Vehicle Pursuit

Montana Highway Patrol (MHP) attempted to stop a vehicle and the vehicle did not yield to the patrolman. The vehicle attempted to elude the MHP by going south on Montana street from the Town Pump area.

Mike Miles was headed home and saw the pursuit and attempted to block the vehicle in the driveway of Beaverhead Home and Ranch at Montana and Reeder. Miles truck came in contact with the suspect vehicle. The pursuit then headed north on Montana Street and onto I-15 north bound.

The suspect vehicle was traveling at speeds in excess of 100 MPH. The MHP deployed spike strips at MM66 which deflated one tire on the vehicle, but he kept going at high speeds. Units were able to stop the suspect vehicle at MM 99.5. The suspect was taken into custody and transported to Butte for medical evaluation.

Both Dillon Police Department and Beaverhead County Sheriff's Office had Officers involved in the pursuit.

Fish and Wildlife Commission approves CWD management hunt in several Region 3 hunting districts

White-tailed deer harvest in these districts to be extended from Dec. 15 through Feb. 15

The Montana Fish and Wildlife Commission last week unanimously approved a chronic wasting disease management hunt for white-tailed deer in several hunting districts in southwest Montana.

From Dec. 15 through Feb. 15, unused 2020 general deer licenses will remain valid for either-sex white-tailed deer harvest, and unused 2020 003-00, 331-00 and 399-00 deer B licenses will remain valid for antlerless white-tailed deer harvest within the CWD management hunt area. Now that the general deer hunting season has ended, no additional licenses can be purchased, except the 003-00 deer B license, which will be sold until Jan. 15, 2021.

Montana Fish, Wildlife & Parks staff proposed these adjustments for places where FWP's surveillance efforts have found relatively high prevalence of CWD among white-tailed deer.

The primary goal of this CWD management hunt is to reduce densities of white-tailed deer in these areas in order to slow the spread of CWD among white-tailed deer and to mule deer, elk and moose. FWP also hopes to further improve understanding of CWD distribution and prevalence through continued testing of hunter-harvested deer.

The CWD management hunt will be in the following deer hunting districts and hunting district portions:

- HD320 – Those portions within the Jefferson River watershed. Those portions within the Madison River watershed are excluded.

As always, landowner permission is required before hunting.

CWD in southwest Montana

CWD is a contagious neurological disease that infects deer, elk and moose. It is always fatal, and there is no known cure. It was first found in Montana in 2017.

CWD was detected among white-tailed deer in the Ruby Valley in 2019. These deer are contiguous with white-tailed deer and moose throughout the Ruby, Jefferson, Beaverhead and Big Hole valleys. They are seasonally connected to populations of elk, moose and mule deer.

Hunters play a significant role in FWP's management efforts for CWD. By late November, FWP's surveillance of hunter-harvested white-tailed deer in southwest Montana found prevalence levels ranging from 8.3 percent in HD 320 to as much as 50 percent in a localized portion of HD 322, where about 2,000 white-tailed deer are routinely counted in spring.

Without population reductions, prevalence is expected to increase substantially in the coming years throughout these white-tailed deer populations.

Continued CWD sampling

Hunters who participate in the management hunt are encouraged to submit samples for CWD testing. FWP has provided resources to help hunters collect and submit samples for testing on their own. These resources can be found on FWP's website by visiting https://go.usa.gov/xA3wH.

FWP will also provide limited staffing to assist hunters who need help collecting samples from their harvested animals. Beginning Dec. 21, CWD sampling stations will operate one day per week, from 10 a.m. to 3 p.m., at FWP offices in the following locations:

Mondays: 730 N. Montana St., Dillon

Tuesdays: 1820 Meadowlark Ln., Butte

CWD is not known to infect humans. However, the Centers for Disease Control and Prevention recommends that people not eat meat from infected animals and have their harvested animals tested before eating them if they were taken from an area where CWD is known to exist. For more information on CDC recommendations, please visit https://go.usa.gov/xAcnc.

CAN WE PLEASE HAVE THE RIGHT KIND OF CHRISTMAS SOUNDS?

Tyrades! by Danny Tyree

"Hello. I'm Grandpa."

For Christmas 50 years ago, my parents splurged and bought me a compact reel-to-reel tape recorder. My father had whetted my appetite with remarks that one could build a primitive voice recorder along the lines of Thomas Edison's prototype, but this was the real store-bought deal.

