Pima Medical Institute to Host Open House at Dillon Campus

Public is Invited to Attend Aug. 17

Pima Medical Institute's Dillon, Mont., campus will host an open house on Aug. 17 from 9 a.m. to 4 p.m. Visitors will get a first-hand look at what students in the Veterinary Technician associate degree and Veterinary Assistant certificate programs do each day in the hands-on lab. Visitors will also get to meet faculty, check out the hands-on equipment and curriculum and find out how they can enroll and start a veterinary career. Pima Medical's Veterinary Technician program is the only one in the state of Montana. In May it received its American Veterinary Medical Association (AVMA) accreditation.

Also in May, the program graduated its first cohort, with seven Veterinary Technician students completing the program. A new cohort of students, who were previously enrolled in the Veterinary Assistant program are now working toward their Veterinary Technician associate degrees.

The public is encouraged to stop by for tours, where they can meet current students and faculty. To RSVP online for a tour, visit <http://pmi.edu/DillonOpenHouse>. The campus is located at 434 E. Poindexter St., Dillon, Montana, 59725.

Pima Medical offers the veterinary assistant certificate and veterinary technician associate degree programs in Dillon. The programs' classrooms and labs are located on the University of Montana Western's campus.

Curriculum focuses on hands-on work caring for domestic animals, livestock and exotic animals. Over the programs' 18-month period, students learn animal behavior, care, surgical assisting, laboratory testing and nursing procedures. Veterinary technicians who graduate are qualified to work closely with veterinarians in the areas of surgery, lab procedures and radiography.

For more information about the veterinary assistant and veterinary technician programs at Pima Medical's Dillon campus, visit online at <http://pmi.edu/Locations/Montana/Dillon>.

MONTANA WESTERN ANNOUNCES STUDENT ORIENTATION ACTIVITIES AND MOVE IN DAY

The University of Montana Western's Office of Residence Life announced the university has scheduled its New Student Orientation for Thursday, Aug. 24 - Sunday, Aug. 27, 2017.

The activities begin at 8 a.m. on Opening Day with the Montana Western Moving Company event. The community is invited to help new students and their families move into the residence halls on the Montana Western campus.

Residence Life Director Michael Piazzola said this year's program will include Convocation (the official start of the school year ceremony), an inspirational keynote address by speaker Judson Laipply, and a hike to the hillside "M".

"Orientation is mandatory for all first year and transfer students and it's also fun and informative. It's a great way for the community to show new students just how welcoming Dillon and the Montana Western family truly is," Piazzola said.

Convocation keynote speaker Judson Laipply is a motivational speaker and dancer. Laipply combines laughter inducing stories with thought provoking ideas to drive home the point that we are in the constant presence of change. Laipply's finale, "The Evolution of Dance," will leave the audience with an unforgettable message. Parents are cordially invited to attend Convocation with their student on Friday, Aug. 25, at 10 a.m. in the Straugh Gym.

Additional events include sessions for Native American, Nontraditional, Veteran and Trio students, a football game with tailgate lunch and a dance.

For the full schedule of events and to sign up for move in day shifts, visit <https://w.umwestern.edu/> and click on "Orientation" or call 406-683-7565.

Attorney General Fox Announces Settlement with Nationwide Mutual Insurance Company Over Data Breach

Attorney General Tim Fox announced that his office, along with the Attorneys General of 31 other states and the District of Columbia, has reached a settlement with the Nationwide Mutual Insurance Company and its subsidiary, Allied Property & Casualty Insurance Company (collectively "Nationwide"), concerning an October 2012 data breach. The data breach, which was alleged to have been caused by the failure to apply a critical security patch, resulted in the loss of personal information belonging to 1.27 million consumers, including their social security numbers, driver's license numbers, credit scoring information, and other personal data. The lost personal information was collected by Nationwide in order to provide insurance quotes to consumers applying for insurance.

"Nationwide kept the personal information of people that it simply supplied quotes to -- these individuals weren't actual customers; they had no direct business relationship with the company. They were just folks who sought a quote at one point," Attorney General Tim Fox said. "Nationwide kept the information of those people for a long time and was hacked because it failed to install a simple security patch. It would have taken minimal effort to avoid exposing these individuals to identity theft. This is a good reminder for all Montanans that even just having minimal contact with a company can equate to giving up their personal privacy and running the risk of exposing their personal information," Attorney General Fox added.

