New License year Begins March 1

Deer and elk permit application deadline is April 1

The new license year opens March 1, which means that is the day you can buy your 2025 hunting, fishing and conservation licenses and begin applying for permits and special licenses. The deadline to apply for deer and elk permits is April 1.

Applications for most species – deer, elk, antelope, deer B licenses, elk B licenses, antelope B licenses, moose, sheep, goat and bison – can be made beginning March 1.

Applicants have the option to reapply for the same offerings as last year with just a simple click, eliminating the need to search through previous applications.

Hunters and anglers can buy licenses and apply for permits on the FWP website beginning at 5 a.m. on March 1; click on "Buy and Apply." Most FWP offices will be open from 8 a.m. to 5 p.m., Monday through Friday.

The licensing call center will be open from 7 a.m. to 7 p.m. from March 1 through April 1; after April 1, the hours will return to 8 a.m. to 5 p.m. The call center can be reached at 406-444-2950.

Hunters and anglers can also take advantage of the MyFWP mobile app. The app holds and displays licenses, permits and E-Tags, which can be downloaded and used in the field without cell service. To create a My FWP account, visit the MyFWP login page.

Tips and reminders

- Don't wait until the last day to apply.
- If you're applying for a special license or permit, you will need to have a valid email address.
- Make sure to doublecheck the regulations before applying. Some permit/licenses have changed.

- The Online Licensing Service is available from 5 a.m. to 11:45 p.m.
- Everyone 12 and older needs a Conservation License to access most state lands, including fishing access sites, wildlife management areas and wildlife habitat protection areas (WHPA). Montana State Parks do not require a Conservation License.

- A separate and rotating moose, bighorn sheep or mountain goat SuperTag lottery for resident hunters will be conducted annually. Montana residents will receive one free chance in the lottery for every General Elk or General Deer License purchased.

Application deadlines

- Smith River Super Permit – April 1
- Paddlefish (white tag) – April 1
- Deer and Elk
 - Permits – April 1
 - B Licenses – June 1
- Bighorn Sheep – May 1

Stepney's Three-Pointers Spark Bulldogs' Strong Performance in Win Over Saints

Stepney knocked down three three-pointers, while Abi Adedo added six points to help the Bulldogs build a 20-11 lead midway through the first half.

Carroll responded by attacking the paint, scoring 20 points inside as part of a 14-3 run that put them ahead 29-23.

The Bulldogs stepped up defensively, with Colter Merritt and Kyle Gruhler each forcing turnovers as part of a stretch that held the Saints scoreless over the final two minutes of the half. Western closed on a 5-0 run to take a six-point lead into the break.

Coming out of halftime, the Saints hit a pair of three-pointers, but Gruhler answered with one of his own to maintain a 62-59 advantage with 13 minutes remaining.

Billy Carleson provided a spark off the bench, contributing four points, three rebounds, and two assists while Western held onto a 69-67 lead.

Alan Kane then scored nine points as part of a Bulldog run that extended the lead to 80-74. Gruhler and Stepney followed with key baskets to push the lead even further and secure the victory.

Bulldog Football Announces Recruiting Class

The University of Montana Western football program announced that it has signed 39 players in its 2025 recruiting class and added seven spring transfers.

"The Class of 2025 has the potential to be one of the best we've had during my tenure at Western," Head Coach Ryan Nourse said. "Collectively, this group possesses the competitive character and talent to make an early impact on the program and help us continue to grow and compete for championships."

This year's class includes 17 student-athletes from Montana, eight from Idaho, seven from Washington, two each from Hawaii and Nevada, and one each from Oregon, California, and Texas.

"The staff worked diligently to find hungry, driven, and competitive student-athletes who love to play football. We achieved our goal by addressing all positions in this high school class while also bringing in a handful of transfers who will have an immediate positive impact on the team."

This list will start today and continue as room is available:

Dillon Elementary
School District #10

Why is Dillon Elementary asking for a technology levy increase?

- Protecting Student and Staff Data
- Purchasing Student Learning Software
- Improving Parent Communication Tools
- Maintaining and Replacing Instructional Devices

Please visit the website below for additional tax estimates and information.

The Dillon Elementary School District technology levy will provide sustainable funding to maintain a safe learning environment, ensure reliable access to educational resources, purchase parent communication tools and digital learning platforms as well as maintain and replace instructional devices.

Protecting Student and Staff Data and Privacy:

Annual threat response and cybersecurity subscriptions are vital in protecting student and staff data and maintaining a safe learning environment. In 2023, 22% of all data breaches involved the education sector, highlighting the significant risk and need for effective data protection measures.

Purchasing Student Learning Software:

Annual software fees for student assessment and learning tools are essential to the success of our students. The variety of educational resources provides personalized learning experiences, allowing students to progress, addressing their individual needs in an effective and enjoyable way. Additionally, it offers valuable data and insights to help us track progress, identify areas for improvement and tailor instruction to better support student achievement. Technology directly impacts our students' success.

Improving Parent Communication Tools:

Effective parent communication technology is crucial for fostering a supportive school community focused on student success. These funds will enable timely updates and the purchase of tools that enhance collaboration between parents and educators, improving student outcomes. Additionally, communication technology supports both administrative functions and the diverse needs of students.

Maintaining and Replacing Instructional Devices:

Maintaining and replacing instructional devices is crucial for keeping technology up to date and supporting effective teaching. Annual IT support contracts help our small school manage technical issues, maintain a productive learning environment, and allow educators to focus on student success. We also need repairs for devices used in state-mandated assessments.
