Beaverhead Search and Rescue News

Submitted By Mel Rice: Public Relations Officer

At 10:00 AM, July 29th, the Beaverhead Search and Rescue received a page to rescue a 69 year old male from Butte who had rolled his 4 wheeler while riding with companions on the Cherry Creek trail west of Melrose. The individual was attempting to ride his 4 wheeler up a steep slope off trail when the machines front tire hit a rock and reared over backwards on top of him. As soon as the accident happened and the party was aware of severe injuries, a SPOT was activated and the 911 call came into the Sheriff's office. At that time the page was sent out to activate the S&R. The SPOT provided an exact location of the incident.

A hasty team of Tommy Goins and Emergency Room Doctor and member, Mike Clark, were deployed to the victim's location at 10:36 a.m. The team was able to drive their jeep to within 30 feet of the injured individual. Dr. Clark completed a field medical evaluation of the patient. It was determined there was a possible broken hip/leg as well as other trauma to the leg. After stabilizing the patient he was placed on the full-body evac-splint and secured in place which improved his discomfort. He was carried down the steep section of road and placed in the shade with blankets covering him.

Soon thereafter the ambulance arrived down country from the victim's location. But there was no way to bring the ambulance to the patient. By now hasty team #2, made up of Tara Remely, Mark Smith, and Graden Greenslade, had arrived with the side-by-side and E-Mule. The victim was placed on the E-Mule and was transported to the ambulance about a mile down country where his care was transferred to the Beaverhead Ambulance personnel. It was finally determined the injured individual had sustained a fracture of the left upper leg and hematoma to the left ankle.

Point of interest: the E-Mule is a large game cart with a center wheel that has an electric motor. The cart itself is long enough to lay a horizontal individual in or set a litter on for transport. It is managed by two individuals walking, one at the head end and one at the backend. It has a throttle for the motor and a disc braking system.

Other members of the organization participating in the rescue were Lawrence Morrisroe, Trent Cottom, and Jason Ericksen. These individual made up the incident command and managed the entire rescue from the Search and Rescue building. The total time involved on the incident was 4 hours and 8 minutes which equates to 33+ man hours. Beaverheard Search and Rescue would like to remind everyone to be extremely safe when adventuring out into our great play ground. If you are one that enjoys going out into the great outdoors, it would be very advantageous for you to get a SPOT. It just might be the one piece of equipment that saves your life.

"In The Business of Saving Lives", your Beaverhead Search and Rescue.

Growing Number of COVID-19 Cases and Circulation of the Delta Variant Prompts

Call to the Public to Get Vaccinated Sooner Rather Than Later

Barrett Hospital & HealthCare urges all unvaccinated residents 12 years and older to get vaccinated as soon as possible. The COVID-19 Delta variant is rapidly spreading across Montana with cases already reported in Beaverhead County.

"The COVID-19 Delta variant is spreading rapidly across the country accounting for about 80% of the new COVID infections. The areas with the most Delta variant cases are those with lower vaccine rates. Medical studies show that people who have completed the two dose vaccine series from Moderna or Pfizer, have about 88-90% effectiveness against the new Delta strain. A more staggering medical study shows that 99.5% of the deaths from the new Delta strain are in unvaccinated people. I would urge those who have not yet been vaccinated to reconsider and get vaccinated. The vaccine will not only protect you but will also protect your loved ones and our community," said Dr. Greg Moore, Chief Medical Officer, Barrett Hospital & HealthCare.

Barrett Hospital & HealthCare and local public health officials are very concerned of community transmission, especially among unvaccinated people. In part, this is due to the widespread COVID-19 Delta variant, which is substantially more transmissible than previous forms of the COVID-19 virus.

Vaccines remain the most powerful tool in the fight against COVID-19, including the Delta variant. Getting vaccinated against COVID-19 helps prevents severe illness, hospitalization, and death; it also helps reduce the spread of the virus in communities. For more information on how to get a free vaccine, visit: www.facebook.com/Beaverhead-County-Public-Health-Department-103596501206480

Getting Silly Socks to Seniors

Elle Gianelli is a 14 year old from California that is obsessed with silly socks. She wears them everywhere and considers them her superpower. She says they put a smile on her face and hopes that she can spread those smiles and wants people to know they are thought of and that would give comport to some one if they feel alone.

