Campaign Advertising

By MJ

In the September 4, 2024 there was a full-page political ad with headlines about the closure of Barrett Hospital a "non-profit business" in the local Dillon Tribune paper.

"Non-profits" must adhere to specific campaign activity. It is a requirement imposed by Congress for the privilege of being recognized as exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code.

For an organization to be tax-exempt under section 501(c)(3) it cannot "participate in, or intervene in (including the publishing or distributing of statements) any political campaign on behalf of (or in opposition to) any candidate for public office."

Question: Why did Mr. Tester print such an ad in a small-town paper where the hospital is the life line of the community. *Surely the senator knows about Section 4945(f) of the Internal Revenue Code that explains how non-profits function.* Does Tester agree with VP Harris's medical plan? For voters to make an educated vote should they know what plan Tester supports? Like rubbing salt into in open wound he went onto list 49± other medical centers across Montana. **Question:** Why would an elected official who represents the people, disregard the law? It appears laws matter little in the political arena of today. We humans have a tendency to make assumptions. **Note:** The problem with assumptions is that we believe they are true. If we don't research both the health care plans, you may assume Tester is telling the people the truth in his ad. *Appears the true may be in question?* **Note:** One person will not have the power to create a health care plan without the vote of congress.

• **Question:** Would it help the citizens of the community if Senator Tester printed another full-page ad giving the people facts and figures explaining why he says the hospital will close because of the "plan" that he references in the Dillon Tribune ad?

Montana Western Ranked Among Top Colleges in the West by U.S. News & World Report

The University of Montana Western has been ranked #6 in Top Public Schools and #21 in Best Regional Colleges in the Western region by U.S. News & World Report in their 2024-25 rankings.

U.S. News & World Report evaluates more than 1,500 colleges and universities on up to 19 measures of academic quality each year. Their rankings provide prospective students and families with valuable data to help them make informed decisions about higher education institutions.

"Now in its 40th year, the Best Colleges rankings continue to be a trusted source of information for students and their families," says LaMont Jones, Ed.D., managing editor for education at U.S. News. "By considering factors such as social mobility and post-graduate success, we aim to help students choose schools that not only provide a quality education but also prepare them for a successful and fulfilling future."

U.S. News calculates each ranking based on a specific methodology, using factors including overall graduation rates, academic quality, Pell Grant recipient graduation rates, social mobility, first-generation graduation rates, student support services, financial support, and academic resources for faculty.

In addition to being ranked #21 in Regional Colleges (West) and #6 in Top Public Schools (West), UMW also ranked #44 in Top Performers on Social Mobility. The Western region is comprised of 15 states, including Washington, Oregon, California, Idaho, Nevada, Utah, Colorado, Wyoming, New Mexico, Montana, Arizona, Texas, Oklahoma, Alaska, and Hawaii.

To view Montana Western's full rankings list, visit <https://www.usnews.com/best-colleges/montana-western-2537/overall-rankings>.

The fields of academic study at Montana Western include Biology, Business and Technology, Environmental Sciences, Education, English, Equine Studies, Health and Human

Beaverhead County High School News

The Innovative Educational Tax Credit program came about from the 2021 Legislative Session. It allows Montanans to receive dollar-for-dollar credits on their state income taxes for donations made to public school districts. It opens every year in January and it is first-come, first-serve across the state.

Right now, the Department of Revenue is going to open it up again due to credit invalidation. There is \$227,001 that can be claimed this fall. Schools are anticipating that it will be gone in minutes or even seconds!

If you would like more information, please see the link on the BCHS website (www.bchsmnt.com) or call District Clerk Susanne Valach at 406-683-2361 ext 113 by September 27, 2024.

Bulldogs Stumble in Helena

The no. 13 ranked Montana Western women's volleyball team (9-3, 1-1) dropped their first conference game of the season in a 3-0 loss to RV Carroll College (11-2, 1-1).

After falling to an 11-8 early deficit, the Bulldogs utilized a 6-2 scoring run that featured a pair of aces from Taylor Petersen and Jazi Smith to get the Bulldogs back on top at 14-12. The narrow lead was short-lived. Despite racking up six blocks in the set, the Bulldogs were unable to recover and dropped the first set 25-20.

Carroll continued their roll into the second set when they racked up 14 kills and just two errors on their way to a quick 25-10 set victory.

