Carl Gaylord Staley

Feb 14, 1941 - May 18, 2024

With profound sadness and heavy hearts, we announce the passing of Carl Staley, who left us on May 18, 2024, in the comforting presence of his beloved wife, Diana.

Born in the rustic settings of Mud Lake, Idaho, Carl's early years were marked by a spirited upbringing before he set roots in Dillon, Montana, a place he cherished deeply throughout his adult life.

Carl was the treasured son of Roy and Mildred Staley, raised alongside his siblings Tony (Marie), Bill, Ward, Mary, and Betsy-whom is the last to survive him. His marriage to Diana in 1968 blossomed into 56 years of unwavering companionship, during which they nurtured a family-centered home, celebrating each birthday, holiday, and new family member with immense joy and togetherness.

A veritable jack of all trades, Carl's adept hands fixed anything that broke, embodying a resourceful and hardworking spirit. After serving his country with pride in the Army, Carl embraced the rugged life of a true Montana cowboy, often fondly reminiscing about his days in Horse Prairie. He later owned a carpentry business and shared many years on the road as a long-distance truck driver with his brother, Tony.

Devout in his Christian faith, Carl was also a skilled artist and a keen political observer, often found engrossed in discussions or watching his favorite channel, Fox News, into the late hours of the evening.

His legacy as a loving father and grandfather extends to his children—Cindy (Randy), Dan, Brad (Deanna), Adam, Elaina (Rob), Eric (Kaity), Tammy, and Carla—and to his 16 grandchildren and 3 great-grandchildren, who saw in him a jokester but also a pillar of strength and love.

A celebration of Carl's life will be held at a later date to honor the indelible mark he left on all who knew him, ensuring that his memory and spirit continue to resonate deeply within our hearts.

Meadows, where they lived alongside Uncle "Dill," Aunt Janet, and Cousin "Gus" on the family ranch. It was here that Ruthie developed her passion for outdoor work, her love for animals, and her joy in being surrounded by loved ones.

In 1969, Ruthie completed her studies at Flathead High School and continued her education at Western Montana College in Dillon. It was there that she met the love of her life, E. Ray Barnes. Ray and Ruthie exchanged wedding vows on June 3, 1972. Two years later, they celebrated the birth of their first son, Jason Frank, followed by the arrival of their second son, Tyler Earl in 1977 completing their family.

After grappling with Lupus for numerous years, Ruthie's son Tyler selflessly donated one of his kidneys to his Mom on November 20, 1996. Initially projected to endure about eight years, her kidney defied expectations, much to the surprise of the doctors who underestimated her resilience.

In 2011, Ruthie retired from Dillon Public Schools after 25 years of providing daily lunches for children. This retirement allowed her to spend the winter months in California with Ray and Beaverhead Honey Company. They continued this routine until selling Beaverhead Honey in 2016, which marked their official retirement and the beginning of their grandchild-chasing adventures. Since then, they have traveled extensively, from Spokane, Washington, to Mitchell, South Dakota, and from Pocatello, Idaho, to Havre, Montana and everywhere in between. Attending a wide range of their grandchildren's activities, including graduations, 4-H, wrestling, soccer, football, softball, track, volleyball, cross country, and baseball.

Ruthie enjoyed being outside in the yard. She took pride in her garden, lawn and flowers. She was passionate about traveling, camping, and any interest her kids or grandchildren had. She loved the outdoors, sunshine, heat and cherished spending her summers camping and fishing at Selway Creek, Kitty Creek, the East Fork of the Blacktail, and Clark Canyon Reservoir. She will be greatly missed by so many, as she worked hard to get family and friends to spend time together and she was the organizer of

Letter to the Editor

I will be 102 years old in June. I have seen many elections come and go. In fact, I have voted in every election since I became eligible to vote. I intend to vote in this upcoming election. I will be voting for Shannon Maness for Montana House District 70 and I urge you to do the same. I feel he is an excellent candidate and will represent the people and values of HD 70 very well.

