Montana Western and Bank of Commerce Performing Arts Series Present "Snow White and the Seven Dwarfs"

The University of Montana Western's Theatre Department and the Bank of Commerce Performing Arts Series are thrilled to present the Missoula Children's Theatre production of "Snow White and the Seven Dwarfs" on Saturday, February 1.

The Missoula Children's Theatre presents "Snow White & The Seven Dwarfs", an original adaptation of the classic fairy tale. A young princess named Snow White finds herself in peril when her step-mother, the Queen, is told by her Magic Mirror that the princess is fairer than she! Aided by her two Henchmen and a band of evil Bats, the Queen plots to get rid of Snow White. Snow White escapes from the Queen and from the Black Forest Creatures with help from Witless the Woodsman, and finds a home with the Seven Dwarfs. When the Queen learns of Snow White's whereabouts, she attempts to poison Snow White. But the Queen's evil plans are thwarted when Snow White's fearless Forest Friends, her father King Backwards, the Seven Dwarfs and the Prince come to her rescue.

"Snow White and the Seven Dwarfs" was written and conceived by Jim Caron, with music written and arranged by Michael McGill, additional music by Don Collins, and additional dialogue by Jeff Hall and Matt Loehrke.

The Missoula Children's Theatre (MCT) is the world's largest touring children's theater, bringing the magic of performing arts to communities across the globe. MCT provides young people with the opportunity to audition, rehearse, and perform in full-scale productions, all within the span of a week. Through its mission to develop life skills in children through participation in the arts, MCT fosters creativity, confidence, and teamwork in young performers, making theater accessible and meaningful to audiences of all ages.

Performances will be held in UMW's Beier Auditorium at 3:30 and 6:00 p.m. on Saturday, February 1, 2025.

To purchase tickets, please visit the BOC Performing Arts Series Box Office webpage (www.umwestern.edu/bank-of-commerce-performing-arts-series/box-office/). Tickets are \$16 for general admission, \$12 for seniors (65+), youth (18 & under), and military, \$10 for UMW faculty/staff, and free for UMW students with a student ID.

For more information, please contact Assistant Professor of Theatre, Stephen Seder, at stephen.seder@umwestern.edu or 406-683-7038.

Beaverhead County Search and Rescue News*Submitted by: Mel Rice, Public Relations*

The Beaverhead Search and Rescue was called out to assist a downed aircraft Sunday morning, January 5th, at 11:59 AM. A local pilot was flying a Fish Wildlife and Parks biologist around the area and was forced to make an emergency landing. The incident took place on a ridge south and west of Clark Canyon Dam. The aircraft apparently had some icing issues and was forced to land. It did not crash and both occupants of the plane were in good condition.

There were 4 SAR teams dispatched to the location to offer assistance. The rescue teams were dispatched at 1:35 PM. Each team unloaded their UTV's at approximately 3:25 PM and headed to the aircraft's location. SAR personnel arrived on scene, retrieved the pilot and passenger and headed off the mountain around 5:30 PM. By 6:45 all parties were back at their vehicles enroute for town.

Initially the pilot wanted S&R members to try and cut sagebrush and pack snow so he could make an attempt to take off. After assessing the situation, it was determined that was not in the plan, not only because of weather conditions and time of day, but it is not within the scope of the unit's mission.

It is not the policy of Search and Rescue to help get vehicles unstuck or off the mountains. We are there to find and assist individuals in the quickest manner and get them to safety and a healthier environment. Therefore, the pilot and FWP biologist were brought from the incident location back to town.

Members of the S&R participating in the event as hasty teams were: Tommy Goins, Cody Schnee, Tara Remely, Brad Wagner, Steve Mock, Wade Bush, Adam Norlander, Charles Weidow, David Broadhead, Jack Bazemore, James Mathews, and Josh Yeadon. The management team was made up of Zane Woods and Anthony Grant.

"In the Business of Saving Lives", your Beaverhead County Search and Rescue.

Montana Technological University reminds students of approaching scholarship deadlines

Montana Technological University, the state's only special focus university, is reminding high school seniors that the deadline for many major scholarships awarded by the University is January 15. Montana Tech awards more than \$1 million in scholarships to students annually.

"Montana Tech is incredibly proud of the scholarship dollars we can award through generous gifts from our alumni and industry donors," Executive Director of Admissions and Enrollment Leslie Dickerson said. "It speaks to the value they place on a Montana Tech education and the quality of our graduates."

All scholarship applications are located in the student's personal URL (PURL page), which is generated when they submit their application for admission. Scholarship applications will only appear on the PURL pages of admitted students who meet the eligibility criteria for the scholarship.

If students need help obtaining their PURL login information they can reach out at admissions@mtech.edu or (406) 496-4791.

Protecting Student and Staff Data and Privacy:

Annual threat response and cybersecurity subscriptions are vital in protecting student and staff data and maintaining a safe learning environment. In 2023, 22% of all data breaches involved the education sector, highlighting the significant risk and need for effective data protection measures.

Purchasing Student Learning Software:

Annual software fees for student assessment and learning tools are essential to the success of our students. The variety of educational resources provides personalized learning experiences, allowing students to progress, addressing their individual needs in an effective and enjoyable way. Additionally, it offers valuable data and insights to help us track progress, identify areas for improvement and tailor instruction to better support student achievement. Technology directly impacts our students' success.

Improving Parent Communication Tools:

Effective parent communication technology is crucial for fostering a supportive school community focused on student success. These funds will enable timely updates and the purchase of tools that enhance collaboration between parents and educators, improving student outcomes. Additionally, communication technology supports both administrative functions and the diverse needs of students.

Maintaining and Replacing Instructional Devices:

Maintaining and replacing instructional devices is crucial for keeping technology up to date and supporting effective teaching. Annual IT support contracts help our small school manage technical issues, maintain a productive learning environment, and allow educators to focus on student success. We also need repairs for devices used in state-mandated assessments.
