Wanda Jo Watters - 71

Wanda was born January 21st 1947 to Blanche Fuller and Joseph Hartley in Cortez, Colorado. When she was 16 she started quite the scandal by starting her family at the ripe age of 16 ½ when she gave birth to her oldest boy Terry. She went on to have 4 more boys there after, Larry Lynn who passed away shortly after birth from AIDS. A year later she had my dad David, then Russell, then James.

She loved all her boys with all her heart and would do anything

for them. While raising her boys she enjoyed running and managing restaurants, as well as waiting tables. She loved meeting new people and having conversations about life. She loved to travel and see new places. When her grandbabies were born she shared her love and passion for the restaurant business and traveling with them as well.

I miss my grandma with all my heart and wish my kids got to grow up with her a bit longer then they got, but they will know all about her as I will never forget my grandma and all she's done for me and my little family. She helped raise me and my siblings and we were very close, even more so in her last days (2 years) here in Montana.

She passed away January 26th 2018 surrounded by a group of her loved ones, in Salt Lake City, Utah while under the care of the University Of Utah Hospital.

She is survived in life by her oldest Terry (Kathrine) Shields, his children, grandbabies, and one great grandbaby. My dad David Watters (Candi DuBois) their children and grandbabies. Russell (Jennifer) Watters, their children and grandbabies. Her grandbabies and great grandbabies from her youngest boy James Watters.

She is preceded in death by her parents Blanche Fuller and Joseph Hartley. Her two boys Larry Lynn and James Watters. We will be spreading her ashes this spring in the mountains along with her youngest boy James' ashes.

Forever Young and Forever in MY Heart!

Rooney, a critically
 acclaimed songwriter
 released his debut album
 "This is My Home" at the
 prestigious Sugar Club in
 Dublin on February 22nd,
 2009. His title track 'This
 is My Home' placed no. 3 in
 the Irish download charts.

Browne smashed the world
 record for marathon guitar
 playing. In June 2014, he
 played guitar continuously
 for 114 hours, at the Temple

Bar Irish Pub in Temple Bar, Dublin.

Rooney released 2 more albums: 'If it Ain't Broke' in 2010
 and 'The Entertainer' in 2011, which was the soundtrack to a
 musical he released in 2012 called 'Cobblestone Sam.' The play
 was based on a homeless character Dave met while performing
 as a musician in Temple Bar Dublin. The play was received very
 well, with the main character being played by award winning
 Irish actor Seamus O'Rourke.

Rooney has teamed up with Pioneer Motion Pictures, and
 will make a movie based on the song he wrote of the character
 aptly named 'THE MILLIONAIRE.' It will be shot in Dublin in
 2018, and distributed in the states.

In 2012, Rooney was voted 'Best Irish Singer/Songwriter
 of the Year' by NYCS 'RADIO IRISH.' Rooney topped the
 poll beating contemporaries Paul Brady and Elanor McEvoy.
 His songs 'This is My Home' and 'Millionaire' were played
 extensively by the radio station.

The band moved to Las Vegas in 2014, taking up residency
 at Rira Irish Venue, Mandalay Bay Hotel and Casino. In October
 of 2014, the band successfully smashed the world record for 'the

longest concert ever held,' flying in prominent Irish artists. With the help of local American bands they smashed the record with a time of 15 days and 10 hours.

The band enjoyed massive exposure amounting to the PR equivalent of \$11.1 million. It was covered by 90 TV stations, and 200 news agencies, and social media segments amounted to 237,500,000. It has been tried to be beaten by many venues and bands, but the Black Donnellys Dublin still triumph.

Rooney came up with a fighting song, a Celtic rock tune, and In August of 2016, the Black Donnellys Dublin were in the headlines again when their tribute song 'Notorious' to Conor McGregor UFC/MMA WORLD FEATHER-WEIGHT AND LIGHTWEIGHT CHAMPION, and fellow Dubliner, was picked up and released by the UFC, on a global scale. They released a video to the track which went viral over the internet. The band enjoyed enormous exposure globally.

The essence of these two dynamic and talented musicians is not in their quest for stardom, but their love for performing and producing great music. The Black Donnellys Dublin are renowned for their lively performances. From the raucous vocals, musicianship and remarkable songwriting skills of Dave Rooney, to the riproaring fret work and high octane energized performance of Dave Browne, this band truly is a breath of fresh air and can lift the shyest of audiences into memorable endeavor.

Covering a lot of genres with a huge repertoire including: Traditional Irish music, Celtic rock, folk, original, contemporary, country, Appalachian and classics, this band just can't lose.

2017-2018 Winter Count of Northern Yellowstone Elk

The Northern Yellowstone Cooperative Wildlife Working Group conducted its annual winter survey of the northern Yellowstone elk population on Jan. 15 and 16, 2018. The survey, using two airplanes, was conducted by staff from the Montana Department of Fish, Wildlife and Parks and the National Park Service.

Staff counted 7,579 elk, including 1,838 elk (24%) inside Yellowstone National Park and 5,741 elk (76%) north of the park. Survey conditions were generally favorable across the region.

The 2018 count was 42% higher than the 2017 survey results of 5,349 elk and was 94% higher than the lowest count of 3,915 elk in 2013. This year's count of 7,579 was the highest since 9,545 elk were counted in 2005. The long-term average of observed elk numbers since surveys began in 1976 is 10,634 elk, with a peak high count of 19,045 elk in 1994.

The purpose of this survey was to estimate overall elk numbers and population trends. A separate survey occurs in March with the objective of estimating calf recruitment and bull ratios.

The Working Group will continue to monitor trends of the northern Yellowstone elk population and evaluate the relative contribution of various components of mortality, including predation, environmental factors, and hunting. The Working Group was formed in 1974 to cooperatively preserve and protect the long-term integrity of the northern Yellowstone winter range for wildlife species by increasing our scientific knowledge of the species and their habitats, promoting prudent land management activities, and encouraging an interagency approach to answering questions and solving problems. The Working Group is comprised of resource managers and biologists from the Montana Fish, Wildlife, & Parks, National Park Service (Yellowstone National Park), U.S. Forest Service (Custer Gallatin National Forest), and U.S. Geological Survey-Northern Rocky Mountain Science Center, Bozeman.
