The Ruth & Garth Haugland Memorial Scholarship has been awarded in the amount of \$500 to Augusta Scout Voss who will be studying nursing at Carroll College.

Barrett Hospital Foundation awards scholarships to local students, in the hope that they will return to this area to practice medicine after completing their education.

Honoring or memorializing friends and family through the gift of a scholarship is a lasting and meaningful tribute. It is through the generosity of our donors to the Barrett Hospital Foundation scholarship program, that these awards are made possible. We send our thanks to our donors and congratulations to our scholarship recipients.

NOBLE AVENUE TRAIL MEETING

Beaverhead Trails Coalition will host an informational meeting at the Old Depot Theatre at 6:30 pm September 13, 2017 to discuss a proposed new hiking/biking trail between highway 41 and Skihi Street along Noble Avenue. Purpose of the meeting is to help identify opportunities and concerns about connecting this and other Dillon area trails.

Input from the meeting will be used to finalize the conceptual design for the Noble Avenue Trail and help develop cost estimates. This phase of a safe trail system along the avenue is funded by United Way and the LOR Foundation and will make proposals to fund detailed engineering and construction possible. Additional funding will be necessary to complete the project.

"Right now we have safe trails on the north side of town that doesn't connect to Rotary's Safe Trails to Schools and other trails in and around Dillon," reports Dan Downey, Coalition President.

Residents are encouraged to attend this meeting and give their comments and ask questions concerning this and other trail opportunities in and around Dillon. Comments may also be sent to beaverheadtrails@gmail.com.

Beaverhead Trails Coalition is a 501(c)3 organization developed to encourage people to get out and exercise while enjoying nature in and around Dillon.

NEW AND AMENDED FIRE RESTRICTIONS IN SOUTHWEST MONTANA

PARK COUNTY GOES TO STAGE I, EXEMPTIONS REMOVED FOR BANNACK & L&C CAVERNS

Montana Fish, Wildlife and Parks' properties in Park County have moved to Stage 1 fire restrictions. This includes Fishing Access Sites, State Parks, and Wildlife Management areas.

Also, effective Saturday, Bannack State Park (Beaverhead County) and Lewis and Clark Caverns State Park (Jefferson County) will no longer be exempted from all Stage I fire restrictions (these Parks previously had exemptions to allow for fires within established rings or grills).

FWP follows the counties in entering fire restrictions.

Following are the list of restrictions under Stage I:

In those areas mentioned above, the following acts are prohibited until further notice:

Building maintaining, attending, or using a fire or campfire. (Note exemptions below)

Smoking, except within an enclosed vehicle or building, a developed recreation site or while stopped in an area at least three feet in diameter that is barren or cleared of all flammable materials.

Exemptions:

Persons with a written permit that specifically authorizes the otherwise prohibited act.

Persons using a device fueled solely by liquid petroleum or LPG fuels that can be turned on and off.

Persons conducting activities in those designated areas where the activity is specifically authorized by written posted notice.

Any Federal, State, or local officer, or member of an organized rescue or firefighting force in the performance of an official duty. All land within a city boundary is exempted.

Individuals may be fined up to \$5,000 or imprisoned up to 6 months for violating the noted fire restrictions.

Also, an exemption does not absolve an individual or organization from liability or responsibility for any fire started by the exempted activity.

For updates on restrictions and closures around the state, go to: <http://fwp.mt.gov/news/restrictions/droughtDetails.html>.

MONTANA WESTERN RANKED AMONG THE BEST EQUESTRIAN PROGRAMS NATIONWIDE.

The Montana Center for Horsemanship.

Photo by Shelly King.

Article by Matt Raffety — The University of Montana Western was recently ranked among the "Best Equestrian Colleges" by ThoughtCo, an online education resource. The Equine Studies Department at the University of Montana Western offers the nation's only bachelor of science degree in natural horsemanship. The university also offers a bachelor of science degree in equine management and associate's degrees in equine studies and natural horsemanship.

Many of the equine classes take place at the Montana Center for Horsemanship (MCH), a natural horsemanship-based facility located less than two miles from campus.

The Montana Center for Horsemanship is the first and only equine center in the United States that is devoted expressly to promoting 'Natural Horsemanship.' With its stables, arenas, riding areas, and instructors, the center serves as the primary facility and progressive teaching resource for Montana Western's Natural Horsemanship BS curriculum.

The MCH teaches the 'La Cense Method,' which was developed under William Kriegel, owner of La Cense Montana and Haras de la Cense in France. Mr. Kriegel is also co-founder of MCH, and he has been involved in Natural Horsemanship for many years. The Le Cense Method is a progressive, step-by-step process that blends the best of traditional horsemanship training with the art of training and riding horses—all in a manner that works with a horse's

behavior, instincts, and personality. Taking a positive and respectful approach, the La Cense Method gradually builds trust, and frees the horses to be confident in all they are asked to perform.

This partnership between the Montana Center for Horsemanship and the University of Montana Western offers a focused means of creating dynamic synergy among professional and amateur horsemen and horsewomen, educators, scientists, and researchers as they work together to improve and expand human/horse interaction.

CONTINUED MONITORING TURNS UP FEW ADDITIONAL FISH -

NO RESTRICTIONS OR CLOSURES PLANNED

Montana Fish, Wildlife and Parks' biologists again surveyed the Yellowstone River between Livingston and Springdale. Results were encouraging - fewer dead fish and stable flows and water temperatures.

"Though we still don't know if the cause of death is disease related, we're finding fewer fish each time we go out," said Travis Horton, FWP Region 3 fisheries manager. "We're not considering any closures or restriction, but are asking that anglers not target whitefish for the time being."

On Tuesday, biologists collected 20 dead whitefish, 13 that recently died and seven that were older. The found no moribund fish, which is a live fish close to death and critical for histology testing to determine the cause of mortality.

Last summer a proliferative kidney disease, or PKD, outbreak on the upper Yellowstone River led to an emergency closure by FWP and the death of thousands of mountain whitefish, which are native to the river.

During monitoring floats this week and last, FWP biologists have found about 165 dead whitefish.

PKD is caused by a microscopic parasite known to exist in the Yellowstone River. Though the reason the parasite will suddenly begin causing PKD is unknown, high water temperatures, low flows and general fish stress seem to be factors. With cooler water temperatures and higher flows, those conditions aren't present this year.

Test results from the moribund fish collected last week are expected to be available later this week.
