Fake Republicans *Making Sense by Michael Reagan*

OK, Republicans of the Senate, we get it.
You've proved again how collectively spineless you are on
your efforts to repeal and replace Obamacare.

You've proved yet again that when it comes time to put your
incumbent rear-ends where your over-promising big political
mouths are, many of you choose to chicken out at the last minute.

After seven months you 52 Senate Republicans and your 241
teammates in the House haven't been able to get it together to
repeal, replace or even repair Obamacare.

Now it's time to pay the price for your seven years of fake
politics.

Next week Senate leader Mitch McConnell is planning an
up-or-down vote on the motion to proceed on the bill to repeal
Obamacare.

If that vote happens, voters and the media will see exactly
which of you Republican senators have been faking it, and which
ones haven't.

There's going to be lots of "splainin'" for you to do to
constituents back home, as Ricky Ricardo used to say.

The GOP's "epic failure" to repeal and replace Obamacare is a
perfect example of what's been wrong with the party in Washington
for decades.

For too many Republicans in Congress, it's not about putting
conservative ideals into practice, improving the country's economy
or trying to reverse, or slow, America's long decline into Euro-style
socialism.

It's all about getting themselves elected - and then reelected,
and then reelected, until they die or decide it'd be more lucrative to
become a six-figure K Street lobbyist.

For seven years and four election cycles many of you 52
Senators talked tough about what you'd do to the socialist neck of
Obamacare if you had the chance.

As I wrote last week, many of you figured - and probably
secretly hoped - that you'd never have a Republican president in
the White House who was ready to call your bluff.

It was a perfect deal, while it lasted.

You could pretend to be a conservative and a public enemy of
Obamacare for another eight years without ever paying a dime of
the political cost.

Well, guess what? Disaster struck. Trump beat Hillary.

Now many Republicans are terrified that if they vote to end
or even reduce the "free" goodies and government subsidies that
Obamacare doled out to millions of Americans, they'll lose their
cushy seats in 2018 or 2020.

Maybe so, but too bad.

All you Republicans are doing now by ducking repeal and
repeals hurting the country and making it more likely Democrats
will be running the Senate and maybe even the House by 2020.

If that national disaster occurs, the only health bill we'll see go to the president's desk is single-payer.

Because the Democrats may be a bunch of idiots and have no ideas, but they know how to work together to pass the horrible laws they desire.

The only option Republicans have now is to begin dismantling and repairing Obamacare piece by piece.

I don't know what President Trump will do, but I know what my father would have done.

He'd have called the congressional leaders of both parties into the Oval Office months ago and asked them to find the areas where they agree.

Then he'd have told them to write a bill, send it him for his signature and start looking for other important areas of bipartisan agreement, like tort reform or allowing insurance companies to sell their policies across state lines the way Toyota sells their SUVs.

Whether Republicans have the brains and backbones to rid America of the curse of Obamacare remains to be seen, but they need to quit bitching and start fixing before it's too late.

Total Solar Eclipse

by Lee Graves

August 21, 2017 will offer those of us in our area to view a total solar eclipse. We in Montana will have to drive to see the totality, but the short drive will be worth it. Don't miss this seldom occurring wonder of nature. Go to this site and there are maps which will show where the best places are to view the eclipse.

<http://www.eclipse2017.org/2017/maps/id-wy.gif>

Rumors going around Dillon are saying that many people are coming to Dillon to view the eclipse which may be true if they are going to spend the night or dine in one of our restaurants and travel to totality sites. BUT, Dillon is not within the ribbon of totality and projections are only 96% totality here.

Many of us are heading South to Idaho. Rexburg is within the totality ribbon and halfway between Dubois and Idaho Falls is as well. Check out the above referenced map for the full information. Mud Lake and Rexburg have a total time of totality of 2 minutes, 17 seconds. At Rexburg, the eclipse begins at 1015 AM MDT. Totality begins at 11:33 AM MDT.

The internet is full of eclipse information if you want other information.

A caution on viewing. Get special eclipse glasses available. Old style unexposed film will not work because it does not filter out all the extremely dangerous light, such as UV light. No. 12 welder's glass is reported to be safe.

Good luck and please don't miss this unique event for our area. You will be glad you put forth the effort to see it.

Scott Larson Appointed New State Crime Lab Director Dr. Phil Kinsey Takes Job in Illinois

Attorney General Tim Fox announced today he has appointed a new State Crime Lab Director. Scott Larson, current supervisor of the Crime Lab's Toxicology Section, replaces outgoing Dr. Phil Kinsey as State Crime Lab Director effective August 12.

Larson, 42, received his bachelor of science degree in 1999 and his master of science degree in pharmacology/pharmaceutical sciences in 2005 from the University of Montana. Larson's work in the field of forensic toxicology started when he interned at the State Crime Lab while in graduate school. He previously worked as an analytical toxicologist in the Armed Forces Medical Examiner System in Rockville, Maryland and later as the Deputy Chief Toxicologist for the Office of the Chief Medical Examiner in Washington D.C.

Current Lab Director Dr. Phil Kinsey leaves later this month to become Director of the Northeastern Illinois Regional Crime Lab, located in Vernon Hills. Kinsey began working at Montana's State Crime Lab in 2005 as its DNA Supervisor. When Attorney General Fox took office in 2013, he appointed Kinsey as Lab Director.

"In four short years, Phil made a great many improvements at the Lab, including establishing the Eastern Montana Satellite Lab in Billings, shortening turn-around time for toxicology results, and restructuring the Medical Examiner's Office to help us improve efficiencies," Attorney General Tim Fox said. "Phil has also been an invaluable member of our Sex Assault Evidence Task Force since its inception two years ago, as we work toward making sure all previously unsubmitted kits get tested, and in finding justice for all sex assault survivors. We'll miss Phil both personally and professionally here at DOJ and wish him great good luck in Illinois," Attorney General Fox added.

Larson is certified by the American Board of Forensic Toxicologists and is a member of the Society of Forensic Toxicology. He has published and/or presented papers on topics related to forensic toxicology in peer-reviewed journals and at national conferences. He has also provided lectures on forensic toxicology to multiple universities and various

government agencies. Larson's photo is available here.

"Scott's supervisory role in the Lab has played a big part in the improvement of its toxicology testing turnaround times," Attorney General Fox said. "His experience and dedication to the Lab and the important role it plays in public safety will be invaluable in carrying forward the same spirit of continued improvements and efficiencies that benefit Montana's criminal justice community and the citizens of Montana." Last week, Montana's criminal justice community was informed of Larson's appointment in this letter from Attorney General Fox.

The Forensic Science Division, also known as the State Crime Lab, analyzes crime evidence submitted by city, county, and state law enforcement officials. Headquartered in Missoula with a satellite location in Billings, the Lab also manages a statewide system of death investigations. It has been accredited by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board since 2005, and in international standards since 2011.
