Public Service Announcement Street Closure Downtown Surveying Project

The City of Dillon and WWC Engineering will be surveying Montana Street between Helena Street and Reeder Street, Thursday July 22nd, 2021 from 4:00 am to until the project is completed. The street needs to be clear of all cars so that an accurate survey can be completed. If you have a vehicle that is parked in this area during this time you will be notified immediately to move your vehicle.

We apologize for the inconvenience that this will cause the businesses along Montana Street. We will work as fast as we can to get the street open.

If you have any questions please contact Todd Hazelbaker, Director of Operations, at 683-4245.

*We will put more Dillonites at the Postoffice today
because of the Montana Street closure
so that you still have access.*

Closure area expands for fires near Wise River

Due to increased fire activity near the Big Hole River, the Bureau of Land Management expanded the area closure Tuesday.

The new closure order, updating the previous Fire Prevention Order signed July 12, takes effect immediately for all BLM-managed lands south of Montana Highway 43 along the Big Hole River from Harriet Lou Creek west toward Wisdom.

The three major fires burning in the popular recreation corridor—Alder Creek, Trail Creek, and Christensen—have been dampened with rain from recent storms, and firefighting teams are continuing to hold and improve containment lines and protect structures in the area.

As of yesterdays noon report, the Trail Creek Fire was at 23,875 acres; the Alder Creek Fire was 5,676 acres; and the Christensen Fire was 210 acres.

For the most current information, visit the fires' pages on InciWeb:

Trail Creek Fire: <https://inciweb.nwcg.gov/incident/7634/>
Alder Creek Fire: <https://inciweb.nwcg.gov/incident/7641/>
Christensen Fire: <https://inciweb.nwcg.gov/incident/7702/>

Caverns Friday Summer Speakers Series: 'Foragers Dilemma: For All Ages and Expertise'

Lewis & Clark Caverns State Park will host a free talk entitled 'Foragers Dilemma: For All Ages and Expertise' on Friday, July 23, at 8 p.m. in the park's campground amphitheater.

This talk will cover plant identification techniques to help beginners and experts alike distinguish between different plant species. The presentation will also discuss habitat and foraging ethics.

Whether it's foraging with a gun or a basket, speaker Sam Zeller will cover meat, vegetables, fruits and berries, as well as mushroom foraging. Wild edible plants can be a great way to augment your dietary intake with organic delicacy. Some of these treats are not found in most grocery stores, and the ones that can be are often healthier than store-bought varieties.

Fishing restrictions on several Montana rivers

Several angling restrictions on rivers in southwest, north-central and south-central Montana go into effect today due to warming temperatures and low flows.

The restrictions include what are commonly known as "hoot owl" restrictions, which means fishing is closed from 2 p.m. to midnight each day. Some waters are under full fishing closures, which prohibit fishing at all times of day. These closures and restrictions will stay in effect until conditions improve.

A full fishing closure for portions of the Big Hole River from the confluence with the Beaverhead River to Tony Schoonen Fishing Access Site.

A full fishing closure for portions of the Gallatin River from the mouth to Hwy 84 Crossing.

A full fishing closure for the entire Jefferson River.

Hoot owl restrictions for the entire reach of the Madison River from the mouth to the boundary with Yellowstone National Park.

Hoot owl restrictions for portions of the Beaverhead River from the mouth to State Highway 91 South.

CROWDFUNDING TRAINING

BY: Martin Butts, Small Potatoes Company

Wednesday July 28, 1-3pm

Link: <https://mtsbdc.ecenterdirect.com/events/5105>

This workshop is presented via Zoom at no cost thanks to Covid CARES Act funding. You do not need to be a client or active member to participate.

In the last 10+ years, crowdfunding has gone from a much maligned niche fundraising sector, to a roughly \$100 billion global behemoth. As funding has grown, entrepreneurs have been innovating ways to best maximize the power of crowdfunding. Some business owners need a single injection of capital to take on an expansion or upgrade, but others depend on the recurring payment model of crowdfunding on sites like Patreon.

In the last year and a half, businesses in every corner of the economy have been disrupted, forced to pivot, increase their health and safety protocols, invest in tech upgrades, and then some. As the economy moves back towards normalcy, there may be more upgrades in your future. If you need to take on a project outside of your budget, crowdfunding might be a way to bridge the gap. It can also build a deeper connection with you and your customers that may be feeling a little more than six feet apart.

This program will cover the basics of crowdfunding. How it works and why you should do it (or not). We'll introduce the different kinds of crowdfunding and crowdfunding platforms, as well as give an overview of the market, look at identifying your "crowd", and building a successful team. We'll look at lump sum and recurring payment crowdfunding, however this program will not cover equity crowdfunding. This program is a general overview of the topic suitable for potential funders of all experiences. We will focus on crowdfunding using the sites IndieGoGo, Kickstarter, and Patreon.

