NUMBERS OF DEAD FISH CONTINUE TO DECLINE, TEST RESULTS SHOW PKD

Test results from a handful of fish collected last week on the Yellowstone River show they died from proliferative kidney disease, or PKD. However, numbers of dead fish being found continues to decline as crews continue monitoring.

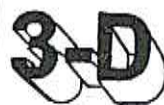

"Even though PKD was present, it's clear this year's outbreak is far less than what we saw last year," said Eileen Ryce, Montana Fish, Wildlife and Parks fisheries division administrator.

Last summer a proliferative kidney disease, or PKD, outbreak on the upper Yellowstone River led to an emergency closure by FWP and the death of thousands of mountain whitefish, which are native to the river.

On Wednesday, FWP's fisheries staff floated between Grey Owl to Mallard's Rest Fishing Access Site. They found 13 dead mountain whitefish and two dead suckers. They found no moribund fish, which are live fish close to death and critical for histology testing to determine the cause of mortality.

During monitoring floats this week and last, FWP crews have found about 175 dead whitefish. Fisheries staff will conduct another monitoring float next week.

Zoning Committee Aug 22, 2017

By: MJ

Sometimes when I attend city meetings I get the feeling that the city's final decision makers (the council) are holding the community hostage with all the rules and regulations that they impose upon the people. This meeting was no different. The zoning committee is sometimes requiring the people applying for a Compliance Certificate to submit plans that are not required according to the ordinance like; what driveways are, elevation plans, engineer's drawings... I watch people working diligently to comply with all the requirements to no avail. **Example:** an EMC sign that a proprietor would like to install. The city does not have all their rules and regulations for EMC signage done, so the owner was told "no." City has been working on regulations for signs for approx. a year. Is this the fault of businesses?

Office Closure: The state announced the closing of the Job Service Office located in Dillon. This closure will add another vacant rental space in the town as well as displacing 3± employees. More money taken out of the community like wages, taxes... *Dillon is today a small town with a stagnant economy, a place where young people leave.*

Instead of burdening people with more rules and regulations would it be possible for the Council to work toward supporting and bringing business into the area? *It appears to me that the local government decision body (council) believes the way to support the local economy is; tax it; regulate it or subsidize it.*

Why is it we cannot take the same plans and use them in a positive and effective way to promote growth and a community that has nice streets and all the other amenities people want? Why is it when a permit is submitted the first thing out of the mouths of council members is; "they

*Happy Healthy Smiles

can't do that, this is incomplete"...? What happen to words like; "this may be a problem however we may be able to work with the problem" and help the permittee to move forward.

I have never in my long life time seen a plan that does not have to be open to change that fits the need of the changing times. Dillon's past times have required the community to adapt too many changes. Example: closure of Stoltze Land and Lumber that displaced 3 shifts of middle income employees, freeway allowing cars to bypass the town... Many closures of business that has caused financial bleeding in the community in the form of jobs losses, loss of tax base, loss of money circulating throughout the business community...

Budget Problems: City of Dillon is having the same budget problems as the rest of the country. More money going out then is coming in. *One of those problems that the decision making body (council), must work to find solutions based on factual information that will support the community as a whole. I have watch regulations changed because of one or two people during the time I have been attending meetings and that is why I say the community as a whole.*

DUI Accountability Court Graduation

On August 31, 2017, at 3:30 p.m., the Beaverhead County DUI Accountability Court will graduate its third participant. The DUI Accountability Court Graduation will take place in the Beaverhead County District Courtroom on the second floor of the Beaverhead County Courthouse.

The DUI Accountability Court was started in 2015 through a collaboration of local law enforcement, judicial, legal, mental health, and chemical dependency professionals as a treatment court that seeks to reduce DUI incidents in the community, provide appropriate treatment, reduce recidivism, save tax dollars, enhance public safety, and ensure timely entry into treatment after conviction.

Each graduating participant has successfully completed countless hours of individual and group chemical dependency treatment, self-help groups, weekly court appearances, appointments with the DUI Accountability Court Coordinator, and random UA testing. The graduates are maintaining or obtaining employment and demonstrating sobriety and the proper attitude to support recovery. This program lasts approximately 12 to 18 months.

Anyone interested in learning more about the graduation ceremony or the DUI Accountability Court is encouraged to contact Claris Yuhas, Court Coordinator at 406-683-3776.

BIG SKY BEHAVIORAL HEALTH SUMMIT TO TAKE PLACE AT THE UNIVERSITY OF MONTANA WESTERN.