I took the prized possession along when my paternal grandparents hosted Christmas dinner for the very last time.

I THINK the device is still nestled in my mother's attic; but even without it, I distinctly remember Grandaddy Carl neglecting his King Leo stick candy long enough to lean forward and humor me by uttering, "Hello. I'm Grandpa" for the benefit of posterity.

Certainly, favorite carols playing over the radio or the shopping mall PA system create priceless Christmas memories; but, like my grandfather's announcement, there are so many other sounds that warm the cockles of our hearts and create cherished remembrances.

For instance, the laughter that accompanies good-natured ribbing when a new boyfriend or girlfriend meets the extended family for the first time.

Or the woofs, meows and neighs of new pets delivered to their forever home by Santa.

Don't forget the joyous sound of well-wishers when a family member announces a pregnancy, or when a baby experiences its first Christmas.

We can relive our own childhoods when we overhear youngsters unleashing their imaginations or discovering "Jingle Bells, Batman Smells" for the first time.

Even a distressing sound such as spinning tires stuck in snow can be outweighed by the sound of a neighbor (or a total stranger) asking, "What can I do to help?" instead of "What's in it for me?"

A well-worded, heartfelt prayer over a Christmas meal can fortify us just as much as the protein, vitamins and minerals.

Yes, Christmases seem to come faster and faster; but there is ample time for obstacles, disappointments and disasters between them. That's

why we should embrace all the pleasant audio memories we can get.

On the other hand, some Christmas sounds are toxic.

A respectful exchange of political viewpoints keeps office parties and family get-togethers lively, but overheated ultimatums have no place on the holiday celebrating the Prince of Peace.

Christmas is not the time for families to serve up heaping helpings of long-simmering complaints about favoritism, inheritances or ostentatious displays of wealth. As the Horatio R. Palmer hymn advises, "Angry words, oh, let them never/ From the tongue unbridled slip. / May the heart's best impulse ever /Check them ere they soil the lip."

Some people spend all year guaranteeing that the yuletide season will be miserable for themselves and others. Christmas should be a time for togetherness and sharing, not a time for finger-pointing or self-flagellation.

Life gives us enough hard knocks without our wallowing in self-inflicted wounds (whether from dimwitted investments, shortsighted health decisions or hormone-driven shaky relationships). Good planning minimizes the need for abject apologies or violent defensiveness.

I have my "Hello. I'm Grandpa" memories to keep me warm – as well as the sound made by the "air blaster" toy I received all those decades ago and the ability to conjure up the jokes of long-gone aunts and uncles.

I'm sure you have your own favorite Christmas-connected sounds. I hope that this year you can accentuate the positive, eliminate the negative and make new connections that will last throughout the years.

Southwest Montana Veteran's Home Update #82

By Mike Lawson

Greetings, once again, to you, the Veterans/Counties/Communities of SW MT who are the organizers and supporters of the SW MT Veteran's Home.

I'm writing this article on December 12th , which is only 10 days from which, the Community Center and Cottage #1 will get turned over to the State of Montana, as completed. The company who will operate our Veteran's Home, Eduro Inc., will then move in, to start operating them. They'll bring in their hired personal, who will fill the many employment positions , both administrative and professional, that it'll take to operate this, our SW MT Vet Home. It will then be after the first of the year, that our Veteran Residents will be admitted to this, their new home. As I mentioned before, the schedule is for Cottages #2 & #3, to be completed and turned over to the State of Montana, on January 22nd and Cottages #4 & #5 on February 22nd. Those dates could vary a bit, but should be pretty close. When Liaison Mark Gollinger and I did our weekly walk-through on Thursday afternoon, we were met by an abundance of trucks/cars parked in the Parking Lots, between the Community Building and Cottage #1. It was more than I had ever seen and once inside, these buildings, it quickly became apparent, the reason why. There's a big push to get these buildings done by the completion date, on the 22nd, which is now allowing the three new sub-contractors to come in, on the job, to do their finishing parts of the construction puzzle . The other punch-list/touch-up work, is being done by Markovich Construction and his sub-contractors, who have been on the job from early on. These two buildings are extremely busy, with a lot of people, getting a lot of finish completion work done. As always Mike Ascheman and John Kotka are my go to guys for information and this time around, it was almost an overwhelming amount to report on.

