DCI Provides Statement on Missoula Officer-Involved Shooting

Bryan Lockerby, Montana Department of Justice (DOJ) Division of Criminal Investigation (DCI) administrator, provided the following statement today regarding the officer-involved shooting that occurred on Thursday, Aug. 12 in Missoula:

Following our field investigation, which included initial interviews, crime scene assessment, ballistic analysis, and video review, the unfortunate and tragic event that occurred the early morning of Thursday, August 12th, strongly indicates that the driver involved in the Missoula Police Department pursuit, died by suicide when the chase ended.

This was a critical incident that occurred in the middle of the night, and included a high speed, high stress, vehicle pursuit through the community of Missoula, placing a number of citizens at risk. The chase was ended by a successful PIT (pursuit intervention technique) maneuver that stopped the vehicle at the intersection of Stephens and Florence. The officer reported seeing the driver, still seated, raising up a handgun, coinciding with the officer bringing his duty weapon towards the threat.

The subsequent series of events took place in a matter of seconds, almost simultaneously, as the driver's gun discharged in the car. At the same time, the officer perceived that he was being shot at, and returned fire with one shot. From our initial assessment, which is corroborated by dash-cam video, Brendon Galbreath died of a self-inflicted gunshot wound that night. The shot fired by the officer struck Brendon's car and was recovered at the scene. It did not strike Brendon.

I must stress that this is only our initial assessment, and the investigation is far from complete. Critical incidents always require great scrutiny and methodical investigation, which means they take considerable time to complete. There are witnesses to interview, videos to assess (both dashcam and body cam), 911 recordings, crime scene reconstruction, autopsy results, toxicology reports, and a complete review of the entire timeline of events leading up to

this tragic night. This includes our agents obtaining background of Brendon Galbreath's actions and behaviors leading up to the incident.

This investigation is clearly going to take considerable time, so we urge patience. It's important that this be done right; we owe that to Brendon's family, the Missoula community, and to the Missoula Police Department who requested us to conduct an outside investigation for them.

We will provide no further statements at this time. Our agency makes no assumptions and draws no conclusions. We gather facts and produce a comprehensive investigative report. That final report will be submitted to the Missoula County attorney for review and will likely follow the coroner's inquest process. The evidence and information we gathered during this tragic event, will then be available as a matter of public record. In the meantime, the evidence is classified as criminal justice information and will not be released.

Fishing closures announced on portions of Big Hole River

Restrictions lifted elsewhere

Full fishing closures will go into effect on portions on the Big Hole River Aug. 17. Full fishing closures prohibit fishing at all times of day. These closures will stay in effect until conditions improve.

These closures go into effect, Tuesday, Aug. 17, at 12:01 a.m.:

- Dickie Bridge to North Fork Big Hole River.
- Tony Schoonen Fishing Access Site Maiden Rock Fishing Access Site.

"Hoot owl" restrictions currently in effect on several Montana rivers are expected to be lifted this week. Hoot owl restrictions means fishing is closed from 2 p.m. to midnight each day.

Montana Fish, Wildlife & Parks' drought policy provides for angling closures when flows drop below critical levels for fish, when water quality is diminished, or when maximum daily water temperatures reach at least 73 degrees for three consecutive days. Warm and dry conditions are expected to continue during the coming weeks.

Angling restrictions are implemented based on several considerations: stream flow, water temperatures, angling pressure and other angling restrictions in the area that may divert use to waterways where circumstances are increasing stress on the fishery.

When conditions are stressful for fish, disease outbreaks and fish kills are to be expected. The public should report any unusual sightings of dead or diseased fish to their local FWP office.

Under normal conditions, fish can fight off infections. However, under the stress of high temperatures and low flows, they are more susceptible to these diseases.

Anglers can help reduce stress for fish by following these practices when catching and releasing fish, though fish mortality may still occur:

- Fish during the coolest times of day, where permitted.
- Land the fish quickly.
- Keep the fish in water as much as possible.
- Remove the hook gently. Using artificial lures with single and barbless hooks can make hook removal faster and easier.
- Let the fish recover before releasing it.

Before you go fishing, please be aware of the conditions. Numerous other rivers in Montana are also under fishing restrictions. For a full list, visit FWP's website: <https://fwp.mt.gov/news/current-closures-restrictions>.

If you're looking for angling opportunities, many ponds, lakes and reservoirs in Montana provide good mid-summer angling options. For more information go online to fwp.mt.gov. Streams at higher elevations that don't experience higher temperatures are another good option.

