MONTANA WESTERN TOPS ENROLLMENT EXPECTATIONS

Officials at the University of Montana Western said that based on official 15th day enrollment figures the university has exceeded expectations and enrolled the largest entering class since 1921.

Montana Western Registrar Charity Walters said the university's 15th day statistics include 1,332 full-time equivalent (FTE) students as compared to 1,310 last year. Student headcount is 1,378 compared to 1,340 last year. She said the university has exceeded the fall enrollment projections established in the spring by 40 FTE students.

Walters also said that Montana Western has enrolled the highest entering class since 1921 including 315 freshmen and 129 transfer students. New freshmen are up 71 students over the previous year.

Chancellor Beth Weatherby said the university awarded the highest number of degrees in its 120-year history this year. "We have seen significant progress in a number of success factors at Montana Western including enrollment. Our innovative Experience One program and the diligent work of our faculty and staff is paying off for our students," Weatherby said.

Montana Western is the only U.S. public four-year institution offering Experience One (X1) where students take a single class at a time. Now in its 10th year, the innovative program of teaching and learning has realized phenomenal success by a number of measures including enrollment, retention, class completion, graduation rates and placement.

Weatherby said the university awarded a record number of degrees this past spring. "Our faculty continue to be recognized nationally for their exceptional teaching including five Carnegie Foundation professors of the year," she said.

The 15th day of classes serves as the official point of reference for reporting enrollment to the Montana Office of Higher Education.

80 mph/New Speed Limit

By: MJ

On Oct 1st Montana will join the neighboring states and increase the allowable speed limit to 80 mph on Interstate #15, #90 and #94.

Some of us remember the glory days when you were expected to drive in a "reasonable and prudent" manner during which time there were less accidents. Last year Montana had an increase in fatal accidents as did the rest of the nation. Let us remember there are many things that cause accidents and to blame them all on speed might be far reaching. All the following issues that are a reality in today's world have impacts on accidents; increase in the deer population, increase in population, increase in tourist travel, weather, drugs, alcohol, prescription drugs, lack of sleep...

Fines: Fines will double from \$20 to \$40 on the interstate for speeding up to 10 mph over the limit, but are still \$20 on two-lane highways. Fines jump from \$40 to \$70 for 11-20 mph over the limit and then go up \$70 to \$120 for 21-30 mph if you are traveling more than 31 mph over the limit.

Business After Hours Thursday, Oct. 1st at African Oasis. Ribbon Cutting at 5:30 p.m.

Please, join us in celebrating the opening of African Oasis as we kick off the first Business After Hours of the Fall season on Thursday, October 1st from 5-7 p.m. We will be having a Ribbon Cutting Ceremony at 5:30 p.m. to welcome African Oasis to Dillon.

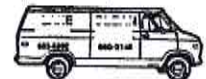

Hope to see you there!

Be Responsible with your Warming Fire

After the sun sets, temperatures drop and your outdoor survival instincts beckon for warmth. You build a small, tightly controlled warming fire that provides life-giving heat that lasts throughout the night. The Beaverhead-Deerlodge National Forest wants to remind you that vegetation is dry and wildfires can occur. Do your part to ensure that you do not start a wildfire. Be responsible and incorporate these tips to have a safe and enjoyable fire:

Constructing your warming fire:

Clear away all leaves and other combustibles from your fire circle. Do not build a fire underneath overhanging branches, against a stump, or directly on organic matter.

Stash your firewood a safe distance upwind of your fire.

Never leave your fire unattended.

Extinguishing your warming fire:

Drown the fire with water. Make sure all embers, coals and sticks are wet.

Stir the remains, add more water and stir again. Be sure all burned material has been extinguished and cooled. If you do not have water, use dirt. Mix enough soil or sand with the embers. Continue adding and stirring until all material is cooled.

Feel all materials with your bare hand. Make sure that no roots are burning. Do not bury your coals.

If you used charcoal briquettes, "dunk 'em!" Don't sprinkle them around. Soak the coals with water; stir them and soak again. Be sure they are out cold. Carefully feel the coals with your bare hands to be sure they are cold to the touch.

Be prepared and responsible.

We can all make a difference in
 reducing human-caused fires this season.

MONTANA WESTERN PROFESSOR ATTENDS GLOBAL CONFERENCE

Christian Gilde, business professor at the University of Montana Western, recently returned to his native country of Austria to attend the Salzburg Global Seminar with a full fellowship.

The conference titled "The Search for a New Global Balance: America's Changing Role in the World" was held Sept. 24-29, 2015.

Gilde said, "I want to bring back what I learn and teach it in my classrooms in order to expose my student to diverse experiences and ideas."

The seminar discussed how modern America acts, reacts and interacts with other countries and what effects that has on our universities and education system.

"It was a lot of hard, concentrated work," Gilde said, "but realistic and effective changes are accomplished, which is hard to come across these days."

Gilde learned about the global significance of the seminar from Montana Western Chancellor Beth Weatherby who attended the the Seminar in 1993 to discuss the importance of education's sustainability.

The Salzburg Global Seminar has taken place in the three hundred-year-old castle of Schloss Leopoldskron since 1947, the filming location of "The Sound of Music" in 1964.

The seminar is described as a place for current and future leaders to solve issues of global concern. The goal is to instill meaningful and effective global change by posing the underlying questions that hold the key to human progress and kickstart conversations and connections that will continue beyond the seminar.

Thomas Jefferson quote:

"The greatest good we can do our country is to heal its party divisions and make them one people." —Thomas Jefferson, 1801

Old Tom hit the nail on the head in this quote from 1801. If Democrats and Republicans would get together for the good of the people of this country we would soon be back to the greatest nation that ever existed.

I have said it before and I say it again; We cannot survive by spending our way to oblivion through corruption and greed.