Ellie picks one facility in each state and she chose Pioneer Care and Rehabilitation and sent socks. Pioneer Care gave residents the socks and held a sock hop and a little YMCA dance as well on August 6.

Elle says if you want to write or would like a friend, you can write to PO Box #31, Lodi, CA 95241 or socks4seniors@gmail.com

If you would like to pay it forward and see that she achieves her goal, you can become penpals and get socks to seniors across all 50 states. You can Venmo @ Socks4Seniors GoFundMe https://www.gofundme.com/helpsocks4seniros.

ROTARY CLUB OF DILLON SPEAKER

Tom Welch, State Representative for District 72, will speak to Rotarians and guests at noon Wednesday, August 11, 2021. He will provide an overview of where the state stands from a legislative and fiscal perspective. Visitors are welcome.

Anyone interested in learning more about Rotary should come at noon to be a guest for lunch. The Club meets in the Guild Hall of St. James Episcopal Church, 203 East Glendale St. For more information, email John O'Brien at john@highpeaksfcu.com or Tina Giem at tgiem@barretthospital.org.

All BLM lands around Garnet Ghost Town re-open after wildfire contained

All Bureau of Land Management lands surrounding Garnet Ghost Town are once again open to the public now that the Anderson Hill Fire has been successfully contained.

Missoula BLM Field Manager Erin Carey rescinded the previous fire prevention order which had closed Garnet and the routes leading to it after the Anderson Hill Fire bloomed to life July 15. The fire eventually burned a total of 750 acres and was fully contained by July 30.

"The BLM appreciates the public's flexibility and cooperation with the closure order," Carey said. "We're also grateful for the hard work of the Montana DNRC and the many firefighters who responded to this incident."

The Anderson Hill Fire burned to within a mile of the ghost town, but none of the historic structures were damaged.

Though the fire has been contained, the public is urged to exercise caution when traveling in the area and visiting the ghost town as hotspots and hazardous trees remain a concern.

Southwest Montana Community Health Center

National Community Health Center Week

August 8-14, 2021

National Health Center Week (NHCW) is an annual celebration focusing on the mission of the health center movement and the achievements made by community health centers in America.

Monday, August 9th – Healthcare for the Homeless Day

The clinic's Healthcare for the Homeless program provides medical and supportive services for people experiencing homelessness in our area.

Tuesday, August 10th – Agricultural Worker Health Day

Community Health Centers serve approximately 20% of the estimated 4.5 million Agricultural Workers in the United States. Migrant/Agricultural Worker Health Center grantees are critical to ensuring access to quality primary and preventive care for patients who might otherwise go without care.

SWMT Community Health BBQ 11am – 1pm

41 Barrett St.

Schools Supplies and Dental Giveaways

Wednesday, August 11th – Patient Appreciation Day/Children's Health Day

Today, we celebrate our patients and promote health care for our children in the community. More than 8 million children in the United States get their primary health care from a Community Health Center.

Schools Supplies and Dental Giveaways

Thursday, August 12th – Stakeholder Appreciation Day

Health centers have a proud tradition of support from both sides of the political aisle. Bipartisan support continues to be beneficial for advocacy and policy priorities. Legislative support on both sides is not limited to federal level, state and local support for health centers are also integral to their success.

Friday, August 13th – Health Center Staff Appreciation Day

The incredible value Community Health Centers bring to their patients and community is because of the diligent work of health center staff and volunteers – individuals who are committed to providing high quality care to patients in need.

Letter to the Editor

Holy Dog!

Political liberals and conservatives of all strips and persuasions are uniting for this cause: Opposing U.S. government-funded torture of dogs and other animals.

In 2018, the liberal publication Intercept covered the U.S. government history of funding dog torture, which begins: "Americans frequently express horror at festivals in countries such as China and South Korea where dogs are killed, cooked, and eaten. Mainstream media outlets in the U.S. routinely report, with a tone of disgust, on the use of dogs in those countries for food consumption.

But in the U.S. itself, corporations and academic institutions exploit dogs (as well as cats and rabbits) for excruciating experiments that are completely trivial, even useless, and are just as abusive as the practices in Asia that have produced so much moral indignation in the West. These dogs are frequently bred into life for the sole purpose of being laboratory objects, and spend their entire, often short, existence locked in a small cage, subjected to procedures that impose extreme pain and suffering."

