Marian Munson

Marian Lillian Munson, 92, passed away peacefully at Barrett Memorial hospital on Friday, May 13th, in Dillon, Montana following a brief illness. She was born in Idaho Falls on January 27, 1924 to Frank and Anne Seybold. Marian resided in Dillon from the age of 9 until her death.

Throughout the years, Marian held numerous cleaning jobs at hotels, businesses, private homes, as well as Barrett Memorial Hospital, St. James Episcopal Church and St. Rose of Lima rectory. She was a member of the Red Hat Society and the Parkview Auxiliary.

Marian was known to be a "living saint" who had a "pipeline to God". She lived her life in a state of grace. She loved making others happy and was a blessing to all who knew her.

Marian was preceded in death by her parents Frank and Anne Seybold, brother Frank and sister Dorothy McCord, husbands Rudolph Kurljac and Arnold Munson. She is survived by her son Jerry Kruljac of Butte who she referred to as her "greatest blessing".

A viewing will be held at Brundage Funeral Home on Monday evening, May 16th from 6:00 to 8:00. Mass of Christian Burial will be celebrated in Tuesday, May 17th at 12:10 at St. Rose of Lima Parish with internment at Mountain View Cemetery.

Memorial contributions may be made to Hospice or charity of the donor's choice.

Letter to the Editor**The Democratic Political Process**

I am concerned with the democratic political process. When this article was written, Bernie Sanders had swept Alaska, Hawaii and Washington with 13, 17 and 25 delegates respectfully. Clinton only garnered 3, 8 and 9 delegates. What I found disturbing was that she was still light years ahead of Sanders. Why? Because of the 469 super delegates Clinton accumulated before she even started her campaign. These super delegates are the people who are sitting or retired democratic representatives, political buddies who in my opinion are looking for favors, if she is elected president. This process is a way of eliminate any grassroots candidate(s) that might find his or her way into the democratic race. Business as usual. Looking at this closely, how many voting delegates has she actually earned? Take away the 469 super delegates, and she's only earned 774 delegates. Sanders on the other hand has earned over 900 delegates. What does that say about the current democratic political process? If you take away the "political hacks" who voted for Clinton, this means you have a card carrying socialist by the name of Bernie Sanders as the lead democratic candidate. It almost appears as though democrats are trying to give us another Socialist president. The rhetoric between Hillary and Sanders are not that much different to begin with. Sanders has pouted as being a devout socialist, who is the "distribution of wealth poster boy"; a guy who wants to implement a "everything is free" society. And, then you have Clinton who is a closet socialist. What's the difference? If you're a democrat, is this your agenda? It's not as though you have a plethora of good candidates to pick from. So, why on earth are the democrats trying to give us a socialist government through a socialist president? Do we have that many people who are disenfranchised or don't know what's going on? Or, they don't know what a socialist is? Maybe it's because Clinton and Sanders know the majority of the voting base are from people who looking for free hand outs. Very upsetting!

Very Respectfully, Kevin H. Brown

Letter to the Editor

I am excited to support my good friend Jeff Welborn for the Montana Senate. Jeff is hardworking, a smart legislator, and always puts the interests of the people first. Jeff has been a leader in working for better infrastructure, higher paying jobs, conservative healthcare reform, water rights, and bringing an end to the corrupting influence of dark money. More importantly, Jeff has always shown he is willing to stand up to the party bosses and do what is best for Montana. You can't go wrong, once again electing Jeff Welborn. Vote for Jeff Welborn for the Montana Senate. Madison, Jefferson, Silver Bow, and Beaverhead Counties will be well served.

Marijuana and Drone Studies

By: MJ

Marijuana: The zoning committee put a (6) six month moratorium on marijuana production in the city in order that they can gather more information. I have been to most of the meetings and have not heard it discussed or seen it on the agenda. Yes, the government came down with a ruling that prohibits the selling of marijuana in a large quantity. That decision is not set in stone and may or may not change. **Questions:** Is the city prepared if the laws change? Do they have the facts and figures needed to ban a business? Do they know how many people in this area that have opted to use marijuana for pain instead of opiates? Do they know how many of those people are vets? What would happen if all of a sudden receiving a pain killing drug like codeine or morphine was prohibited by law? That is what happened to thousands of people that had made the choice to use marijuana as their solution to deal with pain. Or course marijuana use is abused just like prescription drugs are abused. Humans are humans and not all people are like each other or function the same.

This article is not about legalization of marijuana. It is about studying an issue, gathering facts and making an informed decision. **My question:** Is the zoning committee gathering the information that would help them make a knowledgeable decision if the time comes they need to.

Drones: What about drones. Do the city fathers have a plan in place for gathering information? Do they know what is acceptable and what is required by the existing statues? Do they need homegrown regulations to fit the local community?

Drones are affordable; are a reality in today's world and more and more people are going to have them. When they are not being used as a business tool people will be flying them for amusement. Conceivably they could be checking out the guest list and what you are serving at your back yard party, maybe looking in your windows... Drones may or may not disrupt your privacy. *Would it benefit the city to be proactive instead of reactive on the use of drones within the city limits?*