Construction Update:

Community Center—Interior: This place was so busy, that people were stepping over each other. The McKenstry Co. had guys working on programing the damper control heating systems, some of which involved the internet. One of the new sub-contractors, "Complete Communications & Surveillance" were running a lot of low voltage bundles of cable, for the Data Cable Infrastructure System. Once it run into the many different locations throughout this building, it will be for Ethernet/Internet/Cable-TV/Phones//Computers/etc.. This building will be wired throughout, to a Central Location Control Panel on the exterior of the building. This will allow the different "Data Communication Companies" to make their individual connections, to the appropriate connection in this Control Panel. The Electricians were trimming out conduit for the ADA Handicapped Doors. The Carpenters were/are finishing up the FF&E package for the

Physical Theraphy Room, consisting of a treadmill, exercise bike machines, stretch table and other components. They are also installing wire shelving in the offices and in storage rooms, as well as the file cabinets. Mike Ascheman, said different final inspections, on these systems, will take place this week.

Exterior: The Carpenters have the "Ground Thawing Machines" thawing out the East End patio and Electrical Vault step area. The concrete should be poured, at the time this paper comes out, on Wednesday.

Cottage #1—Interior: "Systems Northwest Inc.", are working on the low voltage wiring/control panel/ components, for the Fire Protection System. "Custom Cabinets" did a "change order" kitchen cabinet modification, for the oven, and then cut out the counter stove-top opening. The Carpenters cleaned up the Mechanical/Electric Vault Room floors for sealed concrete. The Floor-Layers laid all the hallway carpet and installed the rubber base. The Electricians are about done with their punch-list trim-out. The Insulators will insulate the ductwork, inside the Mechanical Room, this week. The Cleaning sub-contractor will do the final punch-list cleaning this week. Mike said the final inspections for the Fire Alarms and Low Voltage Systems are scheduled for this week.

Exterior: The cement border around the back patio, was poured/finished and the "Veteran Service Medallions", were embedded in that concrete. The Siding Crew have some work left in this area, they can now get too.

Cottage #2—Interior: The Fire Suppression Sub-Contractor was running low-voltage cable for that system, which involves the fire sensors, overhead fire suppression sprinklers, etc.. The Fire Alarm sub-contractor, was also running low-voltage cable for the systems , involving the alarms, strobe lights, control panels, connections to the Fire Department, etc.. The Carpenters are busy, building window jams, installing door frames and casing for the doors/windows. The Tile Layers have been doing the floor preparation in all the Resident Bathrooms and have started laying tile in those locations. The Electricians are still pulling wire and doing trim-out of light installation/switches/ electrical-outlet/receptacles/etc.. The Plumbers have gotten the domestic water installed. They are in the process of hooking up the Zone Valves in the Mechanical Room, for the Overhead Air Handler Heating Units. Painters are doing final touch-up work.

Exterior: Nothing at this time.

Cottage #3—Interior: The Plumbers are in the finishing phase, of the gas-line hook-up to the Boilers. The Electricians are doing the trim-out of the outside exterior lights, on this

Cottage. The Carpenters did a bit of work, installing the ADA Handicap grab bars, in the Resident Bathrooms. The Flooring guys are in the process of laying the flooring in all the Resident Rooms. Dean, from Johnson Controls , was working on the programing of the outside, low-voltage damper controls. The Fire Suppression guys are probably going to be in this Cottage, this week.

Exterior: Nothing at this time.

Cottage #4—Interior: The Plumbers are doing the domestic water system. The Electricians are installing the Cam Lights in the Seismograph T-Bar metal ceiling framework and running the wiring to them. The Sheet-Rockers are following the Electricians and hanging the ceiling-sheetrock, once the electrical ceiling component work, is done.

Exterior: The Siding Crews are working on the roof eve, soffits and facia. RK Concrete poured the back patio, the ten foot sidewalk to the street, the radius connecting to Cottage #5's radius, and the five ft. sidewalks. Every thing is poured for this Cottage except to border cement, around the back patio.

Cottage #5—Interior: Some movement happening here, in that the Electricians are doing rough-in work which includes pulling wire. Some mechanical work which will increase, after the Community Center and Cottage #1 are completed next week.

Exterior: The Siders continue to do the siding work, which includes caulking, facia and soffit work. The Carpenters are using the ground thawing machines, combined with covering with insulation blankets. This is to thaw the sidewalk area's/patio, so the cement crew can form and pour concrete, around this Cottage.

Receiving/Maintenance Building— Interior: The electricians are doing their rough-in wiring. Once this is in, the Plumbers will do their rough-in, followed by the Sheet-Rockers/Tapers and the Painters. Should be turned over to the state, in the next month or so.

