UMW's "On the Rocks" Series

The University of Montana Western Environmental Sciences Department is proud to host Brian Wheeler as part of the "On the Rocks" lecture series.

Wheeler will present "Beneath the Surface: Water Quality Monitoring on the Big Hole" on Wednesday, February 19, from 4:00-5:00 p.m. in UMW's Lucy Carson Library.

Students in the Environmental Remote Sensing and GIS (ENSC 384) course will showcase their final project poster presentations from 3:30-4:00 p.m. in the library.

Growth Policy Article

By: MJ

Last article I wrote was about the 'Study Committee' for making changes in the operation of the local government. This article is about the 'Growth Plan' for Dillon. **Note:** The goals and objectives are the foundation for the growth policy. Broad public participation are crucial to assure the success in developing the growth policy and implementing it. Some of the issues the developers of growth plan will need to address is; advancing technology, AI, robots, promoting economic growth, where do jobs of future come from, how will economic crisis be addressed…

Your ideas are like a gold coin to the committee. Each of you are creators, visualist, and have gifts that need to be shared with the planning board for the growth policy. Attend meetings, answer surveys, communicate via hard copy letters, internet media apps… Don't be one of those nay sayers that says, "it does not make any difference in what I say". **It does make a difference.** *Come out of the wood work old timers, and share your knowledge. Changes are going to happen so let's make them the best we can for our community. Today's world must be like it was when the steam engines, electricity, combustible engine and more came into existence and changed everyone's life.*

According to state statues the 'Growth Plan' must be updated every 5 years. The local governing body doing the update is 'Planning Board', MCA76-1-106. **The purpose;** is to encourage local government to improve the present and to plan for the future development of the community. This includes a wide range of issues to be consider from; residential areas, business, industry, zoning policies, subdivisions, overall welfare of the community… **Note:** This is not a regulatory document and does not confer any authority to regulate. Growth Policy provides the policy framework and rationale for regulation.

Watch for and be an active participant in any way you can to work with planning board writing the updated version of 'Growth Plan.'

Dillon Garden Club February Workshop

The Dillon Garden Club will host a workshop presented by Trouts and Sprouts on Monday, February 24th, 6:00 pm, at the Bank of Commerce Conference Room, 2nd Floor, located at 110 South Idaho Street.

Trouts and Sprouts is a local aquaponic and micro-greens gardener. Aquaponics is a unique farming method that combines aquaculture, the practice of raising fish, with hydroponics, the method of growing plants in a soilless environment. Come and learn about this innovative method of growing your own food.

The Dillon Garden Club's regular business meeting will follow at 7:00 pm. All are invited to attend.

Attorney General Knudsen, MTDOJ support legislation to protect children from dangerous drugs

Attorney General Austin Knudsen and Montana Department of Justice prosecutors and investigators testified in Senate Judiciary Committee in support of Senate Bill 261, sponsored by Senator Greg Hertz, which will protect children from dangerous drugs, like fentanyl.

Under the state's current endangering the welfare of children statute prosecutors can charge parents and other adults who cause or permit a child to inhale, be exposed to, have contact with, or ingest methamphetamine, or have contact with methamphetamine paraphernalia, but leaves out other dangerous drugs like fentanyl, heroin, and cocaine. SB 261 will close that loophole and add all dangerous drugs listed in Schedules I through V, not prescribed by a doctor, to the statute.

If passed, the bill will also make it a crime under the statute to:

- Cause or permit a child to inhale, be exposed to, or ingest marijuana or THC products, such as ingestible foods or drinks;
- Assist promote, or encourage a child to enter a place where human trafficking is taking place;
- Assist, promote, or encourage a child to enter a place where dangerous drugs are being criminally produced or manufactured.

Dear Friends,

We would like to express our heartfelt gratitude for the kind words, gestures, flowers, food, and donations shared with our family following the passing of Kevin. Your love and support during this difficult time have been a source of great comfort.

Thank you for honoring Kevin's life and for surrounding us with your care and compassion. Your kindness means more to us than words can express. Sincerely, The Wilkerson and Love Families

Motion for western Montana logging projects gains unanimous support

Montana Secretary of State Christi Jacobsen motioned during the February Land Board meeting to green-light logging operations in Beaverhead, Flathead, and Sanders counties. The motion received unanimous support from her fellow Land Board colleagues.

"It's important for us to manage our forests in Montana responsibly. These projects will reduce fire fuel and also promote resilience to insects and disease," said Secretary Jacobsen. "These timber sales will generate an estimated $650,000 for Montana trusts, including our local schools. It's a win-win for Montana and Montana's students."

"The combination of extreme environmentalists and out-of-touch federal bureaucrats have wreaked havoc on our precious forest lands. I'm proud to fight back by championing the Montana way of life," Secretary Jacobsen continued.

Secretary Jacobsen also joined her all-Republican Land Board colleagues during February's meeting to support the replacement of outdated bridges in Rosebud County.