On Sep. 6-7, 2017, the Beaverhead County Mental Health Local Advisory Council (LAC), in cooperation with the Madison County LAC, will be hosting the 1st Annual Big Sky Behavioral Health Summit. The focus of this year's summit will be trauma informed care and will include some of Montana's most distinguished presenters on the topic. The summit consists of two full days of presentation including a panel discussion with all presenters at the end of day one.

Trauma informed care is a community based approach to childcare that involves a broad understanding of the impact of toxic stress and trauma on the brains of children. It is believed that such an approach can help to more effectively treat and avoid severe mental health issues, lower school suspensions, enhance resilience, avoid future medical issues, and reduce the rates of suicide and criminal behavior.

Perhaps the highlight of the event will be the keynote address to be delivered by Jessie Close. Ms. Close is a nationally renowned mental health advocate, prominent speaker, and critically acclaimed author of the book "Resilience: Two Sisters and a Story of Mental Illness." Ms. Close is also the sister of six-time Academy Award nominated actress Glenn Close. Ms. Close's address is a candid, poignant, and sometimes humorous account of her recovery from mental illness and addiction.

In addition to Jessie Close, presentations and workshops will be delivered by: Dr. Eric Arzubi, Chairman of the Billings Clinic Department of Psychiatry, Malcolm Horn, Rimrock Foundation Director of Learning and Supervision, Dr. Daniel Nauts, Director of the Recovery Center of Missoula, and Erin Butts, Great Falls Public Schools Student Mental Health Coordinator. Each of these presenters will share their expertise and perspective on trauma informed care.

Summit programming will resonate with a broad range of professionals, including mental health providers, addiction care providers, primary care providers, all medical staff, law enforcement officials, and public service/elected officials. All are welcome and we encourage community members to attend who would like to become more trauma informed and enhance their insight regarding mental health issues.

Also included in the summit will be a viewing of the award-winning movie "Resilience." This movie is an inspirational and informative

account of a movement to use cutting-edge science and therapy to better understand and treat the impact of, otherwise catastrophic, stress and trauma on children. According to Matt Fagerholm of rogerebert.com, "Resilience" is, "An engrossing study of how adverse childhood experiences (ACEs) can be linked to destructive behavior and medical diseases."

The cost of the two-day summit is \$125 and 13.25 CEUs will be available at no extra cost. One undergraduate EDU credit will also be available through the Montana Western School of Outreach at an additional cost of \$115. Registration and payment for the single credit will take place on site the morning of day one check-in. Summit registration and information, including the summit schedule, can be found at: <https://bvhdlaac.eventbrite.com>. To register, simply click on "tickets," then follow the registration instructions - a credit or debit card will be required. The registration deadline for this event is Aug. 31.

If you have questions regarding the summit please contact Jerry Girard at (406) 925-0642.

MEDICAL EMERGENCIES IN THE BACK COUNTRY

Accidents happen. Are you prepared to deal with them in Montana's backcountry? Plan to attend a special presentation by Dr. Michael Righetti on September 5 at 7:00 pm at Dillon's Search and Rescue Building. The presentation is sponsored by Three Rivers Back Country Horsemen.

Dr. Righetti is an orthopedic surgeon at Polson's St. Joseph's Hospital and a member of the Mission Valley Backcountry Horsemen. His professional job as a surgeon gives him unique qualifications to deal with unexpected medical emergencies encountered on the trail. Objective of his presentation is to advise attendees on first aid supplies you need to have and how to deal with unexpected backcountry medical emergencies.

Dr. Righetti knows from experience that a little ingenuity can go a long way when you have limited resources and wilderness isolation forces you to think outside the box to save a life.

Is it time for a hunting, fishing or vacation cabin?

We have two great options. A log sided cabin with a large shop or 3 connected lots where a family and/or friends could build together. Both are conveniently located right off of the Pioneer Scenic Byway. Maverick Mountain Ski Area, Elk Horn Hot Springs and miles of National Forest are minutes away.

643 Mountain View Way

This 2 bedroom, 3 bath, 1700 sf cabin lies nestled right below the Pioneer Mountains. Sitting on 2.64 acres, this property has incredible views, an attached garage, and a 30x32 sf shop. \$225,000

TBD Miracle Mountain Lots

These three lots have meadow views with willows and water that attract elk all summer long.

Lot 10 - 2.3 Acres for \$45,800.

Lot 11 - 1.64 Acres for \$32,800.

Lot 12 - 2.11 Acres for \$42,200.
