RMEF Board of Directors New Chairman

The Rocky Mountain Elk Foundation is pleased to announce Fred Lekse has been elected its new chairman of the Board of Directors. A RMEF life member and avid hunter, Lekse is the 19th chairman to lead the organization.

Letter to the Editor

Will a private solar power company be consuming public lands in Beaverhead County?

On February 28th, Clēnera, a private solar energy company placed a bid on state land for approximately 1,300 acres to build a solar power plant. The location is from I-15 at the Apex exit headed West along the Birch Creek road for approximately one mile and extending South towards town approximately two miles. The development of a solar power plant in this location will have many effects. A definite effect will be the displacement of ranchers who have historically and are currently leasing the land for cattle grazing. The wildlife and plant species quite possibly shall be negatively impacted as well. Other potential effects include restricted recreational use, obstruction of views, and increases in energy costs for households. If the Montana DNRC (Department of Natural Resources and Conservation) approves the development, will the entire 1,300 acres be closed to public access? In addition, if approved, is Clēnera going to be placing more bids on state land and expanding these potential effects? Renewable energy can be a beneficial resource; however, it shouldn't come at the expense of other resources.

Please direct your questions and concerns to the DNRC, specifically the board members. Who are: Steve Bullock (406)444-3111, Tim Fox (406)444-2026, Matthew Rosendale (406)444-2040, Corey Stapleton (406)444-2034, and Elsie Arntzen (406)444-3095. To email them, go to their websites and click on the Contact Us forms. Of course, you can always send a letter and mail it to: 1539 Eleventh Ave. Helena, MT 5960.

For more information, feel free to contact the local Dillon DRNC office and ask for Tim Egan (406)683-6305. Or you can join the Facebook group called "Concerned Citizens of Solar Plant Development" where you can ask questions and participate in further discussion.

Mark your calendars!!

Kids spend on average 6.5 hours a day on screens and that doesn't include classroom or homework screen time; boys spend on average the equivalent of 1.5 days on video games every week. If screen time is a struggle in your family or it seems like you (or your child) might be addicted to your screen, PAY ATTENTION. How much time do you spend per week on social media? How do you manage screen time in your family?

The Beaverhead County ACEs Task Force and Be the Change 406 invites you to join us as we view SCREENAGERS: Growing Up in The Digital Age. This documentary explores the impact of screen technology on kids and offers parents and families proven solutions that work. What started out as a personal story for one has grown into a national movement, helping millions of teens and their families navigate growing up in a world with instant access to screens. Recent studies show us that screen time increases dopamine production and causes behavior that mimics addiction. SCREENAGERS goes far beyond exposing the risks of screen time, it reveals multiple approaches on how parents and educators can work with kids to help them achieve a healthy amount of screen time.

Consider joining us on March 20, from 6:00 pm to 7:30 pm in the Sywsgood Technology Center on the University of Montana Western Campus. The event is free of charge and childcare will be provided.

Montana Retired Educators Day

March 14 is proclaimed Montana Retired Educators Day. It is a day set aside in honor of those who have been involved in education and give support to education in the state of Montana.

As president of the Southwest Montana Retired Educators chapter I am well aware of the years of service that each of our members has dedicated to education. Being an educator is more than just being a teacher in the classroom. An educator is dedicated to making each child a better individual by giving him the tools to develop both physically and intellectually so that each individual will become a productive citizen.

This dedication to the betterment of all students is not something you really retire from. This is readily apparent within our local chapter as our members continue to contribute their time and talents to many worthwhile community and school district projects. This past year our local chapter alone donated over 8,000 hours of community service.

I urge you on March 14 to think for a moment of those teachers who made a difference in your life and if you can reach out to them and thank them for their dedication. But please know they are not resting on their laurels, they may be retired but they are still active still helping students and community.
