Linda Kathryn Johnson

Linda Kathryn Johnson passed away on July 10, 2024, at the age of 76 after a long battle with dementia. Linda was born January 10, 1948, in Exeter, California to Garley Edward and Francis Jean Houghton Doty. She was the youngest of three daughters and often told stories of growing up in CA, attending summer camp and getting into mischief. Linda moved to Montana in 1965 where she met and married Darrell V. Johnson.

Darrell and Linda raised their daughters in Dillon and shared with them their love of the outdoors, spending many weekends camping, fishing, and hiking in southwest Montana.

Linda was a true artist. She loved oil painting and sold many of her paintings to admirers about town. She was an amazing seamstress, sewing clothes, blankets, and later sewing in the upholstery business Darrell and Linda owned with daughter Teresa.

During her lifetime Linda worked at several local businesses including Dr. Okimoto's chiropractic clinic (the first in Dillon), Beaverhead Bar Supply, Paul's Motor Company, and the animal shelter.

Linda is preceded in death by her husband Darrell, her sister Marilyn Durrant, and both her parents.

She is survived by daughters Teresa Guinnane (Greg) and Sharon Sawyer (Tracy), grandchildren Kaitlyn Ford (Tyler), Tessa Sawyer (Isaak Koslosky), Turner Sawyer and great grand-daughter Henley Ford.

Because of Linda's long and difficult journey with dementia we didn't feel it appropriate to celebrate the life of our dad after his passing in late 2022. It seems fitting now they are both at peace to have a gathering for family and friends. More information will be shared through local media as details are planned.

The family would like to give special thanks to Amanda and her staff at Renaissance (southside), Honeybee Hospice, and Dr. Smith.

**Dillon Cubs Struggle With Back To Back Defeats,
Totaling Six Consecutive Losses**

Wednesday July 10th the Dillon Cubs played back-to-back home games against the Bozeman Bucks at Ray Lynch Park. Hoping to come out of the losing streak the Cubs have been on, they took to the Field under the hot 90-degree summer sun hoping to collect a win and break the streak.

The Cubs would lose game 1 final score of 8 to 9 and drop game 2 with a final score of 5 to 8.

Full recap and gallery below:

Game 1

The Cubs would take the lead in the bottom of the second inning when Tristan Alvarez doubled, scoring two runs, to give the Cubs a 2 to 1 lead.

The Bucks would come back in the top of the third when Brayden Shaw hit a grand slam to left field, to give the Bucks a 5 to 2 lead.

The Cubs would make a run for it in the bottom of the sixth scoring six runs and bringing the game within one run. The Cubs would end up losing 8 to 9.

Tristan Alvarez, the Cubs number eight hitter, led the team with two hits in three-at-bats. The Cubs did not commit a single error in the game. Kanin Englehardt had the most plays at five. Kale Konen drove in four runners and went 1-4 for the day.

Game 2

The Cubs would accumulate ten hits in the game. Marcus Lagunas, leading the Cubs with three runs batted in. The infielder went 1-for-4 for the day. Damon Skradski collected two hits for the Cubs in four-at-bats.

Cohen Hartman collected three hits in three at bats, doubling in the third inning, doubled in the fifth, and singled in the first inning.

The Cubs will play their final home game on Saturday, July 13th.

Things you need to know:

- Heat illness can strike quickly. Stop working, get cool, and drink fluids.
- When treating severe heat illness, cooling is the first priority.
- Altered mental state can be a sign of heat stroke and requires immediate attention.
- Muscle cramps, pain, or spasms in the abdomen, arms, or legs—alone or with any symptom—should not be ignored.
- Never leave a worker with heat illness alone.

HEAT STRESS

First Aid for Heat Illness

Cooling is key. Know the symptoms and treatment of heat illness.*

Symptoms can occur in any order. You don't need to have all of the symptoms in a category to have heat illness.

Signs and Symptoms

What to Do

Heat Rash/ Prickly Heat

- Red cluster of pimples or small blisters, usually on neck, upper chest, groin, under breasts, and in elbow creases
- Extensive areas of skin that do not sweat on heat exposure, but present a gooseflesh appearance that subsides with cool environments

- When possible, a cooler, less humid work environment is the best treatment
- Keep rash area dry
- Do not use ointments or creams, as they may impair cooling—warm, moist skin can make the rash worse

Heat Cramps

- Muscle cramps, pain, or spasms in the abdomen, arms, or legs

- Drink fluids every 15 to 20 minutes and eat a snack or sports drink
- Avoid salt tablets, but drinks containing electrolytes are OK
- Get medical help if the worker has heart problems, is on a low sodium diet, or if cramps do not subside within 1 hour