The Saints once more jumped out early to a 11-8 lead. A kill from Kara Pospisil broke the Carroll run and fueled a 4-0 Bulldog push to flip the score in favor of UMW at 12-11. The two teams continued to battle it out down the stretch but the Saints ultimately remained on top with a closing set 25-21 win.

Bulldog Volleyball Falls to No. 15 Argos

Montana Western women's volleyball team (9-4, 1-2) fell to the no. 15 ranked University of Providence Argos (12-2, 3-0) in a 3-1 matchup by scores of 25-21, 25-16, 25-15, 25-16.

The Argos held a slim 18-17 lead in the first set before the Bulldogs were able to use a 5-1 run to pull away from UP late in the set. Jordan Olson nailed back to back kills and Peyton Vogl and Olson paired for a block to clean up the first set and win 25-21.

Trailing 10-9 early, the Argos found momentum and ran on to claim a 15-9 lead and force the Bulldogs to use both timeouts early. A 4-1 run brought UMW back within three, but UP would run away with the set to win 25-16.

Providence carried the momentum into the final two sets and rolled to 25-15 and 25-16 set wins to close out the game.

Bulldogs Claim Victory Over Pioneers

Montana Western football team (3-0, 1-0) took their first road victory of the season when they defeated NCAA DIII opponent Lewis & Clark College (Ore.) Pioneers by a final score of 56-39.

Three Bulldogs earned a pair of rushing touchdowns in the game, while the Bulldogs totaled 228 yards on the ground.

Prior to the matchup, Lewis & Clark averaged more than 150 rushing yards per game. UMW's defense allowed the Pioneers to -8 rushing yards across the matchup and totaled six sacks and eight tackles for loss as a team.

Bulldog Football Holds Steady in NAIA Polls at No. 4

The National Association of Intercollegiate Athletics (NAIA) has announced the results of the NAIA Football GoRout Top 25 Poll No. 3. Montana Western Football held steady at to no. 4 in the poll.

UMW took their first road victory of the season this past weekend when they defeated NCAA DIII opponent Lewis & Clark College (Ore.) Pioneers by a final score of 56-39.

Three Bulldogs earned a pair of rushing touchdowns in the game, while the Bulldogs totaled 228 yards on the ground.

As a team, Montana Western sits in the top 10 in the NAIA in points scored per game (7th, 50.5), total offensive yards per game (3rd, 566.5), passing yards per game (2nd, 391.5), and kick return yards (2nd, 35.2).

Michael Palandri sits in second in the NAIA for passing yards per game with 368.0 per game. Both Eli Nourse and Dylan Shipley are in the top 5 for receiving yards per game. Nourse averages 126.5 for fourth in the NAIA with Shipley following just behind in fifth with 123.5. Three of the top five receivers in the Frontier conference reside with the Bulldogs, adding Jon Kirkley to the list in fifth with 73.5 yards per game.

The Bulldogs will be looking for their first conference road win of the season in Ashland this weekend against the no. 14 ranked Southern Oregon this weekend. Since the series between the two teams began in 2002, the Bulldogs are 0-8 on the road against the Raiders.

No. 4 Montana Western Bulldogs No. 10 Montana Tech Orediggers
No. 14 Southern Oregon Raiders No. 19 College of Idaho Yotes

Bulldog Athletics - Volleyball

The no. 13 ranked Montana Western Volleyball team (9-4, 1-2) will look to get back on track this week with a pair of conference matchups. The Bulldogs open the week on Thursday at home against RV Rocky Mountain College (9-6, 1-2). The Battlin' Bears enter the matchup on a three-game losing streak, with two of these matchups being against Frontier opponents.

The Bulldogs will then hit the road to take on the Montana Tech Orediggers (8-5, 2-1). The Orediggers are currently on a two-game win streak with a pair of wins against Carroll College and MSU-Northern last week.

WORKWEAR

Take Hemp to Work

There's a reason why industrial hemp is the original work canvas. As a crop, it grows quickly with little to no irrigation, and can restore nutrients to topsoil. As a textile, it's durable, breathable and comfortable right off the shelf.