Zemljak Excavating, is mainly doing sidewalk prep work for the Cement Finishers, but is also doing some finish site, dirt-work.

Monument Veteran Home Sign: The Carpenters installed this sign, located as you enter our Veteran Home Entrance. It is lit up at night and is worth going by, to see.

Our Veteran Residents, who will call this home, have been patiently waiting to be admitted. This is finally going to happen after the first of the year. When this Coronavirus is under control and visitors are allowed, we'll be able to do much more to enrich their lives. Until next time.

HIM TECHNICIAN- ABSTRACTING ANALYST (MEDICAL RECORDS):

Barrett Hospital & Health care invites applicants to apply for our HIM Technician – Abstracting Analyst is responsible for preparation of records for accurate processing within the electronic medical records. The HIM Technician – Abstracting Analyst responds and refers telephone inquiries with proper phone etiquette. Additional tasks of the HIM Technician – Abstracting Analyst include photocopying of records for release of information upon request by insurance companies, legal counsel, and other requester according to Barrett Hospital & HealthCare policy. The HIM Technician – Abstracting Analyst enters abstracted data, such as pertinent diagnosis, prognosis, and treatment data from medical charts or reports in the electronic medical record. The HIM Technician – Abstracting Analyst must comply with state and federal regulations in creating abstracted detailed summaries or a patient's treatment and prognosis in an organized manner. The HIM Technician – Abstracting Analyst must have strong computer skill proficiency and familiarity with how to use general office equipment. Successful candidates will have excellent organizational and accuracy skills, with the ability to focus and remain on task and prioritize work as requests present. Candidates must also have a passion for team work, customer service excellence, ability to maintain professional relationships and enjoy working with the public. The HIM Technician-Abstracting Analyst's work must be accomplished with integrity, sensitivity and respect for the confidentiality and privacy of patients with regards to HIPPA compliance and breach notification requirements using the various hospital services. Minimum Qualification: High school diploma, GED or equivalent required. Preference will be made to those candidates who possess an Associates or Bachelors' degree from an accredited college or university. Three years of related experience and/or training, or equivalent combination of education and experience may be considered. Active Registered Health Information Technician (RHIT) certification preferred. This position is a Full Time position and is eligible for the full benefit package.

MEDICAL TECHNOLOGIST/ CLINICAL LABORATORY SCIENTIST

Barrett Hospital & HealthCare invites applications to fill a Medical Technologist/Clinical Laboratory Scientist position to join our Laboratory team. The Medical Technologist/Clinical Laboratory Scientist oversees patient specimen collection, processing, testing, and reporting. The Medical Technologist/Clinical Laboratory Scientist assures quality control, quality assurance, maintenance of analyzers and monitoring of accuracy and precision. The Medical Technologist/Clinical Laboratory Scientist must be proficient in analyzer and instrument operation, quality control, calibration and maintenance. Successful candidates must have a passion for customer service excellence, team work and enjoy working with the public. Minimum Qualifications: Candidates must possess an active Montana Clinical Laboratory Scientist certification or ability to obtain licensure within 45 days of hire. One to two years of clinical post degree training is preferred. This position is a Full Time position and is eligible for the full benefit package.

HEALTH INFORMATICS MANAGER

Barrett Hospital & HealthCare invites applications to fill the role of Manager, Health Informatics to join our team of healthcare professionals. The Health Informatics Manager is responsible for the implementation and maintenance of integrated information systems that will support clinical and non-clinical practice and decision-making as well as specific projects to support safety, quality, and efficiency of patient care and the patient experience across the care continuum. The job also provides a wide range of administrative, planning, and general support service duties with varying degrees of complexity. When capacity exists, this position also provides project planning, support and coordination. Through collaboration with Administration, IT and all other departments, the Health Informatics Manager participates in the selection, implementation and adoption of clinical technology to support optimal effectiveness and efficiency. Further, this position provides direct support and education to Barrett Hospital & HealthCare staff in their use of EPIC. This job requires analyst capabilities and a high knowledge of processes that support project management in a variety of areas. The job functions in a facilitative role to prioritize and complete assignments that often have competing and conflicting objectives, timeframes and resources. Functions as a liaison with EMR vendor. The position plans and coordinates meetings, programs, procedures and scheduling to facilitate and coordinate projects and activities, and also is responsible for planning a wide variety of administrative and office-related assignments to accomplish and control work assignments. The position reports to the Chief Quality & Compliance Officer. The incumbent will work independently with a variety of persons within BHH, including directors, managers, frontline staff and analysts. The position supervises other health informatics employee(s). Minimum Qualifications: The position requires a Bachelor's Degree and two to three years of increasing responsibility in administrative and project management support. Organizational skills, variable work task management with attention to detail and the ability to manage shifting priorities are critical for success in this position. The position requires a minimum of 5 years of Clinical experience, EPIC experience, and demonstration of successful clinical team participation. Ability to read, interpret, and write documents, procedures, and reports. Ability to solve practical problems and deal with a variety of concrete variables in situations where only limited standardization exists. Ability to interpret a variety of instructions furnished in written, oral, diagram, or schedule form. This position is a Full Time position and is eligible for the full benefit package.

