### Department of Justice launches updated Sexual and Violent Offender Registry

Attorney General Austin Knudsen announced today an updated Sexual and Violent Offender Registry (SVOR) that will provide Montanans with additional information on the whereabouts of offenders in their area. In addition to an offender's home address which was previously provided on the registry, the registry will now include an offender's work and/or school addresses.

Montana's Sexual or Violent Offender Registration Act is designed to protect the public from sexual or violent offenders by requiring offenders to register with local law enforcement agencies in the jurisdiction where they reside. The registry makes the information about the offenders available to the public and provides an up-to-date listing of sexual and violent offenders who are registered. "I encourage all Montanans to sign up for Sexual and Violent Offender Registry alerts to stay informed on the registrants living, working, and going to school in your area and help you make the best decisions for your families," Attorney General Knudsen said.

The SVOR was established by the Montana State Legislature in 1989 and the updates to the registry come following Senate Bill 38 in 2023.

likely serve as a source of environmental contamination, allowing animals that come into contact with them to also become infected.

There is no known transmission of CWD to humans; however, the Centers for Disease Control and Prevention (CDC) recommends that hunters who harvest an animal in an area where CWD is known to occur have their animal tested. If the animal tests positive, the CDC advises against eating the meat.

Although the main sampling season is over, FWP will continue to collect samples from animals throughout the year.

## Bulldog Women Drop Game to (RV) Rocky

The Montana Western women's basketball team (7-15) dropped their game to (RV) Rocky Mountain College (15-8) 67-48.

Isabella Lund led the scoring for the Bulldogs with 16 points.

**How It Happened:** Kenzi Pedersen opened the scoring for the Bulldogs with four early points, but the Bears' hot shooting (57%) gave them the lead by the end of the first quarter.

Rocky controlled the boards, out rebounding the Bulldogs and converting their advantage into 12 points in the paint and six second-chance points.

Western struggled offensively late in the half, going scoreless in the final three minutes as the Bears extended their lead to 36-23 at halftime.

Maddy Moy provided a spark in the third quarter, grabbing three rebounds and tallying three steals to help the Bulldogs fight back. Keke Davis added seven points, but the Bears responded with four three-pointers to maintain their lead.

Isabella Lund scored 10 of her 16 points in the final stretch, but Western's struggles from beyond the arc (0-for-5) allowed Rocky to secure a 67-48 victory.

### Notables:

- Lund recorded three rebounds and four assists.
- Western shot 4-of-16 from three-point range, while Rocky went 8-of-23.

## Bulldogs Battle Back but Fall Short as Rocky's Free Throws Prove the Difference

The Montana Western men's basketball team (12-11) fell in a back-and-forth home game to (RV) Rocky Mountain College (16-7), 98-93, this evening.

Jalyn Stepney led the Bulldogs effort and finished with 21 points.

**How it Happened:** Stepney provided an early spark for the Bulldogs, knocking down three first-half three-pointers, while Abi Adedo contributed six points and five rebounds in the first half.

Despite shooting 42.1% from the field and 44.4% from three-point range, Montana Western struggled at the free-throw line, converting just 6 of 10 attempts. Rocky capitalized on their opportunities, making 11 of 13 free throws.

The Bulldogs managed to stay within striking distance in large part to their ability to score in the paint and force turnovers, converting 17 points off Rocky's first half turnovers.

Rocky Mountain started the second half strong, extending their lead to eight early. However, the Bulldogs battled back, with Adedo scoring 14 of his 20 points after halftime. Kyle Gruhler added 10 second-half points, including a key three-pointer late in the game.

Despite Montana Western shooting 52.8% from the field in the second half, Rocky's advantage at the free-throw line proved to be the difference. The Battlin' Bears finished 30-of-39 from the stripe, while the Bulldogs finished 10-of-24, which ultimately was the difference in the game.

### Notables:

- Stepney would finish the game shooting 6-11 from the field and 4-7 from beyond the arc.
- Adedo and Gruhler would each finish the game with nine rebounds.
- The Bulldogs would score 48 points in the paint compared to the Bear's 32 points.
- Western would turn Rocky over 13 times leading to 17 points off turnovers.
- UMW would be whistled for 27 fouls compared to Rocky's 15 fouls.

**Attorney General Knudsen joins coalition against taxpayer-funded sex changes for inmates**

Montana Attorney General Austin Knudsen joined a coalition of 24 state attorneys general in asking the Seventh Circuit Court of Appeals to reverse a lower court's decision that would allow a convicted murderer in Indiana to receive a taxpayer-funded sex-change surgery.

In the amicus brief filed Wednesday, the attorneys general argue that an Indiana law prohibiting sex-change surgeries for incarcerated people should be upheld and the plaintiff, Autumn Cordellioné, should not be granted a sex-change surgery as it is not a procedure granted under Eighth Amendment which prohibits "cruel and unusual punishments." Additionally, there has been no medical consensus that the surgery in question is necessary or an effective treatment for gender dysphoria.

"Federal courts should be especially reticent to second-guess state officials' decisions regarding the medical care inmates receive. Because the Eighth Amendment prohibits only 'cruel and unusual punishments,' a prisoner bringing a deliberate-indifference claim must 'demonstrate that the treatment he received was blatantly inappropriate'—i.e., that 'no minimally competent professional' could have treated the inmate as the prison did," the brief states. "That's a difficult, if not impossible, standard for an inmate to meet when the medical community is still debating how best to treat the condition at issue—here, the plaintiff's diagnosis of gender dysphoria."

