FWP keeps traps in Ovando area, more details released

After two days of searching by helicopter and on the ground, the grizzly bear that killed a woman Tuesday morning has not been found. Montana Fish, Wildlife & Parks bear specialists and wardens are continuing to monitor culvert traps set in the area.

The search even included the use of infrared technology from Two Bear Air Rescue out of Kalispell, but efforts to find the bear are now focusing on traps near Ovando.

Details surrounding the circumstances of the attack indicate the bear entered town Monday morning and came to an area near the post office at about 3 a.m., where the victim was sleeping in a tent. Another couple in her party were sleeping in a tent nearby.

The bear initially woke the campers but then ran away. The three campers removed food from their tents, secured it, and went back to bed.

The bear was captured by a video camera at a business less than a block away at about 3:15 a.m.

At about 3:30 a.m. the two people in the tent adjacent to the victim were awakened by sounds of the attack. They exited the tent and sprayed the bear with bear spray. It has not been seen since.

The bear pulled the victim from the tent during the fatal attack.

At some point during the night the bear also got into a chicken coop in town, killing and eating several chickens.

While the initial search for the bear was unsuccessful, FWP wardens and bear specialists will continue to monitor the area closely.

"At this point, our best chance for catching this bear will be culvert traps set in the area near the chicken coop where the bear killed and ate several chickens," said Randy

Arnold, FWP regional supervisor in Missoula.

FWP bear experts believe the bear was an approximately 400-pound male, judging by behavior and footprints. DNA from the bear was collected at the scene of the attack and will be analyzed. Should a bear be caught in a trap, DNA can quickly be compared to the DNA already collected to determine if it is the same animal.

Anyone who spots a grizzly bear near Ovando should call the FWP Missoula office at 542-5500.

Game Damage Hunt Roster online registration ends July 15

Hunters interested in participating in game damage hunt opportunities need to register online for the Hunt Roster by Thursday, July 15, through MyFWP. The roster is used by Fish, Wildlife & Parks to quickly respond to landowners who are eligible for game damage assistance in the prevention or reduction of property or crop damage primarily caused by deer, elk and/or antelope.

To register, hunters can log into their MyFWP account or click "look up draw results, register for lists" within the menu. Then select a preferred hunting district(s) for potential deer, elk and antelope damage hunts and submit. Hunters are asked to sign up for districts where they know the landscape and can respond quickly to game damage issues typically within 24 to 48 hours.

After registration closes, a randomly generated list will be created from the online registrations and will be posted to MyFWP accounts by July 20.

FWP will contact hunters if they are selected for a damage hunt opportunity via phone and/or email, so hunters are asked to ensure they have accurate contact information in their licensing profile. FWP may also utilize other means of hunter selection in lieu of the Hunt Roster, including first-come, first-served advertised opportunities, unsuccessful special license or permit applicant lists or lists of names supplied by landowners depending upon each damage situation. For more details on the FWP game damage assistance program visit: https://fwp.mt.gov/conservation/landowner-programs/game-damage-program.

MONTANA STATE PARKS AMERICORPS RECEIVES FUNDING THROUGH 2024

Montana State Parks received a $285,120.00 competitive AmeriCorps grant that will fully fund Montana State Parks AmeriCorps program through 2024.

Montana State Parks AmeriCorps (MSPA) promotes healthy, active and environmentally aware communities, connecting visitors with the spectacular natural, cultural and recreational resources of our Montana State Park system.

"We are delighted to receive funding from AmeriCorps for the MSPA program," said Beth Shumate, Montana State Parks Administrator. "Our MSPA members serve as frontline ambassadors, connecting the public and communities with places of stunning natural beauty, cultural significance and outstanding recreational opportunities."

MSPA members come from diverse backgrounds and increase the capacity of our park system by providing essential planning and visitor-related services such as education and interpretation programs, volunteer recruitment and management, community outreach and land improvement projects. They serve at state parks throughout Montana, from Makoshika State Park near the North Dakota border to Traveler's Rest State Park near Missoula, and from Bannack State Park in southwestern Montana to Lone Pine State Park near the Canadian border.

The MSPA program has had a significant impact since its inception in 2012. More than 120,000 youth and adults have attended MSPA park-related interpretation and education programs. AmeriCorps members have also improved than 3,800 acres of park land – an area equivalent in size to more than 2,800 football fields – removing noxious weeds, restoring historic structures and park infrastructure and planting native vegetation.