Martin Butts is a local food advocate, entrepreneur, speaker, and the founder of Small Potatoes, a boutique consulting firm. He specializes in working with independent food businesses, embracing as his life's mission to grow fair and sustainable food systems leading to healthier communities.

AIS watercraft inspectors celebrated, no station sponsorship

A Watercraft Inspector Appreciation Week is scheduled for Aug. 2-8. Watercraft inspection stations are the first line of defense to protect Montana's water from the harmful impacts of aquatic invasive species.

Inspectors are trained to examine a wide variety of motorized and non-motorized boats, some with complex internal systems and ballast tanks that need special consideration to inspect and decontaminate. They follow a check list to ensure all watercraft are free of invasive plants, animals and standing water. Inspectors work at more than 20 roadside watercraft inspection stations located across the state that are operated by FWP and partner organizations.

Southwest Montana Veterans Home and other Veteran Topics

By Mike Lawson

Greetings once again to you the Veterans/Counties/Communities who are the chief organizers and supporters of the SW MT Veteran's Home.

Smoke Smoke Smoke is what this part of Montana is all about. Those areas that are on fire in some of your counties, our thoughts and prayers go out to you. A big Hand Salute to all those fighting these fires. You folks in the Wise River Area, who have been evacuated, please let us in Butte know how we can help you, if you need it. My story is I went to Seattle last week, on Tuesday, and had smoke clear to the Cascade Mountains near Ellensburg, Wa., before it cleared up. Coming back on Saturday, it was clear, until I got too Spokane where it got progressively worst. Our areas in this part of SW MT are seeing ash coming down on us. Those of you with breathing problems, really need to stay inside as much as possible. A veteran friend of mine is really suffering from breaking issues and this smoke is making them much worst. Look in on each other, especially your loved ones who are living alone.

Our Veterans Home continues to move forward. Even though I was out of town, I received good feedback from Mike Ascherman, John Kotka and Eduro's Chief of Staff Chris Cotton. The VA re-inspection might be as far out as September. I think the reasoning behind this is Cottage #4 & Cottage #5 will be completely finished and turned over to the state by then. The start-ups will have been completed, as well as the Medicare/Medicaid inspections, so it makes sense to have them all done at once. This will make it easier for Eduro to fully staff these Cottages and also do a full admission of 12 Veteran Residents in each one. As I find out more, I'll let you know in future updates. Cris Cotton said Our Resident Veterans in our SW MT VET Home are doing very well and have been involved in some great activities.

Vet Home Construction Updates:

The Community Center. Maintenance/Receiving Building, Electrical Vault, Cottages #1/#2/#3 have been completed and are under the control of the Operations Contractor Eduro.

Cottage #4: This Cottage is "construction complete" with the cleaning contractor doing a deep cleaning. The start-up crew will

be doing the start-up this week or next to make sure everything is operating as it should and make adjustments as needed. This is a critical step and happens before it can be inspected. The 360 Office Supply are scheduled to get all the furniture placed in the Resident Rooms. The cabinets have been installed throughout the building. This Cottage is very close to being turned over to the state.

Cottage #5: The painting is close to being done, other than a bit of touch-up. The Painters won't be back on the job until August 2nd due to other job commitments. All the resident bathroom floors are tiled and the wall tile is continuing. The Carpenters are continuing to trim out the windows and the resident room entry doors. This Cottage is really coming along.

The new Veteran CBOC, being built by Wayne Paffhausen Construction, continues to move forward and is going to be a very attractive building. The low slope roof down the inside of the upper walls, was completed. On the outside there will be about a 3-4 ft section of decorative metal siding, from the top of this wall down. This will meet the awning that will surround the building above the windows. There will be a stone siding from the ground up to about 3ft to 4 ft. Another type of siding will be between this and the bottom of the awning. I'm anxious to see the outside completed. The plumbers got their worked completed until the sheetrockers gets done. The Electricians are doing some wiring. The Carpenters are busy putting in backing on the interior walls as well as working on the outside siding preparation. Hoffman Excavating is scheduled to put in sidewalks in the next week or so. This site is really going to look nice.

Any veteran news that any of you may have, that you could share, please sent it my way at lawsonml@mac.com. Our Veteran Funerals from the Covid-19 year Veteran deaths, continue to be a busy time for our Veteran Honor Guard Details. It's an Honor, for those of us who do these, to be part of this as we know one day we'll be the one's being buried. All veterans are entitled to this ceremony, it's just a matter of asking the funeral director. Any Veterans needing rides to their VA Medical Appointments are but a phone call away, if they call their DAV local Area Coordinators. I'll go for now. Take care until next time.
