MAY I SING THE HOUSING SUBDIVISION BLUES?

Tyrades! by Danny Tyree

My wife and I would never have met, except that her family fled a densely populated state when she was 11.

Given her satisfaction with the simple life (deer in the yard, the neighbors' ponds and livestock across the road), I dreaded sharing game-changing news with her the other evening.

"One of the neighbors said a 100-house subdivision is planned for one mile away on our country road."

(Technically, I think the revelation was "One of the neighbors said a 100-house subdivision is planned for one mile away on our country road; now, where's my supper, woman?" I'll probably be able to remember more precisely when the swelling goes down.)

Don't get me wrong. I'm not holier-than-thou when it comes to turning forests and pastureland into domiciles. For much of my childhood, my father helped keep a roof over our heads by working as an agent for my mother's cousin, a real estate developer.

(Dad also kept a FLOOR under our feet, but I've noticed parents never get much credit for any non-roof amenities. Maybe parents should diversify their speeches. "Well, young lady, as long as you're benefitting from my threshold and my wainscoting, you're living by MY rules!")

My wife and I became homeowners nearly 28 years ago, so I balk at begrudging anyone else their own shot at affordable housing and the American Dream. Granted, the American Dream ain't what it used to be, if townsfolks' new aspiration is to be wedged between Casa de Tyree and the industrial park! I'm just saying.

Yes, everyone is entitled to their own little piece of Paradise – which brings an interesting twist to a classic philosophical conundrum: "How many angels can dance on

we suddenly need all these houses, where the (bleep) are the people living NOW?"

Good question. Maybe there are citizens far to the north hearing the Siren call and rationalizing, "Yes, they'll be cookie-cutter homes, but they'll be cookie-cutter homes that will provide AIR CONDITIONING BILLS out the wazoo."

Or, most likely, we will see pasty-skinned adult children emerging from their parents' basements in search of a home of their own. ("The man at the hardware store called this a 'leaf blower' – but it would be so cool to use against Orcs and trolls!")

I'll not stand in the way of Progress. Even if rising home values supersize my tax bill.

"Well, old man, as long as you're living in MY COUNTY, you're not going out with money left in your pockets!"

Sigh

CONGRATULATIONS

HIGH WATER IS DANGEROUS: PLAN AHEAD AND WEAR A PFD

When spring is in the air, snowmelt creates high water in our streams and rivers. You might want to get out there in your boat, but high water can be deadly when conditions are too extreme for safe boating.

Although it can be hard to put safety ahead of adventure when you've spent hours planning a boating trip, sometimes the only safe choice is to stay off the water. If you do go, make sure you stay safe by wearing a well-fitted personal flotation device (PFD) or life jacket when on and around the water. Even if you are only near a rapidly flowing river, wear a life jacket; it could save your life. If you fall into cold water without a life jacket on, you could drown in a matter of minutes.

There are other times, especially for less experienced boaters and floaters, when the dangers aren't apparent until they've entered the water.

Here are some tips for navigating the dangers of high water:

- Don't boat alone.
- Make sure someone on shore knows where you plan to put in, take out, and when you plan to return.
- If the water is in a stage you wouldn't choose to swim in, then don't launch your boat.

Boaters should also make a study of high-water hazards and be prepared to cope with dangers like:

- debris in the water
- capsizing in cold water and the possibility of hypothermia
- bridge abutments that catch debris and create swirling waves
- turbid, muddy water that makes other hazards difficult or impossible to see

Don't forget that high water can also cause damage and Fishing Access Site closures, and restrictions are likely as spring runoff continues. For updates on FAS closures, visit fwp.mt.gov and click Restrictions and Closures.

If in doubt, don't go! If you have any questions, please contact Sara Smith, Boating Education Coordinator for the Montana Fish, Wildlife & Parks Recreational Boating Safety Program, at 406-444-5280 or sarsmith@mt.gov.

Southwest Montana Veterans Home Update #98

By Mike Lawson

Greeting once again to you The Veterans/Counties/Communities of SW MT, who are the chief organizers and supporters of the SW MT Veteran's Home.