Heat Syncope (Fainting)

- Fainting, dizziness, or light-headedness after standing or suddenly rising from a sitting/lying position

- Sit or lie down in a cool place when beginning to feel faint or dizzy
- Slowly drink water or clear juice

Heat Exhaustion

- Headache
- Nausea
- Dizziness, weakness
- Irritability
- Thirst, heavy sweating
- Elevated body temperature
- Decreased urine output

- Call for medical help or take worker to a health facility for evaluation and treatment
- Stay with worker until help arrives
- Remove worker from hot area and give liquids to drink
- Remove unnecessary clothing, including shoes and socks
- Cool worker with water, cold compresses, an ice bath, or fans
- Encourage frequent sips of cool water

Exertional Heat Stroke

- Confusion, altered mental state, slurred speech, loss of consciousness
- Hot, dry skin or profuse sweating
- Seizures
- Very high body temperatures
- Fatal if treatment delayed

- This is an emergency! Call for emergency care immediately!
- Move worker to a cool area and remove clothing
- Immerse worker in a tub of ice water
- If a tub is not available, place worker in a tarp with ice and water (e.g., tarp-assisted cooling with oscillation*)
- If cold-water immersion is not possible,
 - Soak worker with cold water from a hose or shower
 - Apply cold, wet towels to as much of the skin as possible, and replace towels frequently

CAST CUTTER

By "Swede" Troedsson

In the early 1980's, Rick Later and I were asked to transport a patient from the Barret Hospital in Dillon, MT to St. James Hospital in Butte.

That patient had been snowmobiling with a friend up on the Comet Mountain Road. (Comet Mountain is in the East Pioneer Mountains, about 25 miles northwest of Dillon, and east of the Maverick Mountain ski area.)

As the snowmobiler was riding up the Comet Mountain Road, he tried to duck under some tree limbs hanging low over the road. A sharp-tipped, bare limb entered the man's mouth, just above his helmet's chin guard, and that stick ALMOST exited the back of his neck. (A visible lump on the back of his neck indicated where the sharp tip of the limb almost exited!) The limb broke off, leaving the man with several inches of the limb sticking out of his mouth beyond and over the chin guard.

The man's friend loaded him onto his snowmobile and transported him off the mountain, and then drove him to the hospital in Dillon.

At the hospital the patient's helmet could not be removed because of the limb protruding over the helmet's rigid chin guard. So, the the decision was made to transport the patient to the hospital in Butte with the helmet and protruding stick remaining in place.

As the patient was loaded into the ambulance, he needed to be secured onto the cot in a vertical sitting position so he could more easily drool out blood and mucus. The patient's wife was permitted to ride in the front seat of the ambulance beside me. I told her "Buckle up, Momma, we're going to fly!" We roared up the old highway at 85 mph. On the way, I notified the St. James Emergency Room staff of the patient's very unusual situation and advised them that they should probably obtain a hacksaw to be ready to remove the chin guard from the helmet.

Upon our arrival at the St. James ER, the ER personnel discovered that their hacksaw would not cut through the chin guard. The hacksaw blade just kept sliding around and slipping off of the smooth composite helmet material, instead of cutting through it.

Right then, a possible solution occurred to me. I mentioned to them that the helmet seemed somewhat similar to a cast, so I wondered if their cast cutter might work. The ER personnel immediately wheeled in the cast cutter machine and they used it

successfully to remove the chin guard and the helmet.
 The patient was wheeled into surgery, and after administering anesthesia and a tracheotomy, the surgical staff successfully removed the limb and treated the man's neck wound.
 The patient made a full recovery, but was left with a tracheotomy scar at the front of his throat.
 He was extremely fortunate that the limb missed his carotid artery, his jugular vein, and his facial nerve.

 Bannack Days will be held on July 20 & 21.
 We expect to have children make close to 1000 rag dolls at Bannack Days so donations of cotton material and Polyfill stuffing/batting is needed. Material can be whole pieces or cut into strips: 1 1/2 inches wide by 22 inches for arm lengths and 44- 46 inches for body lengths. We also use muslin material that can be cut into 10-inch squares for heads. Contact the park or Arlis Vannett at 406-925-2209 / arlis_v@hotmail.com if you have questions or want to make arrangements to make a donation.
 We can also use donations of old candles and crayons for our ever-popular candle dipping hands-on demonstration. Contact the park or Amanda Berguson at 406-925-0947/ amandaberguson80@gmail.com if you have questions or want to make a donation.
 Volunteers are also needed during Bannack Days to help with these activities and in other areas. If you can help in any way, call Arlis Vannett at 406-925-2209 or John Phillips, Park Manager, at 406-834-3413. Come Join the fun!