THE ROTARY CLUB OF DILLON

Mick Stanisich and Jess Tews, Dillon Volunteer Fire Department, will speak to Rotarians and guests at noon Wednesday, August 18, 2021. They will provide information about fire safety. Visitors are welcome.

Anyone interested in learning more about Rotary should come at noon to be a guest for lunch. The Club meets in the Guild Hall of St. James Episcopal Church, 203 East Glendale St. For more information, email John O'Brien at john@highpeaksfcu.com or Tina Giem at tgiem@barretthospital.org.

Hoot owl' restrictions lifted on portions of some Montana rivers

Restrictions will be lifted on:

Missouri River from the Cascade boat ramp to Holter Dam (river mile 2,166.2 to 2,202.1)

Madison River from Ennis Dam to the border with Yellowstone National Park (river mile 40 to 131)

Stillwater River from the confluence with the Yellowstone River to Absaroka Fishing Access Site (river mile 0.0 to 13)

The hoot owl restriction on the lower Madison River from the confluence with the Missouri River to Ennis Dam (river mile 0.0 to 40) remains in place due to high water temperatures.

Hoot owl restrictions means fishing is closed from 2 p.m. to midnight each day.

Angling restrictions are implemented based on several considerations: stream flow, water temperatures, angling pressure and other angling restrictions in the area that may divert use to waterways where circumstances are increasing stress on the fishery.

Before you go fishing, please be aware of the conditions. Numerous other rivers in Montana are also under fishing restrictions. For a full list, visit FWP's website: <https://fwp.mt.gov/news/current-closures-restrictions>.

If you're looking for angling opportunities, many ponds, lakes and reservoirs in Montana provide good mid-summer angling options. For more information go online to fwp.mt.gov. Streams at higher elevations that don't experience higher temperatures are another good option.

Veteran's Corner Update #116

By Mike Lawson

Greetings to all of you who read my SW MT veteran update articles. I'm in Springfield, ILL at the National Marine Corps League Convention, this week. When this comes out, I'll be back home in Butte. This is called Lincoln Country, with the Abraham Lincoln Presidential Museum and Library located here. Lots of interesting history here as well as it being the Illinois State Capital. Any of our Veteran Organizations Conventions are uplifting and educational. There are a lot of concerns being talked about in ways of helping our young veterans getting out of the military. Helping them get a job as well as getting adjusted to civilian life, is a hard time for some of them to figure out. Scholarships, veterans befriending these young vets, being a mentor, etc. are things being talked about and hopefully implemented. Coming from all parts of our country, establishing new friendships, renewing old ones with Marines who have served and experienced similar Marine experiences, is a healing/uplifting experience. If you as a veteran have an opportunity to attend any of your Veteran Organization's Conventions, it's well worth the effort.

Southwest Montana Veterans Home:

Received some great information from SW MT VET Home Liaison Ashley Bair and Site Construction Superintendent Mike Aschman on the latest information concerning our Vet Home. There was a construction meeting this week with some projected inspection/completion dates for Cottage #4 & #5. Construction, being as it is, could affect these dates somewhat but hopefully not. Cottage #4 is projected to be completed next week and Cottage #5 by the end of September. The CMS and VA Inspections for both Cottages #4 & #5 are projected for October. The resident count has been 18 but on September 13 another Veteran was admitted and two more this week, which brings the number to 21. The projection is that Cottages #1/#2/#3 will be filled by the end of September. The Resident Veteran admitted number will then be 36. The light at the end of the completion tunnel is getting brighter and brighter.

Construction Updates:

The owner (the State) has taken possession of the Community Center, Maintenance Building, Cottages #1/#2/#3. Control of these building has been given to the Operation Contractor Eduro.

Cottage #4: FFE package installation is complete. Acoustical ceiling tile installation is completed. Electrical trim of switches/outlets/lights/etc. is completed. Mechanical systems installation/inspections completed. The fire suppression sprinklers/alarm

system inspection by the Fire Marshall is scheduled for the 23rd. The final cleaning will take place from the 17th to the 19th. This will be followed by a walk-through by Liaison Ashley Bair and some of the Eduro Staff, to see if anything needs to be changed or addressed.

Cottage #5: All the tile is completely installed. Carpenters continue on their trim-out. The Sheetmetal guys and Plumbers continue winding down on the HVAC System install and piping.

