural Water recommends using EDUs as the preferred method to allocate/charge customers with pipes larger than a typical home, for their fair share of the costs of building and maintaining water and sewer systems. Each customer is charged for only the percentage of the total system capacity needed to support their own water and sewer service.

R&D is short for replacement and depreciation. R&D charges are for repairs, replacements, or improvements to existing water and sewer pipes, tanks, pumps etc.

What are the City's water and sewer cash reserves, and how are they affected by the rate changes and bond refinancing?

Water and sewer system (R&D) funds totaled $714,000 at 6/30/2015, and will increase to $972,000 by 6/30/2016 based on the preliminary 2016 budget. Fixed monthly customer charges per household of $3.42 for water and $3.42 for sewer are being added for R&D and will be used or added to these reserves in the future. Commercial and other large users will pay proportionally more to the repair and replacement fund using the EDU system. No reserve money was used in the bond refinancing or to pay off the old bonds.

How were the water and sewer bonds paid or refinanced?

Designated bond payment money collected from customer charges through the years plus interest earned thereon, was used to pay the bonds. The cost of the new wastewater treatment plant was well below the proceeds of the $9.0 million dollar bond issued in 2011 for construction, and that unspent money was used to refinance the original bond to a lesser amount at an even lower interest rate.

Why were the old bonds paid off early?

Paying the old bonds early eliminated future interest costs, and reduced the total annual bond payment amounts going forward. The City is passing the savings on to customers.

Proposed Changes to Dillon Montana Water and Sewer Rates
Frequently Asked Questions and Answers

Why is the City changing the water and sewer rates?

1. All water and sewer bonds have been paid in full or refinanced, lowering overall annual costs to the City. This savings will be passed through to customers.

2. Current operating costs for the water and sewer systems exceed customer charges for these services. Rates and charges will need to increase to cover higher operating costs.

3. The City is designating additional money specifically for repairing and replacing aging water and sewer systems. There will be added charges so the needed maintenance can be done.

4. The proposed rates charge 100% of operating costs based on water and sewer usage. This is the fairest way to set rates, and the change encourages or rewards water conservation.

Why is the water rate increasing from $1.45 to $2.00 per thousand gallons, and the sewer rate from $1.46 to $2.75 per thousand gallons?

The City is eliminating the $2.00 water and $6.00 monthly fixed charges for water and sewer usage, and correspondingly increasing the charges based on usage to cover 100% of the costs of operating the water and sewer systems. The charges per 1000 gallons are also increasing because current customer charges established in 2008 are less than the current operating costs. These changes allow you to determine more of your water/sewer bills by the amount you use.

Is there any external review of the proposed City water and sewer rates?

The City had Montana Rural Water review the proposed rates and they recommended charges which would generate higher amounts of revenue for the City than those currently proposed. The proposed water and sewer rates have been filed with the Montana Consumer Counsel and they will review the rates to ensure they are fair and equitable to all customers.

Can you provide a summary of the changes in the bill for residential customers?

Our minimum water and sewer bill was about $57 per month. About $49 was collected to pay for bonds. The other $8 was fixed charges ($2 for water and $6 for sewer). The new bill will include about $30 for bonds, about $7 for fixed charges (water plus sewer) and charges for the amount of water and sewer you use. Many customers will pay less. Some will pay more. Those who use lots of water for gardens and lawns will pay more in the summer but likely less in the winter since they won't be irrigating.

What will my charges be on my September bill?

We have provided other documents that show the typical customer's bills. Ask City Hall for help understanding the proposed changes or to review your bills which will allow a more accurate estimate of your bill after the proposed changes are approved.