The settlement requires Nationwide to take a number of steps to both generally update its security practices and to ensure the timely application of patches and other updates to its security software. Nationwide must also hire a technology officer responsible for monitoring and managing software and application security updates, including supervising employees responsible for evaluating and coordinating the maintenance, management, and application of all security patches and software and application security updates.

Additionally, Nationwide agreed to take steps during the next three years to strengthen its security practices, including:

Updating its procedures and policies relating to the maintenance and storage consumers' personal data.

Conducting regular inventories of the patches and updates applied to its systems used to maintain consumers' personal information ("PII").

Maintaining and utilizing system tools to monitor the health and security of their systems used to maintain PII.

Performing internal assessments of its patch management practices and hiring an outside, independent provider to perform an annual audit of its practices regarding the collection and maintenance of PII.

Many of the consumers whose data was lost as a result of the data breach were consumers who never became Nationwide's insured, but the company retained their data in order to more easily provide the consumers re-quotes at a later date. The settlement requires Nationwide to be more transparent about its data collection practices by requiring it to disclose to consumers that it retains their PII even if they do not become its customers.

In addition to the injunctive terms, Nationwide agreed to make a payment of \$5.5 million to the Attorneys General. Montana had 10,425 consumers impacted by the breach and expects to receive \$113,863 from the settlement, which was joined by the Attorneys General of Alaska, Arizona, Arkansas, Connecticut, Florida, Hawaii, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Missouri, Montana, Nebraska, Nevada, New Jersey, New Mexico, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, South Dakota, Tennessee, Texas, Vermont, Washington, and the District of Columbia.

"Montana Towns: Then, Now, Tomorrow"

with Humanities Montana Conversation Speaker Hal Stearns Aug.
12 @ 2 PM @ Bannack State Park

Montana is a state of extremes, from high mountains to great plains. Half the population lives in just five communities and another third lives in just 10 others. After the big ones, the remaining 134 incorporated towns are often unique, often overlooked, and all small, yet personify so much of the Big Sky.

This is a great chance to hear a great Montana historian tell the story of boom to bust towns like Bannack and many more across the state.

Biblical Truth... Thoughts regarding what many deem "progress"

---We believe the following: (1) the Bible was given by the inspiration of God as stated in 2 Timothy 3:16-17; (2) all statements made in this and any ensuing articles will be based on what the Bible says; (3) the Bible only is the reliable source of spiritual & doctrinal truth; (4) all beliefs in conflict with Biblical teachings are false.---

In the light of the scriptures, much of what man deems progress is, in reality, regression. Consider the examples of evolution & what some have termed "the new morality".

The theory of evolution is a fairly new concept that is considered by many as being a successful 'scientific' explanation of how the very complex creation we are a part of came into existence. From a Biblical perspective, however, it is seen to be the idea of fools as stated in Psalms 14:1, "The fool hath said in his heart, there is no God. They are corrupt, they have done abominable works, there is none that doeth good."

In Proverbs 1:7 we are told, "The fear of the Lord is the beginning of knowledge: but fools despise wisdom and instruction." This fear will move men to seek and trust God rather than trusting in their own understanding as stated in Proverbs 3:5.

Another issue deemed successful by many in our society is the evolution of moral standards. This (success??) has brought about a 'no-holds barred' mentality regarding sexual behavior. The standard for honorable sexual conduct was given by God in Hebrews 13:4 "Marriage is honorable in all, and the bed undefiled: but whoremongers and adulterers God will judge." God's high standard of morality has not changed and we are experiencing a terrible, costly regression in this arena due to rejecting that standard. This regression has produced millions of children out of adulterous relationships that are raised by a single parent, grand-parent, or other relative while many of those who produced these children manifest no responsibility for their immoral actions. The Bible reveals God's judgment and actions toward those caught up in the immorality that seems so prevalent in our world today in Romans 1:20-32.

Conclusion: Success by man's standards is much different than what is considered success by the standards of God's word.

The 2017 Dillon Relay for Life committee would like to tip our hats to this amazing community for their support during our Country Kickin' Cancer event on August 4th. Through the hard work and tireless support of our rootin' tootin' teams, cancer survivors, sponsors and volunteers, we rounded up more than \$20,000 ... and still counting.

We are so appreciative to Barrett Hospital and Healthcare for allowing us to use the Kennedy Walking Trail. Thank you for the donations from local businesses and individuals for our barbeque, luminaria sales, and other fundraisers. Because of the many people that attended as well as those that lent a hand behind the scenes, our event was successful in celebrating survivors, remembering loved ones lost, and continuing to fight back against cancer. Ya'll should be proud to live in such a wonderful community.