Becker Landscaping: This crew continue to rake out topsoil, plant scrubs/trees and running sprinkler systems east of the Community Center.

The CBOC VA Medical Center:

This building, if you haven't seen it, is getting more beautiful by the week. Wayne Paffhausen, the contractor, is doing a lot of coordination in working the different facets of construction happening on this job-site. He finally found a Stone Mason to install the stone on the bottom of the outside walls. This will start on September 1st. Getting material and getting it delivered has been challenging but so far, so good. Door Frames/Anderson Windows should be in and installed within the next week or so. The Brow Awning above all the windows is finished. Gutter trim will be installed on the awning for gutters to be installed on. The decorative metal siding above the Brow Awning is scheduled to be installed within two weeks. Sheetrock will start being hung in two weeks. Hoffman Excavating is installing curbing, parking lot entryways and will soon begin building sidewalk forms in preparation of pouring cement for the street sidewalk. This will be between Highland MT Drive and Olympia Way. Drive by and check it out.

Dillon Veterans:

American Legion #20 Beaverhead Inc. Post, has new veterans joining and are hoping to reach out and encourage more veterans to join. In doing this, the time for the Executive Board to meet has been changed from 10:00 to 19:00 August 25th. This will allow more veterans to attend and have a voice in planning "Post Activities". All veterans as well as Post Members are invited. Labor Day activities are in the planning stage. Dillon's Rodeo and all the activities going on with it, is a great time to be in Dillon. The Veterans there, have always had a part in the festivities. Check with the Post as to what part you a veteran, can have during this great weekend.

Well that will bring this writing to a close from this location in Springfield, where it has rained at some point, every day we've been here. Montana could use some of this weather, I'm sure. Until next time, take care.

When Sh*t Hits the Fan

it's Friday afternoon at 2:00 in the restaurant business. The hood fan goes out -- who do you call?

Well, so thankful we live in Dillon, Montana where everyone that is needed rushes in to help!

I guess it was the "Pillow Block" and the shaft needed repair, some electrical had to be fixed and the ball bearings! It's all about "ball bearings" these days -- everyone knows that!

Time is of the Essence (standard contract language), but thanks to **General Welding** (Gene Loder and Bill Mancoronal), **Kailey Services** (Bernard Kailey), **Abicus Electric** (Richard and Dani Reyes) and **Beaverhead Repair**, we should be up and running by Tuesday. Everyone pitched in at the last minute on a beautiful summer weekend. What luck!

Thank you all very much!

Minerals Technologies Inc. (MTI)

is a resource- and technology-based company that develops, produces and markets worldwide a broad range of specialty mineral, mineral-based and synthetic mineral products and related systems and services. The Company has three reportable segments: Specialty Minerals, Performance Materials, and Refractories.

We have an opportunity for a Mill Production Technician in our Barretts Specialty Minerals Plant located in Dillon, MT.

The Production Operator, under minimal supervision, is responsible for producing and packaging product for customers ensuring the utmost quality.

The position includes, but is not limited to:

Operate and monitor semi-bulk and 50 lb. packaging centers, coated system, pelletized system, mill feed systems; equipment operation including fork-lift, skid-steer, sweeper, and loader; load box vans, flatbed trucks, and box railcars; complete pre-shift inspections; operate and input data into computer systems including Think and Do, Oracle, and PI; collect, analyze, and record In-Process and Final Product samples; enter data, create, and generate Certificate of Analysis; operate and monitor milling systems including roller mills, ACM mills, impact mills, and jet mills; operate and monitor a flotation plant including the ball mill, flotation circuit, thickeners, and filter presses; trouble shooting all aspects of the Production process; and participation in Operational Excellence including but not limited to 5S, TPM, Standard Work, Visual Work Systems, and Lean Principles; performing all tasks in a safe manner; maintaining equipment as required and maintaining an organized workplace.

Qualifications include a High School Diploma/GED with a strong preference for those with industrial production experience in a lean manufacturing environment.

Must have ability to work the shift/number of hours in which duties need to be accomplished, including overtime, holidays and weekends, as necessary. Must be able to work in a production environment with dusty conditions. The incumbent will work in a team-based environment to achieve production goals.

We offer competitive pay & benefits package (Life, Health/Dental/Vision insurance) and much more.

Email resumes to MTIcareers@mineraltech.com. Must include the subject line Production Tech, Barretts. Fax Resume to 610-882-1385.

EOE - Only candidates under consideration will be contacted.
