Dillon Lions Club Annual Live Lobster Fundraiser

The Dillon Lions Club is again holding its annual spring sale of fresh, delicious Atlantic lobster! The money generated by this lobster sale is one of the primary sources the club uses to fund the many local community service projects it's involved with. As an example, the Dillon Lions Club provides vision screening for the students in every school in Beaverhead County, including each class of Youth Challenge Cadets. Another example would be the scholarship the club provides each year to a deserving Beaverhead County High School senior.

If you'd like to order one or more of these live Maine lobsters, please have your order form and payment to us by Monday, May 9 at the very latest. These order forms, with more detailed information including price, are available at the Vigilante Electric Cooperative Office near the Beaverhead County Courthouse and at Precision Eye Care and Optical at 25 Johnson Ave. Immediately north of Safeway. (They are also the pink insert in today's Dillonite.)

The approximately 1.5-pound lobsters are caught, cold packed, and flown out to arrive fresh on Saturday. And as many a club member working the sale can attest from experience, the lobsters arrive very much alive and very feisty!

You can pick up your live lobsters on Saturday, May 14 between 1:00 and 3:30 P.M. at the Vigilante Electric Cooperative parking lot across from the courthouse main entrance. And if you'd like, Lions Club members will even cook them there on the spot for you to take home at no extra charge!

IDAHO ST. WATER PROJECT

Jeremy Crawford

Southwestern Montana News

The Idaho St. water project yesterday hit a little bit of a snag as construction crews came upon a line that was not supposed to be there. Water began to bubble up from the ground as the crew was digging in for the new lines. The waterline they struck was not on any city plans. They shut off water on Idaho street from City Hall to Sweetwater Coffee. The repair time then was undetermined.

Stockman Bank Named One of the World's Best Banks for Forbes

Stockman Bank has been honored by Forbes on its list of the World's Best Banks for 2022.

"As Montana's largest family-owned, privately-held community bank, we are proud to be recognized for the outstanding service we provide to our customers and communities," said Bill Coffee, Stockman Bank CEO. "Our employees put our customers at the center of all we do. The people, businesses and communities of Montana are our only focus, backed by a commitment to local management and decision making. This award is particularly special as it reflects the trust our customers have put in us to meet their financial needs."

Forbes partnered with market research firm, Statista, to conduct surveys of more than 45,000 consumers across 27 different countries. Participants were asked to rate every bank at which they have/had a checking or savings account on overall recommendation and satisfaction, as well as rate the banks in five different criteria: Trust, Terms & Conditions, Customer Services, Digital Services, and Financial Advice. Forbes final 2022 list recognized the top 500 companies around the world.

Highly pathogenic avian influenza found in wild birds in Montana

Highly pathogenic avian influenza (HPAI) virus was detected in a snow goose from Canyon Ferry and a Canada goose from near Belgrade last week. HPAI was detected earlier this month in domestic poultry in Judith Basin and Cascade counties. Several more birds from around the state are currently undergoing testing for the virus.

Avian influenza (AI) virus is a naturally occurring virus in birds. AI viruses are classified into two groups, based on the severity of disease they cause in infected poultry. Low pathogenic AI viruses generally cause no clinical illness, or only minor symptoms in birds. HPAI viruses are extremely infectious and fatal to poultry and some species of wild birds.

Although the Centers for Disease Control and Prevention (CDC) considers risk of HPAI spread to humans to be very low, Montanans should take precautions when handling game birds or any sick or dead bird they find.

The public is encouraged to report unusual or unexplained cases of sickness and/or death of wild birds by calling their local wildlife biologist or the wildlife lab in Bozeman at 406-577-7880 or 406-577-7882.

Bird hunters and those who maintain bird feeders should follow these simple precautions when processing or handling wild game:

Cook game meat thoroughly to an internal temperature of at least 165°F.

Wild birds don't need supplemental feed this time of year. Taking feeders down prevents concentrations of birds that sometimes lead to disease transmission.

For more information on AI in wild birds, visit <https://fwp.mt.gov/conservation/diseases/avian-influenza>, or visit the USGS website at <https://www.usgs.gov/centers/nwhc/science/avian-influenza-surveillance>.
