Four Bulldog Track & Field Athletes Earn NAIA Daktronics Scholar-Athlete Honors

The National Association of Intercollegiate Athletics (NAIA) released the 2023 Daktronics NAIA Men's and Women's Outdoor Track & Field Scholar-Athletes.

The 2023 list features 805 men and 1,076 women student-athletes that achieved at least a 3.5 cumulative grade point average (GPA) at their institution.

In order to be nominated by an institution's head coach or sports information director, a student-athlete must maintain a minimum grade point average of 3.5 on a 4.0 scale, must appear on the eligibility certificate for the sport and have attended one full year at said institution.

Montana Western saw four student-athletes earn NAIA Daktronics Academic Scholar-Athlete honors. Mason Baseley and Liz Varner were named from the Women's Track & Field team and Isaiah Powell and Luke Lutz were named from the Men's Track & Field team.

Letter to the Editor

My sisters and I went up to the cemetery on May 23, 2023 to clean our graves, the cemetery is a mess! No mowing or weed eating has been done. It's very sad to see. Dillon's cemetery has in the past always been well groomed and beautiful. It's very disconcerting to see it so unkempt and ugly this close to Memorial Day coming this weekend.

I pray the city gets it under control and helps get our cemetery back to its desired beauty.

Hunter and Bowhunter Education Advisory Committee to meet

The Hunter and Bowhunter Education Advisory Committee will meet at the University of Providence in Great Falls June 6 and 7.

Montana Fish, Wildlife & Parks Director Hank Worsech has convened the committee to look at improving the hunter and bowhunter education programs. This will be their first meeting. The committee will focus on strategies for recruiting new volunteer instructors, implementing field days for online students, and improving landowner relations and hunter ethics within the curriculum.

FWP solicited applications for the committee and chose 23 members representing all parts of the state. The group will review the manuals, online programs and field day outlines, and develop actionable recommendations for Worsech and the hunter/bowhunter education staff to implement.

Starting in 2024, FWP will require a field day for all hunter and bowhunter education students under 18, including those taking the course online.

For more information, contact Greg Lemon at 406-444-4038 or via email at glemon@mt.gov.

MEMORIAL DAY
LAST MONDAY IN MAY

VFW Auxiliary to Post 9040, Bill Carroll

Memorial Day is a day to honor the men & women who died while serving in America's Armed Forces. Originally called "Decoration Day," it originated after the Civil War to commemorate those who died in the war by decorating their graves. It was declared "Memorial Day" by federal law in 1967, by which time the remembrance had been extended to honor all Americans who died while serving in America's armed forces. Many people celebrate Memorial Day by visiting cemeteries & memorials; volunteers place flags on every grave in national cemeteries; preserve their service & sacrifice. All U.S. should be displayed at half-staff during morning hours. At noon, they should be raised back to full-staff.

Attorney General Knudsen Sues Avid Telecom Over Illegal Robocalls

Attorney General Knudsen and nearly 50 attorneys general from across the country filed a lawsuit against a Voice over Internet Protocol (VoIP) company that helped facilitate more than 20 million spam robocalls to Montana phone numbers between December 2018 and January 2023, he announced today. Many of the calls transmitted allegedly involved various types of scams.

The coalition filed the lawsuit yesterday against Michael D. Lansky, LLC, which does business under the name Avid Telecom, and company executives for allegedly initiating and facilitating billions of illegal robocalls to millions of people and violating the Telephone Consumer Protection Act, the Telemarketing Sales Rule, and other federal and state telemarketing and consumer laws. Avid Telecom sent or transmitted more than 7.5 billion calls to telephone numbers on the National Do Not Call Registry between December 2018 and January 2023. Up to 29.6 million of those calls were to numbers in Montana.

"Robocalls aren't just annoying — they are often the entry point for scammers who steal billions of dollars from consumers each year. What's worse, companies like Telecom are illegally helping them to do it," Attorney General Knudsen said. "Nobody should be able to profit from helping criminals rip off Montanans, and we will hold companies accountable in court for breaking the law. I was glad to be part of the launch of the Anti-Robocall Litigation Task Force last year, and my office will continue to keep the pressure on bad actors and hold them accountable."

Avid Telecom is a Voice over Internet Protocol (VoIP) service provider that sells data, phone numbers, dialing software, and/or expertise to help its customers make mass robocalls. It also serves as an intermediate provider and allegedly facilitated or helped route illegal robocalls across the country. Between December 2018 and January 2023, Avid sent or attempted to transmit more than 24.5 billion calls. More than 90 percent of those calls lasted less than just 15 seconds, which indicates they were likely robocalls. Further, Avid helped make hundreds of millions of calls using spoofed or invalid caller ID numbers, including more than 8.4 million calls that appeared to be coming from government and law enforcement agencies, as well as private companies.

Avid Telecom allegedly sent or transmitted scam calls about Social Security Administration scams, Medicare scams, auto warranty scams,

Amazon scams, DirecTV scams, credit card interest rate reduction scams, and employment scams. Examples of some of these scam calls are available to listen to here and here.

The USTelecom-led Industry Traceback Group, which notifies providers about known and suspected illegal robocalls sent across their networks, sent at least 329 notifications to Avid Telecom that it was transmitting these calls, but Avid Telecom continued to do so.

Yesterday's legal action arises from the nationwide Anti-Robocall Multistate Litigation Task Force of 51 bipartisan attorneys general. The task force is investigating and taking legal action against those responsible for routing significant volumes of illegal robocall traffic into and across the United States. The Federal Trade Commission and the Social Security Administration's Office of the Inspector General provided investigative assistance in this matter.
