MCH and UMW Present: "The Trail Forward" Conference and Film Festival Sep. 7-9

In partnership with the University of Montana Western and EQUUS International Film Festival, The Montana Center for Horsemanship (MCH) is proud to present "The Trail Forward in Horsemanship Education" to be held at the MCH in Dillon, Montana, September 7-9, 2023.

MONTANA CENTER for HORSEMANSHIP
presents

The annual conference is open to all interested in attending, including members of the public and students of all ages and will feature leading trainers, educators, equestrians, ranchers, clinicians, filmmakers, equine scientists, and researchers. The event will also feature horse and rider demonstrations, hands-on experiences with horses, compelling storytellers, and award winning equine films. To view the full schedule of events, please visit tinyurl.com/2p8dakdv.

In keeping with the MCH mission, a new film entry category has been added titled "Western Way of Life and Horsemanship," which reflects the traditions, culture, and lifestyle of the American West built around horses and horsemanship, ranching, and the agriculture industry.

Janet Rose, MCH Coordinator of the annual conference says, "the Western way of life is recognized around the world as a cultural icon, just as horses are an American icon. Horses helped to build our country and our Montana economy, and this conference and film festival highlights and celebrates this continuing legacy."

The Equine Studies Department at the University of Montana Western offers the nation's only Bachelor of Science degree in Natural Horsemanship with options in management, psychology, science and instruction, and was ranked among the "Best Equestrian Colleges" by ThoughtCo.com.

The Montana Center for Horsemanship is the first and only equine center in the United States that is devoted expressly to promoting 'Natural Horsemanship.' With its stables, arenas, riding areas, and instructors, the center serves as the primary facility and progressive teaching resource for Montana Western's Natural Horsemanship BS curriculum.

The MCH teaches the 'La Cense Method,' which was developed under William Kriegel, owner of Haras de la Cense in France. Mr. Kriegel is also co-founder of MCH, and he has been involved in Natural Horsemanship for many years. The La Cense Method is a progressive, step-by-step process that blends the best of traditional horsemanship training with the art of training and riding horses—all in a manner that works with a horse's behavior, instincts, and personality. Taking a positive and respectful approach, the La Cense Method gradually builds trust, and frees the horses to be confident in all they are asked to perform.

For more information, please contact the Montana Center for Horsemanship at 406-925-3270 or email janet.rose@williamkriegelfoundation.org. To register for the conference, please visit tinyurl.com/bdhubxht.

PALM TREES*By "Swede" Troedsson*

In 1994 I was assigned to a wild land fire near the Clearwater Junction, about 40 miles east of Missoula, MT. My assignment was to supervise the helicopter operations.

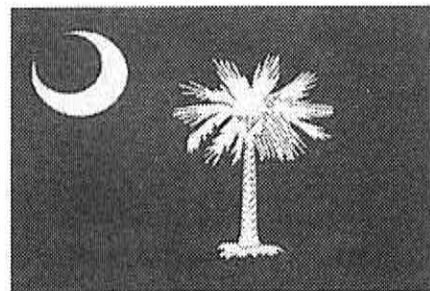

One of the helicopters on our fire was a Kaman helicopter. This is an efficient heavy lift helicopter that was being used in water bucket drop operations. Earlier models of this helicopter had an oblong fuselage, and two main rotors mounted side by side. It was fascinating to watch the intertwined blades rotating without contacting each other.

One day I was visiting with the pilot while he was shut down for fuel. He informed me that he had come in from a logging operation in South Carolina. Every morning while on the logging operation a local farmer would arrive, with his thumbs hooked into his bib overall suspenders, and stand nearby to watch the helicopter operate.

The farmer walked over to the pilot one morning while he was preparing for the day's operation and told the pilot that his helicopter reminded him of two palm trees* making love in a dumpster.

KAMAN HELICOPTER

*A palmetto tree is displayed on the South Carolina state flag: In 1776, during the Revolutionary war, on Sullivan's Island, South Carolina, troops defending a new fort used palmetto tree logs to successfully deflect cannon balls from the British fleet. The palmetto tree was added to the state flag in 1861.