CI-128's message: my body has rights, their life does not.

by Roger Koopman

The Tester-Sheehy face-off isn't the only Montana contest in the national spotlight, attracting millions of out-of-state dollars. This year's ballot features CI-128, the most radical, far-reaching "abortion rights" proposal anywhere in the nation. This precedent-setting monstrosity has become the top priority of the abortion industry and the abortion-infatuated Democrat Party. When last I checked, Big Money cash donations to the CI-128 campaign outpaced opponent giving nearly 700 to 1, and it's estimated proponents will have spent up to \$50 per voter by Election Day to make Montana the Killing Fields of the West.

CI-128 is Montana's race to the bottom, seeking to make us the state that most easily eliminates an entire class of "undesirables" who, through no fault of their own became babies their mothers didn't want. Once healthily thriving in the womb, they then became poster children for "Reproductive Freedom," printed on death certificates with invisible ink. We never knew them. We never will. Their crime was existing – the direct products of the reproductive freedom their mothers now claim they don't have.

CI-128 was intentionally drafted to become a constitutional Trojan Horse, not only making abortion at all stages of development protected by law, but even protecting child predators who arrange for their victims' abortions without parental knowledge! The vague and slippery language of the amendment also opens the door to sex change hormones and surgeries on minors without parental consent. When AG Knudsen ordered that the ballot language be changed to give voters a full and honest explanation of the amendment's actual effects on current law, our far-left supreme court overruled him and reinstated the misleading text of the proponents.

The mantra of the Democrats in defense of killing the unborn is always the same: We demand our right to control our own bodies and make our own medical decisions. Funny thing, though. I don't recall one Democrat showing the slightest concern about controlling our bodies and making our own medical decisions when Americans were being forced to take the COVID vaccine or lose their jobs.

Let's examine the "my body, my rights" claim more closely. Question: In an abortion, how many bodies are involved? Answer: Two – the mother's and the child's. As any human biologist will tell you, the body of the unborn child is distinctly different from that of the mother, with entirely separate DNA. If the mother's body carries sovereign rights of control, then so does the baby's. The "body argument" is a tie score, and thus not an argument at all.