Please, get out and vote. Your vote is important.
Thank you.

Major Road Improvements Ongoing in Delmoe Lake Area

The Beaverhead-Deerlodge National Forest is currently performing a large road improvement project, funded by the Great American Outdoors Act (GAOA). \ The project includes Delmoe Lake Road, Delmoe Campground Road, and Highland Road in the Butte Ranger District.

The work includes aggregate placement, roadside brushing, culvert replacements, and improving drainage features, which will improve road conditions and increase comfort to the travelling public.

Access to Delmoe Lake will be maintained from either Homestake Pass or the Pipestone side of NFSR #222.

Forest road users should expect delays and/or temporary closures along these routes. Please obey all traffic control features and signs, and exercise caution in construction zones, particularly around equipment, haul trucks, and workers.

This project is funded by the Legacy Restoration Fund (LRF) established by the 2020 Great American Outdoors Act. The LRF is intended to respond to the growing backlog of deferred maintenance, which is currently $7.66 billion, comprised of $4.7 billion for roads and bridges, $540 million for trails and trail bridges, and $2.4 billion for buildings, visitor centers, campgrounds, and other types of facilities.

The contract for the project has been awarded to Cook and Sons Construction out of Grangeville, Idaho. Construction will be ongoing throughout the summer.

For more information, updates, and the latest on road conditions, please contact the Butte Ranger District at (406) 494-2147.

Learn the stroke warning signs

F.A.S.T.

Face Drooping	Arm Weakness	Speech Difficulty	Time to Call 911

Every 40 seconds, someone in the U.S. has a stroke.

It could happen on your street, in your workplace, at a store where you shop — anywhere. Your readiness to spot the stroke warning signs and call 911 could save a life or make the difference between a full recovery and long-term disability. That's why it's so important to learn the stroke warning signs and urge everyone you know to do the same.

The faster stroke is treated, the more likely the patient is to recover.

In fact, stroke patients who are treated with the clot-busting drug IV r-tPA Alteplase within 90 minutes of their first symptoms were almost three times more likely to recover with little or no disability.

In some cases, a procedure to remove the clot causing the stroke is also recommended. Nintey-one percent of stroke patients who were treated with a stent retriever within 150 minutes of first symptoms recovered with little or no disability.

The thing to remember is that stroke is largely treatable. It's a matter of getting the right treatment, right away.

Obten ayuda. Llama al 911.

Cada 40 segundos, alguien en los Estados Unidos sufre un ataque o derrame cerebral.

Podría suceder en la calle, tu lugar de trabajo, en la tienda o en cualquier otro lugar. Si estás listo para detectar los signos de advertencia y llamar al 911, puedes salvar una vida y marcar la diferencia entre una recuperación completa o una discapacidad a largo plazo. Por eso es tan importante que conozcas los signos de advertencia de los ataques o derrames cerebrales y animes a todos a hacer lo mismo.

Entre más rápido se trate el ataque o derrame cerebral, más posibilidad tiene el paciente de recuperarse.

De hecho, los pacientes con ataque o derrame cerebral que reciben tratamiento anticoagulante intravenoso rtPA con alteplase dentro de los primeros 90 minutos siguientes a la aparición de los síntomas tienen el triple de probabilidades de recuperarse sin discapacidad o con poca discapacidad.

En algunos casos también se recomienda utilizar un procedimiento para eliminar el coágulo que causó el ataque o derrame cerebral. El 91% de los pacientes que tuvieron un ataque o derrame cerebral y recibieron tratamiento con un recuperador de stent dentro de los 150 minutos siguientes a la aparición de los síntomas se recuperaron sin discapacidad o con poca discapacidad.

Lo que hay que recordar es que el ataque o derrame cerebral suele poder tratarse en la mayoría de los casos. Solo es cuestión de recibir el tratamiento adecuado de inmediato.
