AFTER THOUGHTS

by "Swede" Troedsson (Missoula, 1959)

I wound up the 1988 fire season as an Air Support Supervisor on a fire near Cooke City, MT. One evening I had dinner in Cooke City with an Evergreen helicopter pilot. I was telling him about managing helicopter pilots. I always tried to get them into a motel, and if they HAD to get to a telephone (this was before cell phones) on the pretense of getting a mechanic or a relief pilot, I tried my best to get them to a telephone. Some of these pilots were on marriage two, or working on number three. I suspected they really wanted to talk to their new girl friend, or their attorney. I didn't need their problem distracting them from safely transporting our fire fighters.

The Evergreen pilot said that this was called "AIDS" in their profession. When I ask him what AIDS stood for, he said it stood for Aviation Induced Divorce Syndrome. I told him I knew some former Smokejumpers that had suffered from that same affliction.

Some time ago, I was dating a woman in Red Lodge, MT. She introduced me to a friend who retired as a commercial airline pilot with a major airline. I am impressed with the number of commercial airline pilots who retire and decide buy or build a fancy home and live in Red Lodge.

Her friend was hosting a barbeque, and we were invited. As I was sitting there sipping a G&T and nibbling on fancy snacks, the host pointed me out to several of his retired commercial airline buddies and said "That fellow was a smokejumper". That caught their attention, and one of them inquired as to what type of planes I had jumped out of. I replied: "Ford Tri-motor, DC -2, DC-3, Travel Air, and Twin Beech." They exploded in laughter. I admitted that this no doubt dated me.

For those who would like to observe interviews with current and former smokejumpers, and others involved in wildland fire suppression, there is a website named THE SMOKEY GENERATION.

The following interviews, under the Stories by Person link, are recommended as a starter:

Bruce Marshall - The Hornets' Nest
Tom Wilks - Lengthwise From Head To Toe
Kim Maynard - An Epic Packout
Bob Beckley - Eighty Feet Down; and, The Third Jumper
Gina Papke - Women in Base Camp - The Early Days
Jeff Davis - Rescue Jumps and Tragedy
Bobby Sutton - Rotor Strikes
Troop Edmonds - Bear Stories

Secretary Bernhardt Announces Proposal to Open Access to Thousands of Acres Near Montana's Iconic Lower Blackfoot River

Today, U.S. Secretary of the Interior David Bernhardt announced next steps in a collaborative effort with The Nature Conservancy (TNC) aimed at acquiring 13,000 acres of private lands within the Lower Blackfoot River watershed, near the iconic Montana waterway. The U.S. Department of the Interior's (DOI) Bureau of Land Management (BLM), which has been working with TNC and other public and private partners to maintain and improve public access to the area for a wide variety of outdoor recreationists, released an Environmental Assessment of the proposed acquisition and opened a 30-day public comment period today.

"From the beginning and for the duration of my tenure, public access will be a critical component of how we manage lands," said Secretary Bernhardt. Acquiring these lands dramatically increases access to public lands available for recreational activities such as fishing, hiking, hunting, mountain biking and snowmobiling," "This collaborative project leverages public and private resources to maintain, improve and expand important recreational access in the state of Montana."

The proposal would also maintain working lands with active forestry and fire-management projects that would reduce the threat of catastrophic wildfires and improve the health of the forest, consistent with the goals of Executive Order 13855 and Secretarial Order 3372. Existing grazing permits held by The Nature Conservancy would also be allowed to continue.

"The proposed acquisition would allow for balanced uses to continue in this important area, from recreation to active forest management," said Joseph Balash, Assistant Secretary of the Interior for Land and Minerals Management.

Made famous by Norman Maclean's classic story collection, "A River Runs Through It," the Lower Blackfoot winds its way through the mountains and Potomac Valley outside of Missoula. The Blackfoot River's waters are cold and fast with many deep spots, which makes it an ideal habitat for several trout species. The river is also a destination for many floaters, and excellent big game hunting opportunities abound in the area.

The lands would be acquired in phases using Sportsman's Access funds allocated by Congress from the Land and Water Conservation Fund. This year's allocation of $3 million will allow the BLM to acquire approximately 4,800 acres of the 13,000 acres by late fall of 2019.

The BLM has been laying the groundwork for this acquisition of

approximately 13,000 acres, located in the Belmont Creek area 25 miles northeast of Missoula, for several years. Meetings have been held with a wide variety of public land users, state and federal land management agencies, county officials, and local land owners to discuss acquisition opportunities in the area.

Secretary's Order 3373 (SO 3373), titled "Evaluating Public Access in BLM Land Disposals and Exchanges," was one of the very first Secretary's Orders Secretary Bernhardt signed. Today's proposal follows the guidelines of SO 3373, which directs BLM to adequately weigh public access for outdoor recreation – including hunting and fishing – when determining the appropriateness of the disposal or exchange of public lands. Identifying lands as available for disposal or exchange is required under federal law.

The public comment period for an environmental assessment evaluating the impacts of acquiring the acreage will close on June 27. To comment on the proposed acquisition, email the Missoula Field Office at BLM_MT_Missoula_fo@blm.gov or mail comments to Missoula Field Office, P.O. Box 3255 Fort Missoula Road, Missoula. MT 59804.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment–including your personal identifying information–may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

For more information visit the ePlanning website at https://eplanning.blm.gov or contact the Missoula Field Office at (406) 329-3914.

Help For Harlee

As many know BJ and Alena Klose lost there 26 year old son Garrett to an aggressive Glioma (brain tumor) April 6th 2019. There has been a Memorial fund set up at stockman bank in Garrett's honor to help a family friend who unfortunately was diagnosed with a brain tumor just one month after Garretts passing.

Harlee Salmi is 5 years old, she is the daughter of Matt and Taylor Salmi from Hot Springs Montana. She was diagnosed with a diffuse intrinsic pontine glioma on May 5th. This is a very aggressive non-curable brain stem tumor. She is currently receiving treatment at Denver children's hospital. Medical and incidental costs are mounting and time is of the essence to provide the resources that can help them. As symptoms progress she will become increasingly reliant on every day cares and already needs assistance. Please pray for Harlee and her family they need a miracle! All donations will go to help the Salmi family ease the financial worry and reunite the family. Harlee's wish is to return home. Your kindness, generosity, and support are so greatly appreciated.

With Sincere gratitude,
BJ, Alena Klose and the Salmi family
