James Corr 1931-2017

Jim (Lefty) Corr, loving husband, father, teacher, artist, jock and coach passed away on September 19 doing what he loved.... walking down the ninth hole after a great drive.

Jim was born on February 13, 1931 in Missoula, Montana. He was the oldest of five children all of which were raised in Missoula. Jim attended Western Montana College where he earned his degree as an art and English teacher. After marrying his best friend and childhood sweetheart, Peggy Rolfe, and pitching "a very important game" the day after the wedding, the couple spent one year in Dillon where their oldest son, Dan, was born. Upon graduation, they moved to Whitewater, Montana where he taught and coached for two years. There his son, Mick, was born. Jim was strongly encouraged to move to Joplin, Montana when his very patient wife refused to spend another winter in Whitewater. Jim taught and coached in Joplin for six years. During this time, his daughters Kathy (Hilton) and Patty (Seidensticker) were born. In 1961, he earned his master's degree from the University of Montana before moving to Dillon in 1963 when Jim took a teaching and coaching position at Beaverhead County High School. There he coached basketball, football, track, and golf. Their fifth child, Ginny (Waldorf), was born in Dillon. One of his proudest accomplishments as the BCHS Athletic Director was the designing of the BW Lodge gymnasium.

In 1970, Jim became a well-respected and admired professor at Western Montana College where he taught for 24 years. He greatly enjoyed training future teachers in his passion for art. He also enjoyed a very successful career as an assistant men's basketball coach and head women's basketball coach. He was inducted into the Bulldog Athletic Hall of Fame honoring him for his success as a pitcher in his college days at Western. While he was quite proud of this accomplishment, he was even more proud when he was inducted into the University of Montana Western Teaching Hall of Fame in 2015.

Jim is survived by his wife, Peggy, and children Dan (Mary), Kathy, Patty (Jeff), and Ginny (Tom). His son, Mick, passed away a couple of weeks ago. His legacy will live on in them, as well as his eight grandchildren, and the numerous students and athletes whose lives he impacted over the years. His sage advice and quick wit will be deeply missed.

A memorial service will be held at the Beaverhead Golf Course on Monday, September 25 beginning at 6:30.

One final major accomplishment for which he was quite proud and spoke of often..... "I raised five kids, three of which were girls, with one bathroom!" - Jim Corr

James (Jimmy Joe) Watters

March 1972-September 2017

Well...where to start...My uncle was the most caring person I knew. He would give you the shirt off his back if you asked for it; or simply just because he knew you needed it. My uncle has had a rough life, mostly caused by his own doing's, with that being said, this last year he was doing his damndest to turn his life around and to do better for himself and his family around him. He wanted nothing but to help his mother and to stay out of all the trouble and drama that seemed to find him. He was doing great too. His biggest joy's in life were: making and helping his mother, fishing and catching those "10 foot" river trout he told me all about and I loved listening too, helping his niece at the grooming shop, he loved animals from small to large and Charlie was his favorite of all. He loved giving me the most grief of all; gave him the most joy (and me as well) just cause, cause why not right...above all he loved watching and playing with his great niece's and nephew's: Kenleigh, Wyatt, Roaran, Ezekiel, and Kaleb, he loved making them laugh and sneaking them candy when their parents weren't looking. Most of all he loved helping his family to the best of his abilities.

He was suddenly taken from us September 12th 2017 when he was involved in a car accident. He is proceeded in death by his father Russell Watters (Texas), and grandmother Blanche Fuller (Texas).

He is survived by his Mother and Brother's: Mother, Wanda Watters (Dillon) Brother's: Terry Shields (Dillon), David Watters (Dillon), Russell Watters (Texas), and many niece's and nephew's and great niece's and nephew's who loved (love) him very much. We will be having a Memorial on Sept. 23rd, 2017 and doing a balloon release in his memory.

Pima Medical Institute's First Veterinary Technician Graduating Class Passes Licensing Exam

Pima Medical Institute is proud to announce its first cohort of veterinary technician associate degree graduates has passed the Veterinary Technician National Examination (VTNE).

"It went really well. All of our students passed," said Veterinary Technician Program Director Jan Winderl, DMV. "Passing this exam is important. It will help them get hired, and only certified technicians can do certain tasks, such as administering and monitoring anesthesia."

All of Pima Medical's veterinary technician graduates have secured jobs since finishing the program in Dillon.

To become a certified veterinary technician, graduates have to pass the VTNE and show they went to an accredited program. Pima Medical's first cohort of graduates will be able to gain certification in about another four years. Passing the VTNE and being certified helps expand a veterinary technician's employment opportunities.

Pima Medical's Dillon campus earned its American Veterinary Medical Association accreditation in May, making it the only accredited veterinary technician school in the state of Montana. It's institutionally accredited by the Accrediting Bureau of Health Education Schools.

