Release of Positive COVID-19 Positive Cases from Isolation

As Beaverhead County begins to see positive cases of COVID-19, we will also begin to see people recover. We're thankful that the positive patient identified last week has recovered and has met the criteria to come out of isolation. We wanted to share with the public the criteria public health is using, as directed by the CDC, to determine if a patient has recovered and release them from their isolation orders.

Persons with COVID-19 who have symptoms and were directed to care for themselves at home may discontinue isolation under the following conditions:

- At least 3 days (72 hours) have passed since recovery defined as resolution of fever without the use of fever-reducing medications **and**
- Improvement in respiratory symptoms (e.g., cough, shortness of breath); **and**,
- At least 7 days have passed since symptoms first appeared.

Persons with laboratory-confirmed COVID-19 who have not had ANY symptoms may discontinue isolation when at least 7 days have passed since the date of their positive COVID-19 diagnostic test and have had no subsequent illness provided they remain asymptomatic. For 3 days following discontinuation of isolation, these persons should continue to limit contact (stay 6 feet away from others) and limit potential of dispersal of respiratory secretions by wearing a covering for their nose and mouth whenever they are in settings where other people are present. In community settings, this covering may be a barrier mask, such as a bandana, scarf, or cloth mask. The covering does not refer to a medical mask or respirator.

Barrett Hospital and Beaverhead County Public Health Mask Guidance:

In light of recent studies that show many people infected by coronavirus that are asymptomatic or are pre-symptomatic can transmit the virus to other people the CDC recommends wearing cloth face coverings in public places. This means interaction in places where social distancing may be hard to achieve (e.g. grocery stores and pharmacies) and especially in areas of significant community-based transmission.

It is important to note that wearing a mask is not a substitute for physical distancing!

The mask that our providers are recommending are those that follow a pattern that allows full coverage of mouth and nose, has a "pocket" to insert a HEPA filter, and can be formed around the nose. Please go to the link: gallatinquiltguild.com and follow the link for "mask instructions".

The best masks can be laundered regularly. It may be best to have a few on hand to rotate between. The best masks fit closely around the face. A dry mask works best, so if you are wearing a mask that is soiled or wet, please clean it and

Surgical and N95 masks are in short supply throughout our nation. If you have either of these on hand at your place of employment or in your home, please contact public health at 683-4771 so these can be added to our stockpile. Masks of this type are needed for healthcare workers on the front lines with the highest exposure risk.

Beaverhead County Incident Command Team Update 3/20/2020-4/6/2020

Beaverhead County established an Incident Command Team on March 20th, 2020 to address the COVID-19 pandemic. At this time, we thought it would be important to begin giving weekly community updates on what we're working on.

Since our establishment we've accomplished the following tasks:

- Established an incident command team with multiple members
- Inventoried PPE for all of the EMS units in Beaverhead County
- Began a small stockpile of PPE to ration as units and facilities run out
- Ordered supplies to make hand sanitizer for first responders
- Established protocols for press releases regarding positive patients, their releases, and potential deaths.
- Established isolation protocols for positive patients
- Continued to issue orders from the Beaverhead County Public Health Officer in line with state and federal mandates and recommendations

High School Graduates to Celebrate College Signing Day Online

Amidst the challenges COVID-19 has brought to our lives, we must not forget to celebrate. And that includes College Signing Day. This year the event, which graduating seniors usually celebrate at their high school, is going virtual. The Montana University System and Reach Higher Montana are partnering to help students celebrate their post-high school plans online.

"This is always an important and joyful event for our high school seniors as they celebrate their commitment to life after high school, whatever their plans may be," said Angela McLean, Director of K-12 partnerships at the Office of the Commissioner of Higher Education. "While this year's seniors may not be able to celebrate with their classmates and teachers, we're excited to connect them with their classmates around the state online."

Students are encouraged to submit a short video (or written bio and photo) describing their post-high school plans. Videos will be posted on May 6 at reachhighermontana.org/classof2020.

Students are encouraged to participate, whatever their post-high school plans may be, including two-year college, four-year college, a certificate program, an apprenticeship or another path to the future.

Entries must be received by April 22. Students who make their submission by Friday, April 10 will be eligible for early bird drawings and all who submit will be eligible for prize drawings, including a \$500 scholarship, a laptop and an iPad Air.

"The path one chooses to life after high school is a momentous decision and one that deserves to be celebrated, even in challenging times," said Kelly Cresswell, Executive Director for Reach Higher Montana. "We encourage families to host a watch party for their graduate - with household members only, of course - to help keep that momentum and sense of accomplishment alive."

For more details and guidelines on submitting a video, visit www.reachhighermontana.org/classof2020.

