406 Designs & Goods by Tammi Myers

Presents an art show by Skylar Martinell

"Depth Beyond the Bold"

Join us for a night with the artist! May 28th 6-8 P.M.

At first glance, Skylar's abstracts simply seem to be hard edged geometry but upon closer inspection recognizable elements become apparent.

Tammi Myers, owner of 406 Designs and Goods was intrigued and now these beautiful canvases are displayed center stage among the other treasures in her shop. Come meet the artisans and makers of the 406.

The 19th annual White Hat Coalition Memorial Day Parade and 18th annual

Veterans Memorial Flag Raising and dedication of the new flag pole at the DVFD Pavillion ceremony will be held on Monday May 31st. 2021. The parade will stage at the high school on Center st. at 12 noon and begin at 12:30pm.

The dedication ceremony will begin approx. 1:00 pm at the Pavillion in Kiwanis Veterans Memorial Park.

Atlantic Street Renovation Project Forum

The community is invited to attend a community forum and Q/A session for the Atlantic Street Renovation Project on Wednesday, June 2, at 5:30 p.m. at the Lewis and Clark Room on the UMW campus.

UMW Director of Facilities, Michael (Embee) Brown, will be present to answer any questions you may have about the project. Attendees will gather at the Lewis and Clark Room and then participate in a guided walk through to learn more.

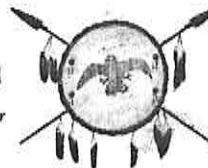

For more information about the project, please email michael.brown@umwestern.edu.

University of Montana Western Alumna Named Alaska Principal of the Year

The Alaska Association of Elementary School Principals has named Trailside Elementary School Principal, Heather Jones, as the National Distinguished Principal for 2021.

Jones was nominated and selected by her fellow principals through a statewide search process conducted by the Alaska Association of Elementary School Principals (AAESP).

Jones graduated from the University of Montana Western with a Bachelor's Degree in Education in 1998, and then completed both a Master's Degree in Teaching in 2003 and a Master's Degree in Administration in 2006 from Grand Canyon University. She began her administrative career as a principal at Eagle's View Elementary in Unalaska in 2007 and went on to be a principal in the Polson School District in Montana from 2010-2012, followed by principalships in Anchorage at Ocean View Elementary and Chinook Elementary from 2012-2019. She is currently completing her second year as principal at Trailside Elementary School.

Jones is a true and active leader in the profession. While in Montana, her school was named the Alta Care Western Program of the Year in 2010. She serves on the Alaska Association of Elementary School Principals Board of Directors. She has also represented principals in Anchorage on the negotiations committee. Jones has made numerous trips to Juneau to advocate for education in Alaska. She also mentors new principals both in Anchorage and around the state of Alaska. Her staff will tell you that one of the things that makes her leadership exemplary is the relationships she works to build and to nurture with staff, parents, students and the community. These relationships are what allows her school to be successful in supporting students' growth, both socially and academically.

"I have learned that the art of making any situation better requires taking the time to listen and following through with tasks. As a leader, having high expectations for myself and the school builds trusting relationships and assists in closing gaps between students," said Jones.

Jones will travel to Washington, D.C., in October 2021 for two days of activities planned to honor and recognize the elementary administrators selected by their respective states.

LIVE BAIT FISHING REGULATIONS VARY ACROSS THE STATE

With fishing season in full swing across Montana, anglers need to keep in mind some important regulations pertaining to live bait. Regulations differ across fishing districts; anglers should make sure to understand the regulations for the area and waterbody they are fishing.

For all districts — Western, Central and Eastern — the following regulations apply:

Live animals such as meal worms, red worms, night crawlers, leeches, maggots, crayfish, reptiles, amphibians and insects may be used as bait on all waters not restricted to artificial lures only.

Leeches may only be imported into Montana from FWP-approved leech dealers. Anglers who import leeches must have in their possession a receipt from the approved out-of-state leech dealer when fishing with leeches in Montana. A list of approved out-of-state leech dealers may be obtained from FWP by calling 406-452-6181.

Additionally, it's important to note live bait fish can't be imported into Montana, except by permit for use in Bighorn Lake and Afterbay Reservoir.

Also, all anglers should practice clean, drain, dry habits to protect Montana's waters from aquatic invasive species. Never release unwanted/unused bait fish into water; dispose of them in the trash. And, never transport surface water; live bait must be transferred to "well" water before transporting. For more information on protecting Montana's waterways, please see CleanDrainDryMT.com.

For complete live bait regulations please refer to the 2021 fishing regulations. Particularly pages 22, 51 and 78. For bait fish species identification, please see pages 94-95. It is up to the angler to know and follow Montana fishing regulations.

THE DILLON DOWNTOWN STREET DESIGN AND PLAN

The community is requesting the assistance of a qualified firm to develop a downtown street design and plan to create pedestrian improvements; improvements for the central business district and a corridor along Montana Street; and to expand upon a test project that was completed in 2017. This work will ensure that the community can grow while maintaining its unique character and creating an environment that will support economic development and small business growth. The Dillon Downtown Street Design and Plan should adopt a strategic planning process, including: analysis of existing opportunities and issues; direction setting (mission statements, vision and values, goals and objectives, etc.); alignment (determining our path); implementation and execution (layout an action plan for achieving the stated goals); and evaluation (regular check-ins, measuring performance and success, and course corrections).

MANAGING GRAZING DURING YEARS OF REDUCED PRECIPITATION

Bus departs the Fairgrounds at 8:00 AM to Hagenbarth Livestock

Hagenbarth Livestock: Hogsback: Jim Hagenbarth will discuss his research and implementation on how to manage grazing with reduced precipitation. The Beaverhead Valley loses .6 inches of precipitation each decade making it critical to find low moisture alternatives for grazing. Jim has worked with the Forage Range Research Lab in Logan, Utah, and determined that forage Kochia is the best option for a low moisture alternative supplement that will not harm native grasses but will provide high protein for fall and winter grazing. The tour will explore a 1000 acre plot of Forage Kochia at Hogsback and discuss how to manage prickly pear in dry regions.

As time allows we will have more speakers and one more stop but we will be back at the fairgrounds by noon.