Instructors help prepare students for the VTNE long before they sit down to take it. Students must first complete the Veterinary Assistant program and then they continue on to the Veterinary Technician program before graduating and taking the exam.

"From day one – even in the veterinary assistant program – we get them used to the style of questions and help them with their test-taking skills. We are pretty much working on it the whole time," Winderl said.

Pima Medical's programs are offered at the University of Montana Western's campus. The first classes began in spring of 2015. Employers throughout the state have said they need educated, qualified veterinary assistants and veterinary technicians for their small- and large-animal practices. Pima Medical is helping to fill that employment gap.

The programs allow students to work on small and large animals in a newly equipped facility. Pima Medical partners with the University of Montana Western to offer the programs, so students may use campus facilities, such as the library, gym and dining.

To learn more about the programs, visit the campus online at <https://pmi.edu/locations/montana/dillon>.

HIKE FOR THE CURE

Sunday, September 24th 8:30 am

Southwestern Montana Mammography Program is
having a Hike for the Cure to Baldy Mountain to support
Breast Cancer Awareness.

All are welcome. Please meet at Barrett Hospital's
medical Office Building parking lot for the hike and plan
to carpool. Bring plenty of water to drink, and something
to eat for lunch. Dress in layers as it is usually windy at
the top. Don't forget to wear some pink clothing to show
your support. For more information, call Lesli Cottom
683-3232 or 660-2020.

Wildflower Trail at Lemhi Pass Has a New Look

Looking for a nice easy hiking opportunity?

The Wildflower trail near Lemhi Pass southwest of Dillon received a makeover this summer. The mile and a quarter scenic loop trail was originally built in the 1930's by the Civilian Conservation Corps and had fallen into disrepair with overgrowth of vegetation and numerous trees that had fallen over the trail. Members of the National Smokejumper Association (NSA) Trail Program, and the Camp Fortunate Chapter of the Lewis and Clark Trail Heritage Foundation took on the challenge of coordinating and repairing the trail thanks to a grant from the REI store in Missoula, MT.

Through planning efforts and support from the Dillon Ranger District, the NSA agreed to do the project.

The NSA volunteer crew under the leadership of Bill Kolar along with help from the Lewis and Clark Heritage Foundation, the AmeriCorps St. Louis program and members of the Beaverhead Trail Coalition spent July 23-29 working on the trail.

The REI grant provided trail volunteers with funding to provide food and supplies for the project.

"This was a great project, we reconstructed this trail and it is now in great shape for all to enjoy," said Kolar. "Basically, we work for food and the friendships we form with everyone involved."

"It's volunteer groups like these who make a difference in how we are able to access and enjoy our local trails and National Forests, commented Dillon District Ranger Scot Shuler."

The Lemhi Pass area along the Continental Divide provides exceptional opportunity to see native wildflowers and the natural habitats of forest and meadow. It is the first and possible best opportunity for visitors following the Lewis and Clark Trail to get out of their cars, take a leisurely walk in the woods, and experience the diverse plant life of the Rocky Mountains. The elevation at Lemhi Pass is 7,373 feet above sea level. The trailhead is located at the Sacajawea Memorial Area, where there is a picnic area along the Lewis and Clark National Historic Trail and the Continental Divide National Scenic Trail.

MONTANA WESTERN HEALTH AND HUMAN PERFORMANCE DEPARTMENT ANNOUNCES LAB OPEN HOUSE.

The University of Montana Western's Health and Human Performance (HHP) Department has scheduled its Lab Open House for Wednesday, Sep. 27, 2017. The event will be held from 4:30-6:30 pm in the former Curious Minds house. The community is invited to attend along with all Montana Western students, faculty and staff.

Several activities will take place to highlight the new lab facility during the event including: metabolic testing demonstrations, blood pressure and glucose screenings and body composition assessments. Presentations on community outreach and highlights of HHP student and faculty research projects will also be shared.

"Montana Western's focus on concentrated experiential education practices and the flexibility of the Experience One scheduling model allow our students to utilize industry leading technology as undergraduates and provides opportunities for our faculty to facilitate meaningful research opportunities," said HHP Assistant Professor Janelle Handlos.

In the first weeks of the school year, Montana Western's HHP students have already become skilled in administering and supervising fitness test batteries and have provided support during the annual fitness testing of the Dillon community's first responders. The new lab's metabolic testing capabilities will allow the expansion of key services, provide valuable information to collaborating organizations and individuals, and ensure Montana Western's students have the skills for continued success in the field of Health and Human Performance.

The HHP Lab Open House is free and open to the public, and light refreshments will be served. For more information about the Open House, please contact HHP Assistant Professor Janelle Handlos by email at janelle.handlos@umwestern.edu, or call (406) 683-7392.