Rotary Club of Dillon

The Rotary Club of Dillon will be meeting, Wednesday, Feb. 19th at 12 Noon at St. James Episcopal Church-Guild Hall. All are welcome to join us!

Mary Jo O'Rourke is our hostess and has arranged for our featured speaker to be Matthew Yetter who has a passion for 3D printing! He operates Wonder World Prints, located in the English Building. Matthew's specialty is creating miniatures for Dungeons & Dragons and other roleplaying games, which he ships worldwide. This is an application that requires multiple printing technologies. Matthew will discuss this process and the marketing of this niche product line in Dillon Montana! All Rotarians are encouraged to attend!

Our menu will be:
Meatloaf with Gravy (Gluten Free: Roast Beef & GF Gravy)
Yukon Mashed Potatoes , Roasted Vegetables
Dessert: Chocolate Flourless Cake

Senior Commodities

Senior Commodity boxes will be available for pick up Thursday February 20th from 9:00-10:30 at 761 Kentucky Dillon.

Please bring an empty box.

Dillon Elementary School District #10

2025 Technology Levy

By the Numbers

$150,000

Technology Fund increase to protect student and staff data, purchase student learning software, improve parent communication tools and maintain and replace instructional devices.

10 year term for levy

If approved, the technology levy would remain in place until 2035.

14.7% less per-pupil

Dillon Elementary School District spends 14.7% less per-pupil than Montana's per-pupil average. SD #10 spent $11,388 per pupil, in contrast to Montana's state average of $13,346, as reported in the 2022-2023 school year.

$50,000 - $1 million

Monetary losses to school districts following a cyber incident ranged from $50,000 to $1 million according to the U.S. Government Accountability Office.

23 years

Number of years since Dillon Elementary School District has requested technology funds, despite growing demand. Currently, the district has a $50,000 annual technology levy.

141%

Increase in technology-related costs over the last 7 years ensuring students and the district can keep pace with technological advancements essential for modern education.

$275,000 current shortfall

Current technology costs exceed the existing $50,000 technology levy by $275,000. A new technology levy would increase funding and allow general funds to be reallocated to support our students, teachers, staff, and community.

You're Invited to Elementary Technology Levy Information Meetings

Join us for one of three community meetings to provide information and answer questions about the upcoming levy. Each session will be simultaneously available both via in-person and virtually at the following dates and times, taking place in the Parkview Elementary Cafeteria. We encourage you to join us at one of the sessions to learn more about the 2025 elementary technology levy that will appear on the ballot this May!

Tuesday, February 18th at 5:30pm **Tuesday, March 18th at 6:00pm** **Thursday, April 10th at 7:00pm**

Dillon Elementary School District #10

2025 Technology Levy

Dillon Elementary School District #10

Why is Dillon Elementary asking for a technology levy increase?

Dillon Elementary School District #10 is asking for voter approval of a $150,000 technology levy increase in the May 2025 election to help maintain and update critical educational technology. This additional funding will support the following:

- Protecting Student and Staff Data
- Purchasing Student Learning Software
- Improving Parent Communication Tools
- Maintaining and Replacing Instructional Devices

How much would this cost me?

Tax Increase Estimate	
$8.01 per year	*Estimate for a home with a market value of $100,000*
$24.02 per year	*Estimate for a home with a market value of $300,000*
$48.03 per year	*Estimate for a home with a market value of $600,000*

Please visit the website below for additional tax estimates and information.

The Dillon Elementary School District technology levy will provide sustainable funding to maintain a safe learning environment, ensure reliable access to educational resources, purchase parent communication tools and digital learning platforms as well as maintain and replace instructional devices.

Protecting Student and Staff Data and Privacy:
Annual threat response and cybersecurity subscriptions are vital in protecting student and staff data and maintaining a safe learning environment. In 2023, 22% of all data breaches involved the education sector, highlighting the significant risk and need for effective data protection measures.

Purchasing Student Learning Software:
Annual software fees for student assessment and learning tools are essential to the success of our students. The variety of educational resources provides personalized learning experiences, allowing students to progress, addressing their individual needs in an effective and enjoyable way. Additionally, it offers valuable data and insights to help us track progress, identify areas for improvement and tailor instruction to better support student achievement. Technology directly impacts our students' success.

Improving Parent Communication Tools:
Effective parent communication technology is crucial for fostering a supportive school community focused on student success. These funds will enable timely updates and the purchase of tools that enhance collaboration between parents and educators, improving student outcomes. Additionally, communication technology supports both administrative functions and the diverse needs of students.

Maintaining and Replacing Instructional Devices:
Maintaining and replacing instructional devices is crucial for keeping technology up to date and supporting effective teaching. Annual IT support contracts help our small school manage technical issues, maintain a productive learning environment, and allow educators to focus on student success. We also need repairs for devices used in state-mandated assessments.
