Rosalie Sophie Grindvold Massar, 99

Rosalie Sophie Grindvold Massar was born September 15, 1925, in Hartington, Nebraska, to Julius and Marie (Gothier) Grindvold. She passed away peacefully in the early morning of December 10, 2024, at Home Park Assisted Living in Sheridan, Montana.

In early March of 1929, when Rosalie was not quite four years old, Julius sold the Nebraska farm and moved his wife, six daughters and one son to Circle, Montana.

They loaded their possessions and traveled in a "house" that Grandpa designed on a Dodge truck, possibly the grand-daddy of the modern day camper. On April Fool's Day, 1929, they moved to their new home about sixteen miles northwest of Circle. The house camper was unloaded from the truck and this was their first home in Montana.

Rosalie attended a country grade school, then Circle High School, living at the school dormitory and graduating in 1943. She met the love of her life, Fred Massar, also attending school at Circle High, until he enlisted in the U.S. Navy in 1942. They were married on November 11, 1945, in Tacoma, WA. Fred was honorably discharged from the Navy on December 23, 1945, and the couple spent Christmas Day of that year on a train headed to eastern Montana, where they ranched for their fathers until buying their own cattle ranch in 1956.

They began their family in 1947; sons Monte and Ross, daughters Roselle and Kali.

Mom was an elegant ranch wife, yet helped Dad as needed. She was also very involved in the VFW Auxiliary, McCone County Cowbells (later known as Cattle Women) and Lutheran church organizations. In 1967, the eastern Montana ranch was sold and the family moved to a ranch on Mill Creek, east of Sheridan, Montana. Mom had an adjustment period to living in the mountains as she had always lived on the prairie, but she grew to love the mountains.

She and Dad were part-founders of the Tobacco Root Ranch in Sheridan, where she cooked for the many guests, sometimes rode and helped conduct overnight pack trips, and made life-long friendships. In 1989, the Massar's moved to Lakeside, Montana, and would winter in Gold Canyon, Arizona, also making many new friends wherever they landed.

Fred passed away in 2001. Rosalie still lived in Lakeside, having made many new friends and being involved in the Eidsvold Lutheran Church. She moved to Dillon, Mt, in 2012, where she resided until July 2022, when she moved to Home Park in Sheridan. Her family is so grateful for the care she received and friendships made at Home Park.

Dillon, MT Since 1991

Rosalie is survived by her son, Ross (Sheila) of Twin Bridges; daughters, Roselle (Dean) Hanson, Whitehall; and Kali (Steve) Stender, Sheridan; daughter-in-law, Leila, Sidney, Mt; ten grandchildren; and 21 great-grandchildren. She was preceded in death by her husband, parents, five sisters, brother, son, Monte, and daughter-in-law, Phyllis.

A celebration of life will be held December 27, 2023, at 11:00 am at the Bethel United Methodist Church in Sheridan, Montana, followed by a light lunch and a time for sharing memories. A family burial service will be held at a future date in Circle, Montana.

Memorials may be made to Home Park Assisted Living, Box 899, Sheridan, MT, or to a charity of donor's choice.

R. E. Miller Steps In To Help With Trailer Fire Cleanup

Jeremy Crawford, Southwestern Montana News

In a compassionate response to a recent tragedy, R.E. Miller & Sons has stepped in to assist Tim and Sabrina Nichols, who lost everything in a devastating trailer fire on December 6th. The Nichols have been working tirelessly to secure essential supplies and find stable housing since losing their home.

Adding to their challenges, the burned trailer, which was declared a total loss, needed to be safely removed from the property. R.E. Miller & Sons has generously offered to haul away the trailer next week at no cost to the Nichols.

This act of kindness highlights the strong sense of community in Dillon, as residents come together to support one another in times of need. The outpouring of help and generosity reminds us all of the strength found in our community during difficult times.

Thank you, R.E. Miller & Sons, for your commitment to helping those in need!

Bears translocated to Yellowstone ecosystem exploring new territory, map shows

The lines on the map look like the doodling of a toddler. The pink line makes big loops that sometimes overlap. The green line is wound so tightly, it just looks like a big blob. Though they sometimes get close to each other, they seldom intersect.

The lines show the movements of the female grizzly bear (pink) and male grizzly bear (green) that were relocated from the Northern Continental Divide Ecosystem (NCDE) to the Greater Yellowstone Ecosystem (GYE) this past summer. Both ecosystems have populations of grizzly bears that have surpassed recovery goals. However, the translocation effort was designed to help increase the genetic diversity of the GYE population, which has been isolated from nearby populations for many years. It's an effort that may be repeated in the future, depending on how close the two populations eventually grow.

"This just jump starts what very likely will also happen naturally," said Ken McDonald, head of Montana Fish, Wildlife & Parks' Wildlife Division.

The bears were captured and collared within a day of each other southwest of east Glacier in a remote area of the Middle Fork of the Flathead River drainage in July and driven overnight to the GYE. One was a 3- to 4-year-old female; the other was a 4- to 5-year-old male.

"We were looking for the ideal bears," McDonald said. "It's actually not that easy to capture two bears that are prime candidates for translocation."

