MONTANA WESTERN ANNOUNCES APPOINTMENT OF ATHLETIC DIRECTOR AND DEVELOPMENT OFFICER

The University of Montana Western announced the appointment of Bill Wilson to the position of Athletic Director and Development Officer. Mr. Wilson is currently the athletic director at Pratt Community College in Pratt, Kansas. Before that, he directed the athletics department at Northland College in Ashland, Wisconsin. He began his Northland career as head women's basketball coach and assistant athletic director.

Chancellor Beth Weatherby selected Wilson after a national search that brought several candidates to campus. "I greatly appreciate the input we received from students, faculty, staff, and community members. This was a very competitive pool of candidates, which is a testimony to the excellent reputations of our athletics programs, the Frontier Conference, and our University."

"Bill Wilson's experience, professionalism, and strong core values, and belief in the contribution of athletics to the process of student development, make him an excellent choice for Montana Western," Chancellor Weatherby said.

Wilson earned a Masters of Education in Athletic Administration from Slippery Rock University and a Bachelor of Science in Physical Education from Eastern Kentucky University. He is expected to begin his duties on February 1.

"I am excited to begin my work with the University of Montana Western student-athletes, coaches, staff, faculty, campus leaders, alumni, and the entire community of Dillon," Wilson said. "Together we can help Bulldog student-athletes achieve academic, athletic and personal growth and success. I consider myself fortunate to have the opportunity to work for an institution with the reputation of UMW in one of the most beautiful places in the country."

Current Director Russ Richardson leaves the post at the end of the month to assume a management role in student health, wellness, and safety with the National Association of Intercollegiate Athletics.

Disposal of Christmas Trees

"The Beaverhead County Solid Waste Department will have a large dumpster at the fairgrounds for the disposal of Christmas trees. Residents can also take their trees to the landfill."

County Road Maintenance (Downey Lane)

By: MJ

I have been driving out on Downing Lane for the last couple of weeks taking care of a person's livestock while they are visiting family. It appears the county has been plowing the snow off the road. I have never seen Downey Lane so well maintain in all the years I have been using it. I am wondering if all this maintenance has anything to do with the residential sub-division permit that has been applied for by Monarch LLC. The easement that provides access to the property where their residential sub-division will be located states it comes off a county road.

Just seems odd after all these years the county is now maintaining the road that the county 'has not dedicated as a county road.' Don't get me wrong - the road can be traveled now without any worries of getting stuck in the drifts, ruts... However, if you are returning home from work in your car you might be surprised to see a rather large speed bump blocking your driveway put there by whoever plowed the road. It is interesting how anything can happen or be done in today's world of policy making via governments.

Avalanche Safety and Snow Update

Many backcountry enthusiasts seek out deep snow in mountain terrain on the Beaverhead-Deerlodge National Forest. Whether on snowmobile, skis, snowboard, or other devices, unstable snow in steep avalanche-prone terrain can be dangerous and even deadly.

Observers in the Chief Joseph Pass area reported collapsing and cracking of the snowpack this past week. This is a "bullseye" indicator of unstable snow and increased potential for avalanches. Although snowpack depth and structure around the Beaverhead-Deerlodge National Forest varies, recent observations show that there are multiple weak layers of snow in the upper part of the snowpack. These layers are being stressed by heavy new snow this past week; this stress on the snowpack will increase with the additional snow in the forecast.

If you are planning on enjoying the new snow over the holidays, please be very cautious and heed the following advice:

- **GET THE GEAR:** Ensure everyone has an avalanche transceiver, shovel, and probe on their person and knows how to use them.
- **GET THE TRAINING:** Take an avalanche course.
- **GET THE FORECAST:** Make a riding plan based on the current avalanche and weather forecast.
- **GET THE PICTURE:** If you see recent avalanche activity, cracks in the snow surface, or collapsing of the snowpack, this means unstable snow exists and riding on or below steep slopes is dangerous.
- **GET OUT OF HARM'S WAY:** Limit your exposure to dangerous terrain. Travel one at a time on risky slopes. Don't group up in avalanche runout zones. Don't help your friend find a lost ski or get unstuck in hazardous terrain; keep your distance so one of you can rescue the other in the event of an avalanche.

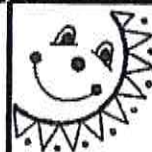

Forest Service avalanche specialists advise avoiding avalanche terrain, between 30 and 45 degrees steepness, as the most effective way to safely recreate when snow stability is poor. Signs of recent avalanches, cracking, and/or collapsing of the snow, otherwise known as "wumpling", are what avalanche specialists call "bullseye data" – clear warning signs that the snow is unstable. Trails and low-angle meadows, without steep slopes above, are safer terrain choices at times of poor snow stability, as is avoidance of avalanche runout zones below steep slopes.

For more information on snow conditions in your area contact your local Beaverhead-Deerlodge National Forest office. More information is also available through the following links: www.avalanche.org, www.mtavalanche.com/education, and www.missoulaavalanche.org/education-events.