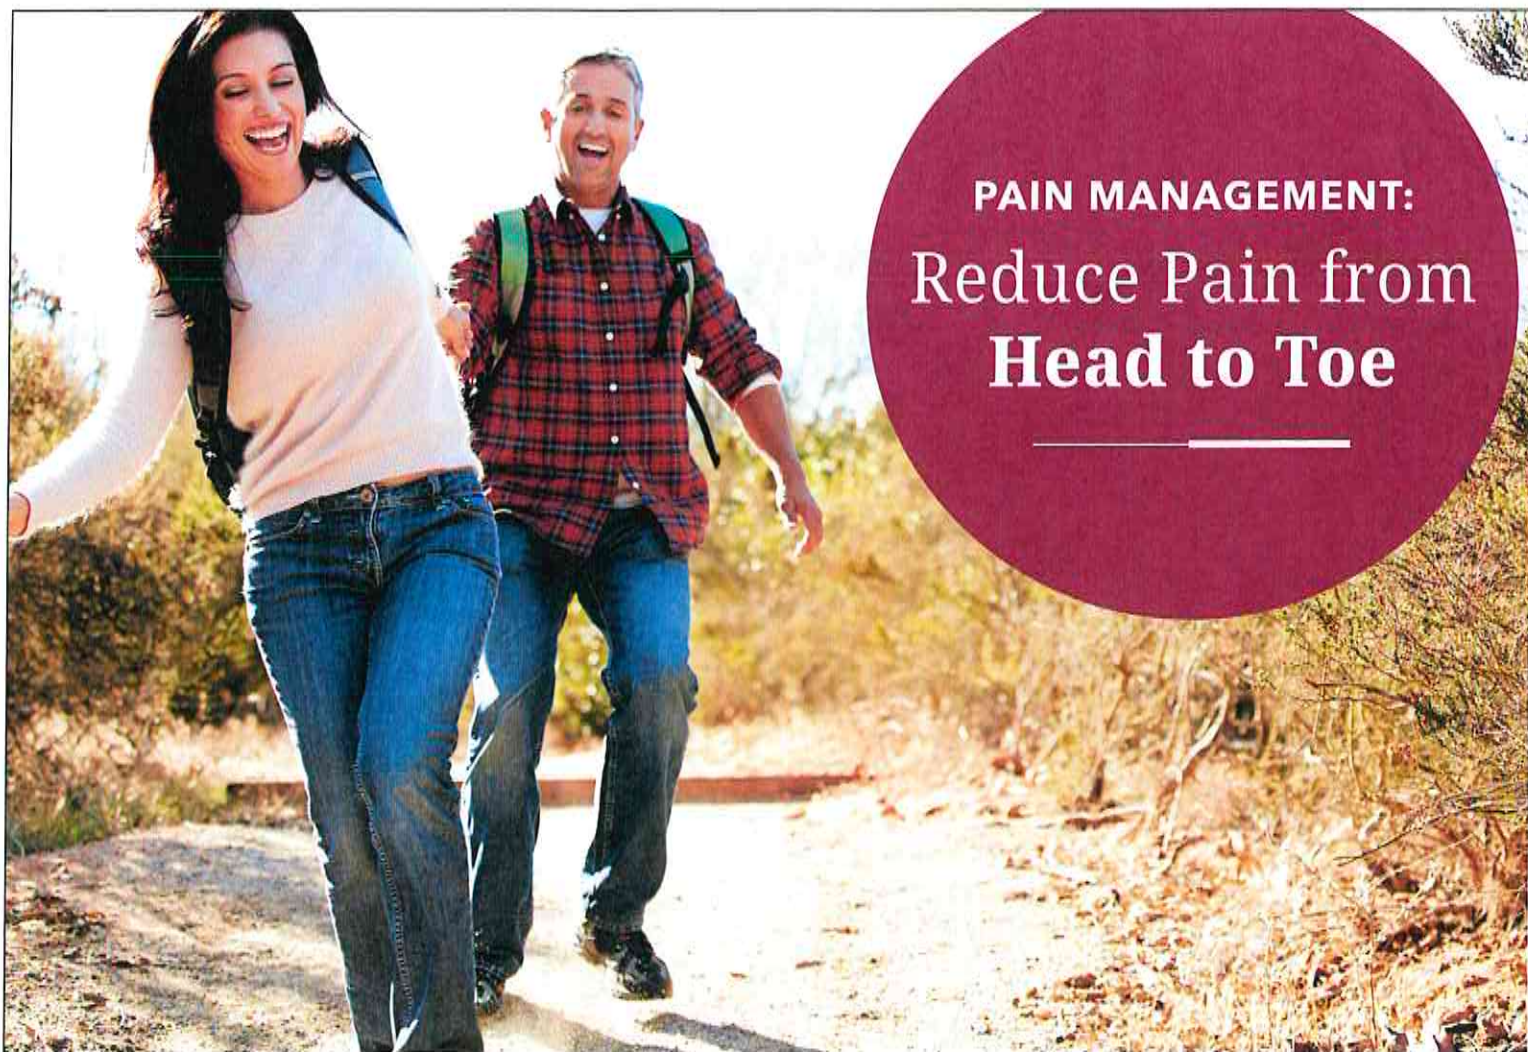

Yet the overriding consideration in every abortion is the question of life. Two distinctly different lives are involved in an abortion, each living in their own environment. Yet in every abortion, only ONE life is truly at stake – that of the child. While there are two bodies, there is only one life that is ended when an abortion happens. Obviously, the life claim takes precedence over anything else. For indeed, the protection of innocent human life is the very measure of humanity and the definition of a just and civil society. It forms the foundation of true freedom. That's true regardless of how those little ones were conceived – a factor over which they had no control.

Why are we told then, that the life of the child should not be considered, as if it doesn't exist? It is because it is smaller? Because it isn't easily seen? Because it has no voice? Because it has no vote? Are these life disqualifiers? If she could speak, would she say, "Go ahead and kill me?" If he could vote, would he vote for CI-128? These children can't speak and can't vote, so maybe we should speak and vote for them.

It's a matter of life. It's also a matter of seeing with our hearts -- seeing all those precious little faces that are being taken from us. Meanwhile not allowing the euphemisms and gaslighting of the Democrats to convince us of another reality that isn't real. Those kids were real, and they are gone from us now. All 65 million of them. When will it stop?

Let it begin by saying "no" to CI-128.

A former Bozeman small businessman, Roger Koopman is president of Montana Conservative Alliance. He served four years in the Montana House of Representatives and eight years as a Montana Public Service commissioner.