More can be found here: Inside the Barbaric U.S. Industry of Dog Experimentation (theintercept.com).

This week the conservative publication Daily Caller covered the $400,000 dog-torture project at the University of Georgia, which begins: "The National Institute of Allergy and Infectious Diseases (NIAID), under the leadership of Dr. Anthony Fauci, is granting taxpayer funds for abusive animal experimentation, according to documents unearthed by a government watchdog group.

NIAID directed $424,455 to researchers at the University of Georgia in September 2020 to infect dozens of beagles with disease-causing parasites in order to test an experimental drug on them, according to documents obtained by White Coat Waste Project (WCW) and reviewed by the Daily Caller. According to an NIAID task order form released via a Freedom Of Information Act request, the 28 beagles were to be allowed to develop infections for three months before being euthanized for blood collection."

More can be found here: Fauci-Led Agency Funded

Abusive Animal Experiments Promising To Kill Dozens Of Beagles | The Daily Caller.

So, whether in our places of Sunday worship or Saturday fun-runs or other summer events, we should all consider what to do about this horrendous and ungodly human torture of dogs and other animals.

"How did you treat all animals?" may be the first question posed to enter Heaven!

Randy Piper, Ph.D., M.B.A.
Dillon

FRONTIER CONFERENCE RETURN TO PLAY 2021-2022 POLICY

Frontier Conference Commissioner Kent Paulson announced that the league is committed to return to action in all conference fall sports.

"In what we call our New Normal," Paulson said. "Our league's health professionals, athletic trainers, athletic directors, with the support of our institutions's chancellors and presidents, have drafted guidelines outlining the lingering issues of Covid-19 and the Delta Variant. These guidelines were established to keep our coaches, student-athletes, staff and spectators safe as the Frontier returns to the field and floor of play in 2021-2022."

The guidelines attempt to individualize rather than standardize as Frontier Conference members concentrate on identifying and treating the symptomatic student-athlete ensuring the safety of those affected as well as their teammates.

"We ask all fans to take every precaution in helping to make the competitive environment as safe as it can be so as to not put neither the home team or visitors in health danger," Paulson said. "We look forward to seeing all of our students and fans back in the stands as we return to athletic competitions in a healthy and safe environment."

Frontier Conference officials strongly encourage the league's student-athletes, staff and fans to become fully vaccinated to help slow these viruses.

Minerals Technologies Inc. (MTI)

is a resource- and technology-based company that develops, produces and markets worldwide a broad range of specialty mineral, mineral-based and synthetic mineral products and related systems and services. The Company has three reportable segments: Specialty Minerals, Performance Materials, and Refractories.

We have an opportunity for a Mill Production Technician in our Barretts Specialty Minerals Plant located in Dillon, MT.

The Production Operator, under minimal supervision, is responsible for producing and packaging product for customers ensuring the utmost quality.
The position includes, but is not limited to:
Operate and monitor semi-bulk and 50 lb. packaging centers, coated system, pelletized system, mill feed systems; equipment operation including fork-lift, skid-steer, sweeper, and loader; load box vans, flatbed trucks, and box railcars; complete pre-shift inspections; operate and input data into computer systems including Think and Do, Oracle, and PI; collect, analyze, and record In-Process and Final Product samples; enter data, create, and generate Certificate of Analysis; operate and monitor milling systems including roller mills, ACM mills, impact mills, and jet mills; operate and monitor a flotation plant including the ball mill, flotation circuit, thickeners, and filter presses; trouble shooting all aspects of the Production process; and participation in Operational Excellence including but not limited to 5S, TPM, Standard Work, Visual Work Systems, and Lean Principals; performing all tasks in a safe manner; maintaining equipment as required and maintaining an organized workplace.

Qualifications include a High School Diploma/GED with a strong preference for those with industrial production experience in a lean manufacturing environment. Must have ability to work the shift/number of hours in which duties need to be accomplished, including overtime, holidays and weekends, as necessary. Must be able to work in a production environment with dusty conditions. The incumbent will work in a team-based environment to achieve production goals.

We offer competitive pay & benefits package (Life, Health/Dental/Vision insurance) and much more.

Email resumes to MTICareers@mineralstech.com. Must include the subject line Production Tech, Barretts. Fax Resume to 610-882-1385. EOE – Only candidates under consideration will be contacted. 8/28 PD
