Changing Old Habits

By: MJ

The time has come when people are being asked to make major changes in their life styles and habits.

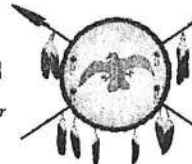

Question: Are humans experiencing heavy handed, arbitrary actions by elected and non-elected officials. Lack of factual information was distributed. Social media, elected and non-elected personnel are making decision on uncertain projections and their own personal opinions.

Yes, there is a pandemic spreading across the world that little is known about. Misinformation injecting FEAR into society was distributed by scientists, health care professionals, elected officials' governments...

Question: Who did the choosing of what business was essential or indispensable? With so much deceptive information how could a decision be made on what was essential? **Question:** Why is a liquor store indispensable?Due to the closure of businesses by elected officials, the loss of revenue to the state will be devastating. No income to tax. Remember, the government does not create income they take it from citizens in the form of taxes. Small businesses in the U.S., employee 50± of the employees and many have been destroyed.Leaders acted on overstated projections with no factual or scientific reality, that has cost thousands of people their livelihoods, their businesses, their families, their mental and physical health ... Many of the businesses forced to close will never open their doors again. Small businesses employ approximately 50% of employees. How many of the officials that made the decisions to shut down businesses lost their pay checks? *Will those same officials vote to allow employee and employer payroll taxes to be voided for a specific amount of time to help businesses rebuild?***Questions:** Was it an economically sound decision by hospital personnel to turn away elective surgeries and other care? When the managers of hospitals were using inaccurate and exaggerated data, yet elected to shut down elective surgery and other procedures, they shut down approximately 80%± of their income producing entities. Thousands of people have suffered due to lack of access to the medical field.

We have been asked to stay at home if possible, wear masks, wash

hands and disinfect. There is enough factual data existing that proves wearing mask and doing social distancing does help slow down the virus? This virus is not just about you alone. What you do affects your neighbors and visa ver-sa.

Question: Will congress continue to print money? What is ahead of our young people in the form of taxation? Will the taxes the government receives from the billions± of dollars freely handed out, be enough to recover the losses? **Note:** *When you give freely to one, you also take from and hurt someone else. How many will want to go to work when receiving gratuities in the form of money?*

Note: Due to the ripple effects of a shutdown, the heart of a community may be destroyed. Society's middle class may become poorer, have increases in suicides, excessive use of drugs, alcohol and food... We saw this happen in our small town of Dillon when Stoltz Land and Lumber shut down. History tells us how this happens.

Questions: Would it be feasible for the wages of the congressional members and other officials to receive bonus pay at the end of a year based on how the whole economy of America is doing and less about how their personal wealth is growing? **Anything is possible.**

"Cruisin' Out Of Seclusion"

DILLON: are you ready for "Cruisin' Out Of Seclusion" this Friday night, May 1, 2020 at 7:00 P.M? We are changing the theme of the "Cruise" this week to honor our 2020 Dillon Graduates: BCHS Seniors, DMS 8th graders, UM Western Seniors, and Montana Youth Challenge who have missed out on many special memories during their senior year.

We will be using the same "Cruise" route: from the Chamber of Commerce down Montana Street to the stop light, turning right on Helena to the three way stop, turning around in the High School gym parking lot, back out on Helena to the stop light, down Montana Street to the Chamber parking lot. Join the "Cruise" at any point along the route. Don't stop after just one loop let's keep this thing going for at least 45 minutes.

It would be cool to have car windows painted in your school colors and decorated in honor of a graduate you want to recognize. Make signs to hold out vehicle windows, stick on your cars, dress up in school colors, etc... So let's get all you graduates, families, and friends out for a night of "Cruisin'" to honor these special individuals and let them know they have not been forgotten.

In case you missed last week and would still like to donate to those causes, we will have the tubs out in the BW Lodge parking lot.

We want to hear horns, noise makers, and see lots of decorated cars and people! Cruise and wave/honk, display your signs for our GRADUATES while still maintaining social distancing by Not getting out of your cars. Come on Dillon lets have some fun with this...

Letter to the Editor

Dear Montanans,

I start this letter with a question. Can you tell me what Montana's largest industry is? Not sure? Take a look around your home. What are you wearing? What are you sleeping in and on? What is your furniture made from? What is in your medicine cabinet? What is on your dinner table, in the refrigerator, and in pantry? Have you guessed it? The majority of your everyday needs are from agricultural products. Agriculture is the leading industry in Montana. The vitality of Montana depends on agriculture.

The value of agricultural production in Montana is over 4 Billion Dollars! If agriculture is our leading industry and agricultural products are vital for living for every Montanan, why does Montana not have a Congressional Representative that can truly represent agricultural production? Montana gets ONE representative and ONE vote. The one vote is imperative for protecting the vitality of Montana. Montana communities are dying. They are dying because Montana's heartbeat and lifeline have not been protected. Protecting agriculture protects our communities.

John F Kennedy explained it best, "The farmer is the only man in our economy who buys everything at retail, sells everything at wholesale, and pays freight both ways."

In the Montana U.S. Congressional Race, ONLY ONE CANDIDATE can be a guardian of the heartbeat and lifeline of Montana. That candidate is Joe Dooling. As a life-long agriculture producer, Joe, his wife Julie and their family have experienced first-hand the impacts of mismanagement of Montana agricultural interests. Volatile/monopolized markets, water rights, land access, limitations in Ag lending, as well as crop loss and lack of financial support. Joe hasn't played victim to these challenges and has been proactive at the local, state and even national level to protect the interests of Montana and fight to make changes in policies that were set by outside parties that didn't have the experience, knowledge or education to make these decisions. Like Montanans do, Joe has diversified and adapted to the challenges in order to contribute to the lifeline of Montana. As I write this, Joe is either in the field on his tractor, feeding hay to his cattle or bottle feeding their bum calf. He not only is a steward of the land, but shepherd of his animals, and a provider to his family and community.

That ONE vote, the RIGHT vote in Washington, WILL bring life back to Montana.

BLM to temporarily close road along Madison River

A road along the Madison River in southwestern Montana will get a fresh face thanks to the Bureau of Land Management.

North Bear Trap Road in Madison County will close temporarily on May 4 for two weeks as workers from the BLM's Butte Field Office resurface portions of the route.

The closure is due to the narrow nature of the road and the lack of pullouts along the route.

For more information, call the Butte Field Office at (406) 533-7600.
