Ballot Interference Prevention Act

The Beaverhead County High School ballots went out in the mail Wednesday so our voters will need to be aware of the new law regarding ballot collection. There are "ballot collection" forms included with the ballots.

Ballot Collection Tips for Montanans who Deliver Ballots The "Ballot Interference Prevention Act" (BIPA) in Effect and Enforced

Montana voters are or will be receiving mailed ballots for school and special district elections and will need to comply with new legal requirements for in-person ballot delivery. The Commissioner of Political Practices (COPP) and Montana Association of Clerk and Recorders and Election Administrators (MACR) want to remind Montanans that the "Ballot Interference Prevention Act" (BIPA), which passed in the November 2018 election, is in full effect and that legal requirements for in-person delivered ballots have changed.

Under BIPA, election administrators are required to have all ballot collectors register their contact information and each voter's address for every ballot they deliver on behalf of a voter.

The below tips will help Montanans who wish to drop off ballots for family, friends, acquaintances, or caregivers remain in compliance with Montana law:

- BIPA does not apply for ballots returned by mail.
- If you will be collecting and dropping off ballots for other voters, print off the BIPA registry form before you collect ballots. You will need to record the address for each voter whose ballot you are delivering. Save time by completing the form before delivering ballots.
- You can collect and deliver a maximum of six ballots per election.
- Remember, you only need to fill out a BIPA registry from if you are dropping off other voter's ballots. You do not need to fill out a BIPA registry form to drop off your own ballot.
- Do you know others who help their family and friends deliver ballots? If so, help spread the word about BIPA requirements! The COPP has put together this BIPA guide which includes registry forms, compliance information, and contact information.
- If you have questions, contact your local election office or the Secretary of State's office. Compliance questions should be directed to the COPP.

The COPP, in conjunction with county attorneys, is charged to investigate and enforce BIPA. Authorized persons can drop off a maximum of six ballots per election. Any ballots delivered in excess of six ballots may be assessed a $500 penalty per ballot.

The COPP is grateful for the efforts of election administrators who are managing BIPA registry forms and helping Montanans understand legal requirements to deliver ballots. The mission of the Commissioner of Political Practices is to promote confidence, transparency, and accountability in Montana's democratic processes.

RMEF Elk Camp & Mountain Festival to Feature Exceptional Entertainment

Open air entertainment, live podcasts, hunting film premieres, the Total Archery Challenge experience, elk hunting and cooking seminars, interactive exhibits, raffles and auctions, outdoor events, the World Elk Calling Championships and much more. It all happens under the blue skies at 7,000 feet in the heart of elk country.

The 2019 RMEF Elk Camp, presented by YETI, and RMEF Mountain Festival, fueled by MTN Ops, will take place July 11-14 in Park City, Utah.

"There is no better place to celebrate elk, conservation and hunting than outside in the mountains," said Kyle Weaver, Rocky Mountain Elk Foundation president and CEO. "We can't wait to come together with our volunteers, members, sponsors, families and friends to celebrate our conservation mission accomplishments."

The RMEF Mountain Festival is free, open to the public, and will be held outdoors in the shadows of the Wasatch Mountains in the Canyons Village at Park City. It will feature more than 100 outdoor industry vendors and interactive displays including elk hunting and elk calling seminars, well-known hunting personalities and live music on the Leupold Live Stage by Nate Hosie and Glen Templeton.

Artists performing at Elk Camp events include long-time RMEF supporter Craig Morgan, Nashville songwriter Shane Minor and guests, Jeffrey Steele, David Lee Murphy and others.

In addition to Yeti, MTN Ops and Leupold, other Elk Camp and Mountain Festival sponsors include ALPS OutdoorZ, Bass Pro Shops-Cabela's, BMO Wealth Management, Browning, Buck Knives, Eberlestock, onX Hunt, Remington, Sitka, Sportsman's Warehouse, Traeger, Wildgame Innovations, Yamaha and others.

"We greatly appreciate the support our conservation partners. Not only are they outdoor industry national leaders but they fully embrace our mission to ensure the future of elk, other wildlife, their habitat and our hunting heritage," said Steve Decker, RMEF vice president of Marketing.

Additional interactive events as well as keynote speakers will be announced in the coming weeks

Montana Western Alumni Coach State Championship Teams

Montana Western alumni had a strong showing during the Montana State High School basketball State Championships. Across Class AA, A, B and C girl's and boy's basketball, there were 14 teams that appeared during the state tournament who had a UMW graduate at the helm as their head coach. Notably, Wes Holmquist coached the Bozeman High Hawks to the Boy's State AA Championship and Jim Stergar led the Billings Central Rams to the Class A Boy's Basketball State Championship.

Letter to the Editor

CONTINUOUS CREATION

Sometime back in the last century we learned that most galaxies had a black hole at their centers. A few years later we learned that the black holes emitted gamma rays and even later we learned that they also emitted ground up stars and planets. Now, from the recent "Atlas of Space" issue of National Geographic we can see that these black hole emissions are the raw materials for new suns and planets.

I always felt that that might be the case. Might this not be evidence that God's creation is continuous? I always wondered why God might create a universe that would end in a rather short period of time. I think the only thing the Bible says is the next time (after the flood) the Earth will be destroyed by fire, but that would still fit into this new theory through the Earth eventually falling into our sun.

Johannes Soyland, Ph.D.
