Cecil "Garry" McKinlay

Garry McKinlay, 93, of Dillon passed away peacefully in his home surrounded by family on November 6, 2026. He was born December 18, 1932, in Newdale, Idaho to proud parents Cecil & Mabel McKinlay. He was raised on the family ranch in Armstead, Montana where his father owned a tavern in Armstead.

After graduating from Beaverhead County in 1948 he went on to join the Navy and proudly defended our country in the Korean War.

He later married Melba Christiansen and had 4 children; they later divorced in 1975.

Garry worked for Santa Ana Fire Department and all side gigs, where his line was "I'm a jack of all trades but master of none", until his retirement in 1982. After he relocated back to Dillon, MT "where the mountains in the big sky were always home".

He is preceded in death by his parents, 2 brothers, 2 sisters and 2nd born child Melinda "Dindy".

He is survived by his beloved friend Joann Ragni of 45+ yrs of Brea, CA.3 Children, Michael (Patty) McKinlay of Vista, CA, J. Mark (Amy) McKinlay of Dillon, Jaycie McKinlay of Pocatello, ID, 9 grandchildren, 16 great Grandchildren, and several nieces & nephews.

Services are handled by Brundage Funeral Home on November 19th 11:00am with visitation starting at 10:00am. Burial will follow in the family cemetery in Teton, ID.

Special thank you to HoneyBee Hospice for all your extraordinary care in his final days, especially Maggie who was along for the long journey.

Donations, please give to HoneyBee Hospice of Dillon.

Beaverhead County High School Musicians Perform at Prestigious University of Montana All-Star Band Festival

Five talented senior musicians from Beaverhead County High School recently represented their school at the annual University of Montana All-Star Band Festival in Missoula. The three-day event took place from November 13 to November 15, bringing together top high school band students from across the western half of the United States.

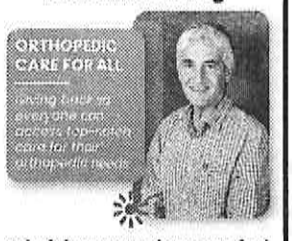

Participation in the festival is highly competitive. Students must first be nominated by their high school band directors and are then selected based on the strength and accomplishments of their musical resumes.

Throughout the weekend, the selected musicians rehearsed intensively and worked directly with acclaimed composer Carol Britten Chambers on several of her works, as well as

Bozeman Symphony Launches $300,000 Fundraising Campaign to Bring the Power of Music to Bozeman & Communities Across Montana

The Bozeman Symphony is inviting the community to join its musical journey this season with a fundraising campaign aimed at raising $300,000 to support world-class performances, music education, and community engagement throughout Montana.

This season, the Symphony celebrates the power of music to connect people across cultures, centuries, and musical traditions. Through extraordinary performances and meaningful community experiences, the Symphony seeks to inspire audiences, introduce new perspectives, and strengthen connections through music.

"Music has a unique ability to engage, unite, and uplift us," said Norman Huynh, Music Director of the Bozeman Symphony. "With the support of our community, we can continue creating extraordinary musical experiences while making music more accessible to people in Gallatin County and across Montana. We are deeply grateful to everyone who believes in this mission and joins us on this musical journey."

To help make this vision possible, generous sponsors Calum and Tricia DeSouza, along with an Anonymous donor, have committed a combined matching gift of $50,000. Through this special opportunity, contributions will be matched dollar for dollar, doubling the impact of every donation until the full $50,000 match is met.

Funds raised through the campaign will support three key areas of Bozeman Symphony's strategic plan:

- Presenting world-class performances that inspire, transport, and connect audiences.
- Expanding music education and community engagement to reach nearly 10,000 people annually across Montana.
- Investing in the exceptional musicians whose artistry and dedication bring the Symphony's music to life.

Community members are encouraged to make a gift today to take advantage of this special matching opportunity. Every contribution helps ensure that the transformative power of music continues to reach audiences and communities throughout Montana.

To make a donation and have your gift matched, visit the Bozeman Symphony's website: https://www.bozemansymphony.org/annual-campaign.

Health Minute: Creatine, Strength for the Life You're Living

By Amber Barone, RN, BSN, Holistic Nurse and Owner of Mighty Oak Mercantile

Contrary to popular belief creatine isn't just for bodybuilders and athletes. It's one of the most researched supplements available and a natural fit for the everyday, aging body. Your body already makes creatine and stores it mostly in your muscles, with smaller amounts in your brain, where it acts like a quick-recharge battery for everything from hauling in groceries to remembering where you set your keys (or your reading glasses, which are probably on your head). After about age 40, we all gradually start to lose our muscle mass, and with it some of our strength, balance and resilience.

Paired with regular movement and resistance training (yes, walking and stacking firewood counts), a daily scoop of creatine helps us all hang on to lean muscle and strength. It helps muscles bounce back after activity, so a weekend of chores doesn't cost you all of Monday to recover. Research also points to support for memory, mood, focus and mental energy. Together, these benefits support the strength and stability that keep you active, steady on your feet and independent for years to come.

Our Pure Creatine Monohydrate keeps it simple: one ingredient, micronized creatine monohydrate, with no fillers, flavors or additives. It's unflavored and mixes easily into water, coffee/tea, a smoothie or your morning yogurt. Most adults take 1 teaspoon daily, and taking it every day matters more than when you take it. If you have kidney concerns or are pregnant or nursing, check with your healthcare provider first.

*For educational purposes only; not a substitute for individualized medical advice.

Mighty Oak Mercantile, your neighborhood shop for healthy living, rooted in resilience. 34 N Idaho, Suite 1, Dillon. Winter Hours: Open Tuesdays 12–6pm and Wednesday–Friday 10am–3pm.

BLM and USWFS Launch Prescribed Burn Season Near Dillon to Reduce Threat of Wildfire and Restore Public Lands

The Bureau of Land Management and the U.S. Wildland Fire Service will begin pile burning operations throughout the Dillon Field Office as weather, fuel, and air quality become favorable. Starting in Nov. 2026 through March 2027 in Beaverhead and Madison Counties, specifically near Grant, Virginia City, Clark Canyon Reservoir, Twin Bridges and Dillon, Montana. These treatments are carefully planned to reduce hazardous fuels, protect nearby communities, and restore native ecosystems. Information about specific upcoming and active burns is available online.

The designated areas for burning include:

- Schwartz Creek area near Grant
- Granite Creek drainage as well as Alder Gulch area near Virginia City
- East Fork Clark Canyon Creek near Clark Canyon Reservoir
- Nugget Creek and Noble fork near Twin Bridges (South Tobacco Root Mountains)
- Cottonwood Creek Northwest of Dillon

These burns focus on increasing safety in the wildland-urban interface and restoring ecological function to the landscape. Targeting built-up fuels and residual materials from previous thinning operations decreases the load of dead trees, branches, and underbrush that pose significant wildfire risks.

What the public should know

- During prescribed burns, smoke may settle in low-lying areas overnight.
- Residents are encouraged to close windows at night to avoid smoke impacts.
- When driving in smoky areas, drivers should slow down and turn on headlights.
- People with heart or lung disease, asthma, or other chronic conditions should ask their doctors about protecting themselves from smoke and should monitor their local air quality map.

All burns are carried out when weather, fuel conditions, and air quality are within specific parameters. Firefighters use a combination of natural features and constructed control lines to keep the fire contained, with protocols in place to minimize