Help Shopping For At Risk Or Elderly

The Dillon Elks Lodge #1554 and the Beaverhead Chamber of commerce are offering their services to any at risk or elderly that are not able or choose not to venture out to do your grocery shopping. We have worked out procedures with safeway. We will take your orders over the phone, make sure you take into account your allergies and/or dietary needs when giving us said order (prefer texted orders) and we will shop the best of our ability for you and when we check out, Safeway will call you for payment information which is our preferred method. As a piece of mind to you, this is under Elks volunteerism and as such we are covered and bonded with our insurance. We are doing this to help our neighbors in need and would encouraging anyone that needs this service to call Elks Gerald Penn at 925-9184/683-5552 or Beaverhead Chamber of Commerce 683-5511

WALLET

By "Swede" Troedsson

In the fall of 1997, I loaded my canoe on my Bronco, and with Perry Backus, headed for the Centennial Valley, Montana. Perry was a staff writer for the Montana Standard. I had invited him to do a story on the "Chain of Lakes". These lakes are within the Beaverhead-Deerlodge National Forest, near the Centennial and Madison Valleys divide. Seven lakes (Elk, Hidden, Goose, Otter, Cliff, Wade, and Smith) make up the chain.

We stopped at Ralph's Exxon in Lima to top off our gasoline. I had made dinner reservations at the Elk Lake Resort, and walked over to the telephone booth to confirm our reservation. On entering the booth, I noticed a wallet on the shelf just below the telephone. It contained the owner's driver's license, and credit cards. The wallet's owner was Brian Mutch, son of Bob Mutch. I knew Bob (a former smokejumper). He had retired from the Fire Sciences Lab in Missoula.

After several hasty telephone calls, I was able to connect with Bob at his home in Missoula. Bob informed me that Brian had stopped in Lima on his way to Boise, Idaho. Brian, a wildlife biologist, worked for the Peregrine Foundation in Boise, and was scheduled to depart Boise the next day to participate in a Condor relocation project!

I obtained Brian's address from Bob, and dashed over to the Lima post office, where I mailed the wallet by Express Mail. I was informed Brian would receive it the next day. It worked! Perry and I continued the trip to the Chain of Lakes. We had a great day, topped off by an awesome rack of lamb dinner at the resort.

Perry's article was published Sunday, October 5th, 1997, in the Big Sky Life section of the Montana Standard. It was beautifully done! It was well worth the dinner I bought him!

How To Make A Quick and Easy Coronavirus Face Mask

Using A Bandana And Two Rubber Bands

This is NOT a medical-grade mask! This is designed for a quick trip to the grocery store or distancing (6 feet away from others) will lessen your risk. Most of us will have to go out of the house at some point, and covering your most vulnerable transmission points may help.

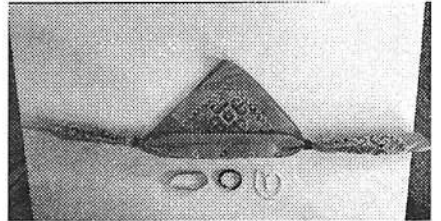

According to medical professionals, a virus is spread to your body by microscopic droplets entering through your eyes, nose, and mouth. When someone coughs or sneezes near you, say within 5 or 6 feet of you, these tiny droplets can land on your face and enter your body. Everyone expels droplets just by speaking, and the more enthusiastic the speaker, or the more animated the conversation, the more droplets are expelled, and therefore, exchanged. So, wearing a covering over your nose and mouth not only helps protect you from someone else's droplets, but it also helps protect everyone else from yours. Also, wearing large sunglasses can help.

What you will need:

One bandana, approximately 21" square, or a scarf or a piece of cloth
Two rubber bands, or two stretchy hair ties, or two 6" pieces of string

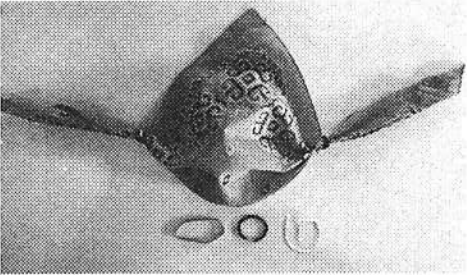

Step one:

Fold the bandana diagonally to form a triangle (the long side of the triangle should be approximately 31", or long enough to tie across your nose and at the back of your neck, like a bank robber. Lay the bandana on a flat surface with the long side at the top and the point at the bottom.

Step two:

Starting at the top along the long side, fold down the about 1 1/2", across the whole length. Grasp the folded top with your thumb and first finger of both hands and flip the whole bandana over so the long side is now on the bottom. Fold the long side up another 1 1/2", like you are folding a fan. Keep folding and flipping the bandana until you have 3 folds along the long side at the bottom, and you have approximately 6" of point at the top. Press down along the folded part with your fingers to "iron" in the folds. Rotate the bandana until the point is pointing down.

Step three:

On one side of the folded part, measure 9" in from the end of the folded part toward the middle on the long side, and secure the folds with rubber band or tie a piece of string tightly around the folds. Repeat on the other side. Make sure you secure the folds tightly or the whole thing will fall apart. Gently pull the folds apart, and tie your finished mask tightly over your nose and mouth at the back of your neck with a knot.

consequences.

Let us pray that this will be a short term exercise, and that we will be spared the most dire of the