PATIENT ACCOUNT REPRESENTATIVE- CASHIER

The Patient Financial Services Department at Barrett Hospital & HealthCare invites applications to fill a Patient Account Representative-Cashier position to join our team of professionals. The Cashier will be responsible for answering, handling, and/or appropriately routing all incoming calls received through the switchboard. They will be responsible for the daily processes and reconciliation of deposits, complete timely and accurately the posting of payments received for the facility. The cashier will be responsible for duties which include picking up mail and money bags from the clinic, picking up and dropping off mail at the post office and clinic, and picking up and dropping off at CHC. The Cashier for BHH will have direct contact with patients by telephone and face to face. They will be responsible for all mail processing. The Cashier will work closely with all dept. associated personnel to assist in the accomplishment of the PFS dept. goals. The Cashier secures money, maintains a HIPPA compliant work area at the front desk, timely and accurately scans the daily deposit, EOBs, and miscellaneous documents. This position will cross train and provide cross coverage with Registration, Financial Counseling, Billing, and Systems Specialist personnel as required. Minimum Qualifications: High School Diploma or general education degree (GED); one year of related experience and/or training; or equivalent combination of education and experience preferred This position is a Full Time position and is eligible for the full benefit package

REGISTERED NURSE - AMBULATORY

Barrett Hospital & HealthCare invites applications to fill a Utilization Review & Discharge Planning Registered Nurse (RN) position to join our Quality Improvement Services team. The RN is responsible for conducting utilization review on inpatients, observation patients, and swing bed patients. The RN will review charges and perform discharge planning for all inpatient and swing bed patients. The RN assists the Quality Services/Risk Management Director with quality and performance improvement projects. The successful candidate must have excellent organizational and time management, be a motivated learner, have above average interpersonal and customer services skills, be a self-starter, have an innovative spirit, expertise in hospital business acumen, be a problem-solver and the ability to deal with ambiguity. Minimum Qualifications: Bachelor's Degree and RN license, required. Candidates without a nursing licensure may be considered, however a Bachelor's Degree is required. Computer proficiency and experience with electronic medical record documentation. A minimum of five years of related healthcare or hospital experience preferred. This position is a PRN position.

COURIER - MATERIALS CLERK

Barrett Hospital & HealthCare invites applications to fill a Courier position to join our Materials Management team. The Courier/Materials Clerk is responsible for driving a delivery vehicle to pick-up and deliver a variety of items back and forth between Barrett Hospital and the Barrett Hospital & HealthCare Clinic. The Courier/Materials Clerk also completes required paperwork and logs, all while providing excellent customer service. The Courier/Materials Clerk may handle pharmaceuticals, blood products and transporting other highly confidential information. The Courier/Materials Clerk received and delivers freight, fills and delivers requisitioned supplies as well as other duties as needed. Minimum Qualifications: High school diploma, GED or equivalent required. Incumbents will have a clean driving record and exceptional personal appearance decorum. Experience handling freight, supplies and biohazard materials preferred but will train for the exceptional candidate. Physical Requirements: Lifting 50 lbs. maximum with frequent lifting/carrying up to 20 lbs. This position is a Full Time position and is eligible for the full benefit package.

The 2020-21 holiday season is unlike any other before. Holidays are often challenging, but COVID-19 created a major upheaval for all of us. Here are some helpful tips & insights to use during this unpredictable time.

REACH OUT

If you feel lonely or isolated, seek out community, religious or other social events, many of which may be accessed virtually. They can offer support & companionship. Leaning into trusted others is the most powerful way to feel better. If you may do so safely, volunteer your time to help others as a good way to lift your spirits & broaden your friendships.
