Superior imaging means faster, more accurate diagnoses—to provide peace of mind, and detect issues sooner so that they're easier to treat and beat. At Barrett Hospital & HealthCare, our state-of-the-art imaging technology rivals the services at larger healthcare systems so you can access the diagnostics you need where it's closer for you and your family. 3D Mammography

Detects 20-65% more invasive breast cancers compared to 2D alone and is the only mammogram FDA approved as superior for women with dense breasts and clinically proven to reduce unnecessary callbacks by up to 40%.

CT or CAT scan

State-of-the-art diagnostics allows providers to view precise, detailed, 3D images of multiple areas in the body.

MRI

Wide bore scanner combines comfort with superior imaging capabilities. Providers receive clearer, more accurate images. And who says an MRI has to be uncomfortable? At Barrett, we have a large, dedicated scanning room on site to make it easier for our patients who suffer from claustrophobia.