In this case, the ideal bears were subadult, meaning they were older than cubs but not at sexual maturity yet, had no history of conflict and weighed enough to prepare for hibernation, McDonald said. Bears of this age are often in search of their permanent home range, therefore they are more likely to stay in the relocation than more mature individuals.

FWP worked with partners from the National Park Service and the Wyoming Game & Fish Department on the translocation destinations. The male bear was hauled by boat to the southern end of Yellowstone Lake. The female was taken to a remote location in the Blackrock Creek drainage west of Dubois, Wyo.

"We are very pleased to see that both bears have remained in

the GYE, even staying mostly within remote areas of the Recovery Zone," said Cecily Costello, FWP grizzly bear researcher. "It's not always easy for a bear to adjust after being moved like this, but they seem to be settling in. We believe both have recently found a den site for the winter."

Population recovery levels in the NCDE and GYE were passed several years ago. Montana has petitioned the U.S. Fish and Wildlife Service to delist bears in the NCDE, and Wyoming, with support from Montana and Idaho, has petitioned to delist grizzly bears in the GYE.

In both ecosystems, the states have met the delisting requirements and addressed concerns identified by the public or lined out by federal courts that have overturned previous delisting efforts. Those elements include:

- Reaching population recovery
- Having conflict prevention and response programs in place
- Continuing with research and monitoring
- Establishing a regulatory framework for managing grizzly bears once delisted
- Continuing with education and outreach about grizzly bears
- Safeguarding genetic health

According to McDonald, Montana and Wyoming have and will continue to act on their commitment to connectivity, and the agencies will continue to monitor the bears and their genetics to check for population diversity.

"That these bears are exploring their new ecosystem and seem to be doing well is an indication that they'll thrive in their new environment," McDonald said. "It also reflects the commitment Montana has to grizzly bear conservation."

Search and Rescue News
 Submitted by: Mel Rice, Public Relations
 On Saturday, December 7, the Beaverhead Search and Rescue held an after dark training. Most of our trainings are in the daylight hours, however, most of our actual rescues/searches are in the middle of the night. This particular training represented a rescue of individual(s) off a steep embankment as in a vehicular accident. The training started with rigging rehearsal, procedures for going down and back up a steep incline, and the use of mechanical advantages for lowering the rescue team to the patient and retrieval of the patient. There were two practice groups that participated in going off the embankment with an attendant and bringing a littered patient and attendant back up the slope to safety.
 Thanks to Steve Mock for putting together another great training experience for the unit. Attendees were: Aaron Beard, Adam Norlander, Jack Bazemore, David Broadhead, Lance Hopman, Anthony Grant, and Steve Mock. There were individuals from the Beaverhead Volunteer Fire Department who wanted to observe the training. In their position responding to most vehicular accident, they may need to call on the SAR unit for assistance someday for an extrication off a mountain or steep highway embankment. Fire fighters participating in the evening event were: Rob Dumke, Chris Murulo, Talon Anderson, Logan Norris, and Wendy Dumke. Thank you all for your participation. "In the Business of Saving Lives", your Beaverhead Search and Rescue.

FOOD PANTRY CHRISTMAS DISTRIBUTION
 The Food Pantry will be open on Monday, December 23, 2024, from 3 – 7 PM to hand out Christmas items.
 We will not be open on Tuesday, December 24 or Wednesday, December 25, 2024.
 We will be open regular hours on Tuesday, December 31, 2024, and Wednesday, January 1, 2025.

Dillon Middle School News for the week of December 16-20, 2024

This is our last week of school before Winter Break! Winter break will be from Saturday, December 21st through January 1st. School will be back in session on January 2nd, 2025!

The lunch menu for the week is as follows:

- Monday: Turkey Sandwich or Chicken Salad Bar
- Tuesday: Turkey Tacos or Taco Salad Bar
- Wednesday: Chicken Filet Sandwich or Chef Salad Bar
- Thursday: Pork Roast with Mashed Potatoes and Gravy and Stuffing or Cobb Salad Bar
- Friday: Chili and Cinnamon Rolls or Asian Chicken Salad Bar

On Tuesday, December 17th, DMS will have an alternate bell schedule in order to watch the BCHS Music Performance in the Parkview Gym. We are excited to hear the beautiful music that the high school students have been practicing!

On Wednesday, December 18th at 1:15 pm, 6th Grade Band will be having a rehearsal during 6th & 7th Period in the DMS Music Room.

The DMS 6th, 7th, and 8th grade Band and Choir Winter Concert will be on December 19, 2024 in the Parkview Gym at 7:00 p.m. Everyone is welcome to attend to hear some lovely holiday music!

Student council is sponsoring some dress up days before Winter break! Wednesday will be dress as your favorite holiday season character, Thursday will be Ugly Sweaters and Friday will be pajamas!

Looking ahead, on Thursday, January 2, DMS Girls' basketball will be having their 1st day of practice in both gyms at 3:45.

Also for DMS Girls' basketball - Parents, you will have a parent meeting in the DMS Gym at 5:30pm On January 2, 2025.

Dillon Elementary School District #10

2025 Technology Levy

Dillon Elementary
School District #10

Why is Dillon Elementary asking for a technology levy increase?