It's now springtime in the Rockies and here in Butte the days are getting warmer, the migratory birds, like the robins/bluebirds are starting to arrive. The buds on the trees/bushes/etc. are starting to appear and a tinge of green is appearing in our southern exposure areas. At the base of the East Ridge, of Butte's section of the Continental Divide, we see the two new Veteran Facilities taking advantage of this better weather, construction wise. The new Veteran IBOC Medical Center has seen renewed activity starting last week. I talked with Wayne Paffhausen, the owner/contractor, to get an update on this facility. I mentioned before that the foundation footing walls were in, the dirt was filled/compacted in and outside of these walls, last fall. The plan to wait until spring when the ground thawed, seemed to make the most sense, according to Wayne. The ground thawed and the work of digging the trenches, for the sewer and water, is now taking place underneath where the flooring will be. Wayne said this should be done in April and then the cement floor can be poured. The framing will probably start toward the end of May. Hoffman Excavating is doing the dirt work. All the parking-lot will have the groundwork and graveling completed during this time period. The reasoning for this is that the carpenters will be able to utilize the use of a motorized construction lift to raise framed walls/etc.. These lifts can be driven with-in two feet of the structure walls. Everything will be framed on site with the completion date being this fall. Drive by and watch the progress.

The SW MT Veteran's Home is still waiting for CMS to do their certification which is to gain the Medicare and Medicaid certification in order to bill and meet federal regulations. Then the VA will inspect every Cottage when finished, which will allow 12 resident veterans to be admitted. The state can't get reimbursed by the VA until after the Cottage has successfully passed the VA recognition survey. These are all good accountability measures for the good and well being of our Resident Veterans. I again thank my update "go to guys" Mike Ascheman, John Kotka and now Wayne

Vet Home construction updates:

Community Center, Cottage #1 and now Cottage #2 are finished and turned over to the state. The State then authorized the operating contractor "Eduro" to staff/supply and operate in these buildings. Markovich Construction does come in to fix anything that might need fixing as per warranty.

Cottage #3: All the punch-list work is completed except for the touch-ups by the Painters. Once they're done, the Cleaners will come in and do the final cleaning. This Cottage is very close to being turned over to the state.

Cottage #4: The Painters are priming and painting colors throughout this Cottage. The North and East Wings are now painted out. The Dining Room/Living Room/Nurses Office/Den/Kitchen are pretty well primed out and ready for the colored painting. Plumbers continue tying in the Zone Valves. The Carpenters built window jams and cased out windows in the North Wing. They built door jams and are installing them this week in the North Wing resident rooms. In the East Wing Corridor they installed the hand-rails and picture-rails. They also installed the bathroom doors and casing on one side which will allow the Tilers to butt their tile against them. The Tilers are setting their tile on these East Wing bathroom walls.

Cottage #5: Sheet-Rockers continue hanging sheet-rock. Will hang sheet-rock in the resident rooms that have the seismograph T-Bar metal framework completely installed. The Tapers have all the fire taping completed. They're now taping all the butt-joints/horizontal-joints/inside-corners. This is in preparation for completing the 2nd/3rd/4th levels with the final 5th level skin coat application, followed by sanding. These walls have to end up being smooth and flat. The Plumbers continue to install their domestic water piping. The Electricians are installing the light-cans/wiring in the seismograph T-Bar ceiling frame work in the resident rooms. This has to happen before the Sheet-rockers can hang their ceiling sheet-rock.

Electrical Vault: The Tapers are finishing the final coats of mud which will then allow the painters to paint this small building to completion.

Receiving/Maintenance Building : The Fire Alarm System is being installed. This building isn't far from being turned over to the State.

Becker Landscaping: They're scheduled to be on site this week. They have a lot of work to do to make our Veteran Home grounds beautiful. They have a good reputation and I'm sure they'll do a great job.

The Legislature only have about a month left in this session and HB5 & HB14 are still alive. They're the Bills that have benefit, concerning the walkways and Cottage #6. Keeping our fingers crossed.

Another Veterans point of interest is concerning the Marine's Toys For Tots Campaign. The latest 2020 figures for Montana are that there were 188,000 toys distributed to 46,500 of our Montana children. That equates to 4% of Montana's population. In Montana we have 16 TFT Campaigns. In our 6 Counties we have one in Deer Lodge, Anaconda, Dillon and Butte. Butte's TFT Campaign covers the area from Whitehall to Virginia City, Harrison and Butte. We have point people in Harrison, Whitehall and Twin Bridges, who take applications and deliver the toys. We put in a lot of hours but knowing the kids have a great Christmas, makes it well worth it. All the Campaigns need volunteers, so next fall if any of you that want to give us a hand, it would be well appreciated.

Many, many of us have been vaccinated and the Covid cases are going down. The restrictions are being lifted and our gathering together, once again, is a good thing. Continue to use common sense safety measures, as we don't the numbers to go up again. Looking forward to the day that we can go into the SWMVH and visit our Resident Veterans there. Take care until next time.
