Verizon Public Hearing

By: MJ

July 11, 2017 public hearing was held to gather information from the public about the Verizon Tower.

Verizon Representative: Paul Slotemaker, a Verizon representative from Portland, Oregon was present at the meeting. He stated he is not an engineer and is only a consultant. He did however offer to look into the problems that were expressed by the public at the meeting. He explained the new 120± foot tower would have updated technology, provide faster service and may or may not change the coverage that is now available. The reason the new tower is needed is because the existing building they are using at this time will not support the equipment they will be installing. The new tower will allow other providers to install their equipment. Reason they are building tower is the current equipment is antiquated and the new build will improve service. He explained that due to low power the coverage area is much smaller and to get larger coverage multiple sites are needed. Paul explained Verizon did not own the building and he did not know if it would or would not be torn down once they removed the equipment.

Public Comments:

□ **Coverage;** 6+ members of the audience spoke on the coverage problems in the area. Questions were asked why two miles out of town they could not get coverage and would the new system remedy that problem. Verizon Rep (Paul) was unable to give a guarantee on whether the new tower would help. He explained that the upgrade and connectivity will probably improve. **Question:** Why don't you move the tower to a rural area? Paul replied that they wanted to maintain the current footprint. **Question:** If the site is not improved are you still going to provide service. Paul replied that he did not know. The problem of antiquated equipment is not going away and continued postponement delays the upgrades. This is a relocation and Verizon is doing upgrade as close to current site as possible to protect the existing footprint.

□ **Removal of building & Radiation;** **Question:** Will the building be removed as it is a health hazard? **Question:** Would there be additional radiation with the new equipment. Paul's response; FCC license Verizon is required to have

has guidelines for signal power and Verizon operates in the 5 percent range of what is allowed by the FCC guidelines.

□ **In favor of Tower:** Many people in the public that spoke were in favor of the tower. They explained that they depend on the technology to operate their businesses and welcome the upgrades.

□ **Against Tower:** Mr. Ed Mooney stated he would be indifferent to the tower however he spoke against the tower because of visual impact for downtown Dillon. He stated that Verizon needed to go back to drawing board and develop a plan that will provide service. See note below about Bozeman tower.

Asset to Dillon: Would the upgraded service be an asset for Dillon's economy by making the environment more enticing to high tech businesses? Additional businesses, more taxes, better streets, more jobs... **NOTE:** Chairman Graham showed a picture of a Tower behind Kohl's clothing store in Bozeman. Question is; how many of you that have been to the store seen that tower? When you drive around and look for towers they are everywhere.

The Beaverhead Trails Coalition will be expanding the Dillon area trail systems thanks to a generous grant of \$100,000 awarded by the LOR Foundation.

"Our objective includes creating a public park just south of Selway Bridge at the Beaverhead River, creating a safe crossing across Highway 41, and connecting the Laknar Lane trail to a new trail on Noble Street to Skihi Street," reports Dan Downey, Coalition President.

"The new expansion will improve connectivity of existing safe routes leading to schools, businesses, and motels for pedestrians and bicycle traffic," adds Kathleen Wagner, Coalition Executive Director.

Interested parties are encouraged to help with the project. Stakeholder and public meetings regarding the Noble Street trail will be held in August. Additional information on the project and who to contact is available at the Coalition's Web site www.beaverheadtrails.org.**Upcoming Beaverhead Chapter of
Joining Community Forces Meeting**

The Beaverhead Chapter of Joining Community Forces (JCF) will meet at noon, Tuesday, July 18, at 1003 S. Washington in Dillon. JCF meets the third Tuesday every other month. Free lunch is provided. Public participation is encouraged.

JCF is a national initiative dedicated to helping all active duty service members, veterans and their families. For more information, call Jodie Jolly at 925-3563.

Lightning Fires

Several fires have been detected due to recent lightning activity in SW Montana. Firefighters are being dispatched to work on these fires as they are reported. Most remain small in size (1/10 to 1/4 acre). Most of these fires are located in remote areas with difficult access.

Currently, two of these fires have grown in size. The Whetstone Ridge fire is 195 acres, and the Meyers fire is 45 acres. Both of these fires are burning in remote locations and dense timber. They are located approximately 20 miles SW of Philipsburg in the Sapphire Mountains. Both fires have 0% containment.

Today, crews will be taking advantage of the precipitation that was received from yesterdays thunderstorms and begin building fireline around the perimeter of the Meyers fire and establishing helispots to allow for helicopter support to the fires. They will also be working to clear an old road that will allow for access to these fires.

Resources working on these two fires include: the Lewis & Clark Hotshots, Bitterroot Hotshots; 2 Type 2 Handcrews, 3 Helicopters, and misc. overhead (100 personnel).

PUBLIC NOTICE

The new canister site is finished and is open during regular dump hours! If you are taking a load of household trash to the landfill, please follow the signs and use the canisters. We would like to keep the public and our operators safe by keeping people out of the pit whenever possible. If you are dumping yard debris, please continue toward the pit and put it in the yard waste pile. There are also marked canisters for electronics and metal recycling at the new site, please sort your trash accordingly. As always, if you have any questions please call the Solid Waste office at 683-3753.

Thanks,

Beaverhead County Solid Waste