Dillon Elementary School District #10 is asking for voter approval of a \$150,000 technology levy increase in the May 2025 election to help maintain and update critical educational technology. This additional funding will support the following:

- Protecting Student and Staff Data
- Purchasing Student Learning Software
- Improving Parent Communication Tools
- Maintaining and Replacing Instructional Devices

How much would this cost me?

Tax Increase Estimate	
\$8.01 per year	Estimate for a home with a market value of \$100,000
\$24.02 per year	Estimate for a home with a market value of \$300,000
\$48.03 per year	Estimate for a home with a market value of \$600,000

Please visit the website below for additional tax estimates and information.

The Dillon Elementary School District technology levy will provide sustainable funding to maintain a safe learning environment, ensure reliable access to educational resources, purchase parent communication tools and digital learning platforms as well as maintain and replace instructional devices.

Protecting Student and Staff Data and Privacy:

Annual threat response and cybersecurity subscriptions are vital in protecting student and staff data and maintaining a safe learning environment. In 2023, 22% of all data breaches involved the education sector, highlighting the significant risk and need for effective data protection measures.

Purchasing Student Learning Software:

Annual software fees for student assessment and learning tools are essential to the success of our students. The variety of educational resources provides personalized learning experiences, allowing students to progress, addressing their individual needs in an effective and enjoyable way. Additionally, it offers valuable data and insights to help us track progress, identify areas for improvement and tailor instruction to better support student achievement. Technology directly impacts our students' success.

Improving Parent Communication Tools:

Effective parent communication technology is crucial for fostering a supportive school community focused on student success. These funds will enable timely updates and the purchase of tools that enhance collaboration between parents and educators, improving student outcomes. Additionally, communication technology supports both administrative functions and the diverse needs of students.

Maintaining and Replacing Instructional Devices:

Maintaining and replacing instructional devices is crucial for keeping technology up to date and supporting effective teaching. Annual IT support contracts help our small school manage technical issues, maintain a productive learning environment, and allow educators to focus on student success. We also need repairs for devices used in state-mandated assessments.

Learn more at <https://www.dillonschools.org/page/2025-technology-levy> or scan the QR Code.

Dillon Elementary School District #10

2025 Technology Levy

By the Numbers

\$150,000

Technology Fund increase to protect student and staff data, purchase student learning software, improve parent communication tools and maintain and replace instructional devices.

10 year term for levy

If approved, the technology levy would remain in place until 2035.

14.7% less per-pupil

Dillon Elementary School District spends 14.7% less per-pupil than Montana's per-pupil average. SD #10 spent \$11,388 per pupil, in contrast to Montana's state average of \$13,346, as reported in the 2022-2023 school year.

\$50,000 - \$1 million

Monetary losses to school districts following a cyber incident ranged from \$50,000 to \$1 million according to the U.S. Government Accountability Office.

23 years

Number of years since Dillon Elementary School District has requested technology funds, despite growing demand. Currently, the district has a \$50,000 annual technology levy.

141%

Increase in technology-related costs over the last 7 years ensuring students and the district can keep pace with technological advancements essential for modern education.

\$275,000 current shortfall

Current technology costs exceed the existing \$50,000 technology levy by \$275,000. A new technology levy would increase funding and allow general funds to be reallocated to support our students, teachers, staff, and community.

Learn more at <https://www.dillonschools.org/page/2025-technology-levy> or scan the QR Code.

City of Dillon Drinking Water Notice

Dear Residents,

We are pleased to assure you that the City of Dillon's drinking water is safe for consumption and meets all requirements set forth by the Montana Department of Environmental Quality (DEQ).

As part of our commitment to public health, we conduct Lead and Copper testing every three years by collecting 20 residential samples. This year, we conducted the required testing and are fully compliant with DEQ standards.

For detailed information about our water quality, we encourage you to review the Consumer Confidence Report, which includes data from the past three years. This report is available at City Hall, located at 125 North Idaho Street, Dillon, or online at www.dillonmt.org/water-sewer.

In compliance with DEQ requirements, all municipalities in Montana are implementing a service line identification program. This program requires us to identify and report the materials of service lines within the water distribution system. Recently, we sent letters to households where service line materials remain unidentified. These letters followed a template provided by the Environmental Protection Agency (EPA).

We understand that the language in this letter may have been unclear or caused concern, and we sincerely apologize for any confusion or inconvenience. Please rest assured that the City of Dillon's drinking water is and continues to be safe for your use.

As an added precaution, residents may consider the following steps to further ensure water safety in their homes:

- Run cold water from your tap for 1–2 minutes before using it for drinking or cooking, especially if the water has been sitting in pipes for several hours.
- Avoid using hot water directly from the tap for consumption or food preparation, as it may contain more dissolved materials.
- Consider using a certified water filter designed to reduce lead and other potential contaminants.

If you have any questions or need further information, please do not hesitate to contact us at (406) 683-4245 or watersupervisor@dillonmt.org

Thank you for your understanding and cooperation as we work to meet regulatory requirements and maintain the highest standards of water quality for our community.

Mayor John McGinley