The district court erred in granting Cordellioné, who is serving 55 years in state prison for the strangulation of an 11-month-old, a preliminary injunction in the case because in doing so, the court upended the status quo, ultimately granting permanent relief to Cordellioné since sex reassignment surgery is irreversible.

Additionally, the court erred in accepting incomplete evidence submitted by the plaintiff from the World Professional Association for Transgender Health's (WPATH) Standards of Care. Since the plaintiff moved for "emergency" relief, the defendant, the Commissioner of the Indiana Department of Correction, was only allowed to conduct limited discovery into WPATH on an expedited basis before the preliminary injunction hearing. Given the opportunity, discovery would have shown the organization used those standards to advance political and legal goals, made recommendations based on

direction and pressure from the Biden administration, and failed to properly manage conflicts of interest.

"Contra the district court's conclusion, the WPATH Standards are not 'credible and reliable,' and they should not be relied on to constitutionalize a standard of care under the Eighth Amendment. The Commissioner should be allowed the opportunity to conduct discovery and compile an evidentiary record that shows just that," the brief states.

# Dillon Elementary School District #10

## 2025 Technology Levy

Dillon Elementary  
School District #10

### Why is Dillon Elementary asking for a technology levy increase?

Dillon Elementary School District #10 is asking for voter approval of a \$150,000 technology levy increase in the May 2025 election to help maintain and update critical educational technology. This additional funding will support the following:

- Protecting Student and Staff Data
- Purchasing Student Learning Software
- Improving Parent Communication Tools
- Maintaining and Replacing Instructional Devices

### How much would this cost me?

| Tax Increase Estimate |                                                      |
|-----------------------|------------------------------------------------------|
| \$8.01 per year       | Estimate for a home with a market value of \$100,000 |
| \$24.02 per year      | Estimate for a home with a market value of \$300,000 |
| \$48.03 per year      | Estimate for a home with a market value of \$600,000 |

Please visit the website below for additional tax estimates and information.

The Dillon Elementary School District technology levy will provide sustainable funding to maintain a safe learning environment, ensure reliable access to educational resources, purchase parent communication tools and digital learning platforms as well as maintain and replace instructional devices.

#### Protecting Student and Staff Data and Privacy:

Annual threat response and cybersecurity subscriptions are vital in protecting student and staff data and maintaining a safe learning environment. In 2023, 22% of all data breaches involved the education sector, highlighting the significant risk and need for effective data protection measures.

#### Purchasing Student Learning Software:

Annual software fees for student assessment and learning tools are essential to the success of our students. The variety of educational resources provides personalized learning experiences, allowing students to progress, addressing their individual needs in an effective and enjoyable way. Additionally, it offers valuable data and insights to help us track progress, identify areas for improvement and tailor instruction to better support student achievement. Technology directly impacts our students' success.

#### Improving Parent Communication Tools:

Effective parent communication technology is crucial for fostering a supportive school community focused on student success. These funds will enable timely updates and the purchase of tools that enhance collaboration between parents and educators, improving student outcomes. Additionally, communication technology supports both administrative functions and the diverse needs of students.

#### Maintaining and Replacing Instructional Devices:

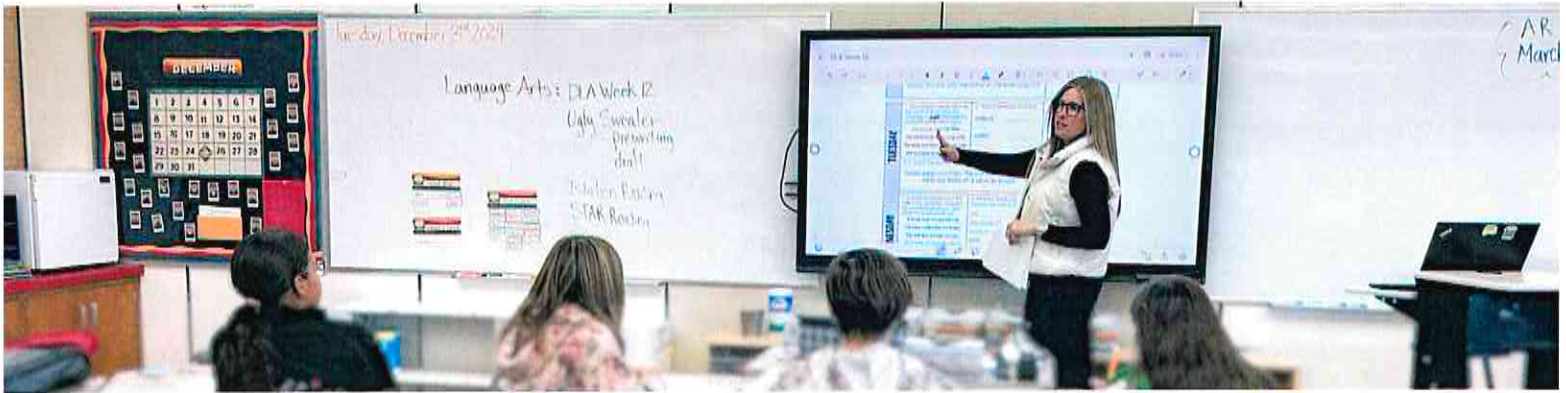

Maintaining and replacing instructional devices is crucial for keeping technology up to date and supporting effective teaching. Annual IT support contracts help our small school manage technical issues, maintain a productive learning environment, and allow educators to focus on student success. We also need repairs for devices used in state-mandated assessments.

**\$50,000 - \$1 million**

**\$275,000 current shortfall**
