Local Property Taxes

Recently another person wrote a letter to the Dillon Tribune regarding our property taxes and suggested that we take some of the burden from residents and tax the tourists. I agree. Like him, I feel we are being taxed excessively.

My husband's and my taxes from 2012 to 2017 went up 62%!!! We had not made any major improvements to our modest property. And that was before the 10 million dollar levy for the High School was approved!

Or the levy for our local police. I shudder to think what our new taxes will be come Nov. Perhaps renters aren't paying attention to these issues when they vote, but they should be. The increases will eventually show up in their rent bills.

Enough is enough!! The schools in particular have been ridiculously greedy, and how much more are taxpayers going to be willing to give them. This for a school system that is not, from all I've heard, growing. In fact I believe student numbers are down from previous years. Asking for 10 million dollars last year and getting it from the voters was ludicrous and greedy.

We do not have a great tax base in Beaverhead County, and there's got to be a limit on how much they increase our taxes. We are not wealthy here. Asking for more again this year is unbelievable.

My husband and I are voting against the latest tax levies. We will also be against a new tax levy for the city parks.

But be aware: if you don't return the request for a Parks levy, you will be counted as a vote in FAVOR of it.

Please pay attention to mailings you get and vote AGAINST any new levies at this time. We can't afford it.

How to Tell When Data Use is Inappropriate!

Having taught statistics and used statistics professionally for close to three decades, I am concerned. I am concerned enough to try to set the record straight on how to present survey data even though I am no longer involved in the City government.

Survey results need to include the following:

- A) Number of surveys sent
- B) Number of surveys not returned
- C) Number of surveys returned
- D) Number of surveys marked 'yes'
- E) Number of surveys marked 'no'
- F) Number of surveys not marked clearly 'yes' or 'no'

When the claim is made that all surveys not returned will be interpreted as being in favor of an issue, there is a problem. When the claim is made that all surveys not returned will be interpreted as being against the issue, there is a problem. In either case, the report is biased! People who do not return surveys do not return them for many and usually different reasons. The point is, you and everyone interpreting the survey results who includes non-respondents as on their 'side' is making an assumption that would be equally correct for either side of the issue. Better to leave them out unless you are really backing your side and think the 'others' won't see your trick!

A good survey report allows you to see that the number returned plus the number not returned equal the number of surveys sent. The number of 'yes' responses plus the number of 'no' responses plus the number not clearly marked will equal the number of surveys returned. These are checks on the quality of the survey reporting. If they are failed, the report is a failure!

Check the report's figures before you start to interpret or use the results. Remember figures don't lie but they can be twisted into lies if there is no checking!

PROCLAMATION

WHEREAS, in 1872, J. Sterling Morton proposed to the Nebraska Board of Agriculture that a special day be set aside for the planting of trees; and

WHEREAS, this holiday, called Arbor Day, was first observed with the planting of more than a million trees in Nebraska; and

WHEREAS, Arbor Day is now observed throughout the nation and the world on the last Friday in April; and

WHEREAS, trees can reduce the erosion of our precious topsoil by wind and water, cut heating and cooling costs, moderate the temperature, clean the air, produce life-giving oxygen, and provide habitat for wildlife; and

WHEREAS, trees are a renewable resource giving us paper, wood for our homes, fuel for our fires, and countless other wood products; and

WHEREAS, trees in our city increase property values, enhance the economic vitality of business areas, and beautify our community.

NOW THEREFORE, I, Michael L. Klakken, Mayor of the City of Dillon, in the State of Montana, do hereby proclaim April 27, 2018 as local

Arbor Day

in Dillon, Montana and I urge all citizens to celebrate Arbor Day and to plant trees in acceptable locations to beautify the City of Dillon. As part of the celebration, four will be planted on S Washington and two will be planted at the Rotary Trail behind Parkview Elementary.

BCHS TENNIS TEAM NEWS

The gorgeous sun shone on Dillon Saturday and especially on the BCHS Boys and Girls Tennis Teams at their home meet versus Corvallis in the morning and late afternoon matches against Belgrade.

The highlight of the morning competition was the exciting play by #1 singles player Bradley Rakich against Corvallis' French exchange student. Brad eeked out the first set 7-5 and then in a thrilling 2nd set was down 2-5, but met the challenge to bring the match to a nail biting tie breaker ending with a win 7-3!

The top 3 varsity singles players for both boys and girls all enjoyed fairly easy victories. The boys made a clean sweep of the Belgrade team in the afternoon, along with the top 3 girls also sailing through.

Unfortunately the meets scheduled for Monday 4/23 with Stevensville and Livingston had to be cancelled due to poor weather. The boys team travels to Anaconda on Tuesday to play at 2 pm.