Update On The Masonic AED Program For Dillon

All of the ten AED's (Automated External Defibrillator) have arrived and we are finalizing locations of placement. This will probably take place the middle of January due to the holiday season. The Dillon Masons would like to thank our wonderful community for their support of this worthwhile project. F. Lee Graves, Master and Secretary of Dillon Masonic Lodge No. 16.

Letter to the Editor

The following quote is from a servant of the LORD 3000 years ago. The times have not changed. We as humans have repeated history over and over through the centuries. The 'fake news' and 'deep state' is being repeated.

"Sin whispers to the wicked, deep within their hearts. *They have no fear of God at all.* In their *blind conceit*, they cannot see how wicked they really are. Everything they say is *crooked and deceitful*. They refuse to act wisely or do good. They lie awake at night, *hatching sinful plots*. Their *actions are never good*. They make no attempt to turn from evil.

"Your unfailing love, O LORD, is as vast as the heavens; Your faithfulness reaches beyond the clouds. Your righteousness is like the mighty mountains, Your justice like the ocean depths. You care for people and animals alike, O LORD. How precious is *Your unfailing love*, O God! All humanity finds shelter in *the shadow of Your wings*. You feed them from the abundance of Your own house, letting them drink from Your river of delights. For You are the fountain of life, the light by which we see.

"Pour out *Your unfailing love* on those who love You; *give justice* to those with honest hearts. Don't let the proud trample me or the wicked push me around. Look! Those who do evil have fallen! They are thrown down, never to rise again."

His servant and Porcupine,

Ed Flanders

Reformed, But Not Simplified

By Tom Purcell

If only tax simplification were true.

You see, one of the promises of the Republican tax-reform bill was that taxes would become way simpler for the majority of Americans to file - that we'd be able to file our taxes on a form the size of a postcard - but that isn't entirely so.

Sure, the standard deduction will almost double, from \$6,350 to \$12,000 for single filers, from \$12,700 to \$24,000 for married couples who file jointly.

That means many lower- and middle-income taxpayers will be able to file their taxes simply.

But for many of us, tax filing will be just as complicated as it has always been - if not more so.

An H&R Block representative told FiveThirtyEight: "While much attention has been given to the increase in the standard deduction, many taxpayers will still be required to file multiple forms and worksheets for various sources of income and credits that aren't going away."

Well, that's just great.

The tax code is still incredibly complicated - so complicated that, according to the National Taxpayers Union, Americans spend 7.64 billion hours and \$227.1 billion complying with it every year.

Consider: When the income tax became law in 1913, the tax code was 16 pages long. Now it is nearly 75,000 pages long!

I remember stumbling upon my father's 1959 income tax return a few years ago - boy, was filing easy for him that year.

In 1959, the code ran about 15,000 pages - one-fifth its current size.

My dad was a heavy smoker then - who wasn't? - and was able to deduct every penny he paid in cigarette taxes.

He was able to deduct every penny he paid in gasoline taxes. If we had such a perk now, the federal government would go even more broke than it is now.

And he was able to deduct every penny he paid in Pennsylvania sales tax, another wonderful perk that would save today's average Pennsylvanian a boatload in federal taxes every year.

He took a \$600 deduction for each of his two dependents,

TAX CUTS EXPLAINED

YOU GET TO KEEP
MORE OF YOUR MONEY

THIS IS
ARMAGEDDON!!!

we pay now.

In any event, despite a fair number of deductions available that year, his tax form was one sheet of paper printed on both sides. He had no calculator, nor did he need one.

He did a test run in pencil on one copy of the form, then finalized a second in ink and mailed it in. He always got a refund.

Look, there are many upsides to the Republican tax bill. Everyone whose taxes are reduced will enjoy that.

Corporations will be flush with capital to invest, thanks to reduced corporate taxes and a repatriation tax that incentivizes U.S.-based companies doing business overseas to bring their profits back to America.

And best of all, job creators will be eager to invest, thanks to an end to complicated depreciation schedules and the ability to write off 100 percent of their equipment investments in the current tax year.

These and other changes in the Republican tax bill will, I hope, stimulate significant economic growth.

But tax filing is not going to get easier.

That's why I look back fondly to 1959. I didn't waste hours that year getting hundreds of receipts in order. I didn't pay a dime in taxes.

I wasn't born until 1962.

No District Court this week.

OF BEAVERHEAD COUNTY

Attention Non Profit Organizations Serving Beaverhead County

The 2018 United Way of Beaverhead County Allocations Process is now open. Applications must be received no later than January 31, 2018.

What We Fund:

- * Specific projects focusing on education, health, and financial stability within Beaverhead County
- * Projects must be accomplished within the 12-month funding period
- * Projects must leave or support a lasting, positive impact on the community
- * Projects for construction costs will be evaluated on a case by case basis, but must be completed within a 12 month period and have a significant broad community impact
- * Funding from United Way of Beaverhead County cannot be used for salaries/wages, overhead costs, repayment of debt or capital campaigns

Evaluation Criteria: Projects are evaluated based on community impact, volume of people served, and success of previous programs.

For more information call Bob Pfister at 683-4269. Application packets are available at the United Way Office, 18 North Montana Street, Dillon, Montana or online at:

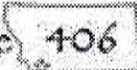

<http://www.beaverheadunitedway.org/allocations.html>
